Rollins College Bulletin 1971-1972

GENERAL
CATALOG
1971-1972

Rollins College prohibits and rejects any discrimination based on race, sex, color, creed, national origin, and religion in the selection and admission of students. Applicants can be fully assured of admission solely on the basis of their academic achievements and qualifications.

Further, the practice of discrimination on the basis of race, color, creed, national origin, and religion is prohibited in all programs and activities at Rollins College.

This catalog supersedes all previous issues. The College reserves the right at any time to make whatever changes may be found necessary.

ROLLINS COLLEGE BULLETIN

Vol. LXVI

July, 1971

No. 1

Issued six times per year: July, 2 issues; August, 2 issues; September, 1 issue; October, 1 issue. Second-class postage paid at Winter Park, Florida, Post Office, under Act of Congress of July, 1894.

DIRECTIONS FOR CORRESPONDENCE

THE ROLLINS COLLEGE BULLETIN is the official organ of the college. It includes a statement of purpose, the courses offered, the standards of the College, and a listing of the faculty and administrative staff.

An admissions handbook with preliminary information about Rollins College is made available to all prospective students.

Correspondence to the College should be sent to:

Rollins College, Winter Park, Florida 32789

Visitors to the College are always welcome. Tours of the campus are provided by the Admissions Office. It is suggested, however, that visits be scheduled in advance, especially during the busy Christmas and Spring Holiday seasons. The Admissions Office is open from 9:00 A.M. to 4:00 P.M., Monday through Friday, and from 9:00 A.M. to Noon on Saturday during the school year. Other College offices are open from 8:30 A.M. to 5:00 P.M. Monday through Friday. At any other time members of the faculty and administration may be seen by special appointment only.

Introduction

BACKGROUND AND MISSION

Rollins College, founded in 1885, offered the first college level work in Florida. Established under the auspices of the Congregational Church, Rollins today is non-denominational, coeducational, and independently supported by income from tuition and investments of friends and alumni. Primarily a four-year undergraduate liberal arts college, Rollins offers graduate study in the Roy E. Crummer School of Finance and Business Administration and in certain special programs noted on page 16.

The College is dedicated to sound liberal learning for those with the capabilities of leadership. Rollins does not propose an average education for the average student. Its mission is to offer education which emphasizes a maximum effort and commitment to innovative excellence by each student.

COMMUNITY AND CAMPUS

The College is located in one of the nation's most beautiful communities. The Central Florida area, noted for its natural beauty and emphasis on culture, is an important center of industry, science, and technology. In response to the needs of this fast-growing area, the College provides undergraduate degree programs through its Central Florida School for Continuing Studies, Patrick Air Force Base Branch, and evening graduate programs in physics, engineering physics, business administration and education. Community courses in creative arts for children and adults and special non-credit courses are offered under the School of Creative Arts.

The Rollins campus comprises 65 acres in Winter Park, a residential community adjacent to the city of Orlando.

Fifty miles from the Atlantic Ocean and 70 miles from the Gulf of Mexico, the campus is bounded by Lake Virginia to the east and south. The campus is beautifully landscaped and its

physical plant emphasizes a traditional Spanish-Mediterranean architecture. Value of the buildings and facilities is approximately \$32,000,000.

ACCREDITATION

Rollins College is an accredited member of the Southern Association of Colleges and Schools and of the National Association of Schools of Music. Rollins is also a member of the Association of American Colleges, the American Council on Education, the Florida Association of Colleges and Universities, the College Entrance Examination Board, the American Association of University Women, and the American Association of Colleges for Teacher Education.

DEGREES, CURRICULUM, AND MAJORS

The academic program of the College is centered in the basic liberal arts and sciences. Rollins confers the Bachelor of Arts and the Honors Bachelor of Arts degrees in the residential College.

Majors are offered in the following: Art, Behavioral Science, Biology, Chemistry, Economics, Elementary Education, English, Environmental Studies, Expressive Arts, French, German, History and Public Affairs, Latin American Studies, Mathematics, Music, Philosophy, Philosophy and Religion, Physics, Pre-Engineering, Pre-Forestry, Pre-Medicine, Spanish, and Theatre Arts.

A major strength of the Rollins curriculum is the opportunity provided for students to select interdisciplinary majors. The major in History and Public Affairs encompasses the disciplines of history and political science. The major in Behavioral Science includes anthropology, sociology, and psychology. Latin American Studies includes courses offered by departments from each division of the College. Environmental Studies, Expressive Arts, Pre-Engineering, Pre-Forestry, and Pre-Medicine majors are also interdisciplinary in content.

The student who selects an interdisciplinary major chooses a field of concentration within that major and explores it in depth, gaining an appreciation of its relation to relative fields through the interdisciplinary approach.

Facilities of the music department, two art galleries, and two theatres afford opportunities for both theoretical and applied study.

The freshman year offers interdisciplinary courses in the humanities, social sciences, and the natural sciences. In addition, a number of freshman courses are offered by various departments of the College. During the winter term, freshmen participate in a directed study course

related to their foundation course work during the fall term.

At the end of the freshman year, students select their major and satisfy most of the major department requirements during their sophomore and junior years. Senior departmental and interdisciplinary courses are required during the senior year and, in some fields, comprehensive examinations.

ENROLLMENT

The undergraduate student body numbers approximately 1100.

Rollins is international in scope: 39 states, the District of Columbia, and 21 foreign countries are represented in its student body.

ADMISSION

Students are carefully selected on the basis of academic preparation and qualities of leadership. Scholarship help, loans, and work-aid are available for many students of proven ability and financial need. All applicants must take the examinations given by the College Entrance Examination Board.

ACTIVITIES

There are honorary, social, religious, athletic, dramatic, musical, literary, linguistic, and scientific organizations on campus. Included are fraternity and sorority chapters of national Greek letter societies. The Association of Unaffiliated Students welcomes all students who are not members of a fraternity or sorority.

Rollins has excellent instruction in sports, but does not offer courses for credit in physical education. Intercollegiate varsity teams compete in six fields and intramural sports include a wide range of activities.

The College

OBJECTIVES

Rollins College is a private, independent liberal arts college. The College seeks to provide an education for young men and women who dignify the human mind, possess innovative competence, and believe in integrity of accomplishment and diversity within order. As part of the objectives of the College, there is a deep and continuing concern for the quality of life, for values and traditions, and for an education that can provide a student with the means of operating effectively and maturely within a framework of responsibility and accountability. Within the curriculum of the College and its allied programs, the College seeks to nourish creative perspective among its young people, a breadth of knowledge, and the ability to seek out what is both right and wrong in today's society. This interest in man's environment and in the ways man's quality of accomplishment can be improved, is the primary objective of Rollins College.

Strong emphasis is placed on a quality education by individualized instruction through a variety of means. The College program is aimed, therefore, at developing the creative ability of each student to think, write, and speak with an independent and free mind. At Rollins, this education is planned to assist the student in gaining a comprehensive and integrated knowledge of the basic concepts of physical and behavioral sciences, an appreciation of literature and the humanities, and a sensitivity to the expressive arts. Each student also concentrates on a particular field by developing individual confidence and knowledge in a specific discipline.

Since a Rollins education emphasizes self-motivation and self-direction, it is necessary that each student give his or her full talents and capabilities in meeting the basic objectives of the College.

HERITAGE

Founded in 1885 by Congregational churches in Florida, Rollins is no longer specifically identified with the Church. Out of this heritage, however, the College has preserved, cherished, and enhanced a quality of aggressive independence. Nevertheless, it is a young institution—young in thought, action and purpose, taking the best from its traditions of independence and service to the community and nation. As a pioneer in co-education in the southeastern United States, the College has been and continues to be a national institution, with students, alumni, and support throughout the country.

The College has enjoyed a succession of dedicated and able presidents. Edward Payson Hooker (1885-1892), George Morgan Ward (1896-1903), William Fremont Blackman (1903-1915), Hamilton Holt (1925-1949), and Hugh F. McKean (1951-1969) have all contributed to the advancement of high standards of scholarship, close student-teacher relationships, and innovation in the educational world.

During the administration of Dr. Hamilton Holt, Rollins College established the conference plan, which emphasized close teacher-student contact. Under this plan, teachers and students evoked oral and written expression from each other, an activity which led the student to develop clear standards by which he or she could judge his or her own work. The College retains this worthy method but not to the exclusion of other significant approaches to teaching. Dr. Holt, through his experimental approaches of the time to higher education, brought national renown and distinction to Rollins College.

During the recent administration of Dr. Hugh F. McKean, the College developed the Honors Degree Program for exceptionally well prepared and qualified students. Graduate programs were established in physics, education, and business, as were the Central Florida School for Continuing Studies, located in Winter Park, and a separate branch of the College at Patrick Air Force

Base, which together provide evening education programs for nearly 2,500 adults. Although President McKean was a student and professor of art, it was during his administration that significant advances and a general strengthening of the College programs in business administration, economics, and the sciences occurred. First building a strong faculty, he then secured two outstanding facilities for the College: The Roy E. Crummer School of Finance and Business Administration and The Archibald Granville Bush Science Center. Other facilities added during the McKean administration included the Charles A. DuBois Health Center, the Enyart-Alumni Field House, and three major student residence halls.

Dr. Jack B. Critchfield was elected President of Rollins College in 1969. Under his leadership the College has moved in new directions by establishing programs in environmental studies and further innovations in the field of graduate business education. The Critchfield administration has been marked by a lively attack upon old and new problems in man's unceasing efforts to improve the quality of life. Continuing to build a strong and dedicated faculty, and aggressively seeking those students who will most profit by the personalized education provided at Rollins College, Dr. Critchfield has generated new support from all facets of the community for the College.

THE FUTURE

During the 1971-72 academic year, an addition will be completed for the Knowles Memorial Chapel and new facilities will be provided in athletics. Specific planned additions in the next three-year period include an Expressive Fine Arts Center for theatre arts, speech, art, and music; a Communication Arts Center, housing the foreign language departments and English; a new Student Union Building; and an addition to the Mills Memorial Library. These planned additions will give the College one of the finest physical plants in the southeastern United States.

The President with the able and dedicated assistance of trustees, students, faculty, and administrative staff, has charted a new course for Rol-

lins College, building upon the heritage of the past. In this endeavor, a broad commitment and enthusiastic dedication have been fostered by the Rollins academic community throughout the first two years of the Critchfield administration.

BUILDINGS AND EQUIPMENT

The newer buildings on the campus are similar in architectural design, marked by a strong Mediterranean influence; thirty-three have been erected within the last forty years.

The most recent addition is a 198-bed women's residence hall for upper class students which joins the group of women's dormitories whose most recent previous addition is Elizabeth Hall, built in 1958 for freshman women. On the men's side of the campus, eight freshmen and a selected upper class counselor are assigned to each unit of New Hall, opened in 1962. The most recently built men's dormitory, Holt Hall, houses approximately 78 non-fraternity students.

THE MILLS MEMORIAL LIBRARY

The Mills Memorial Library building, presented through the generosity of the Davella Mills Foundation, was occupied in the fall of 1951. On March 1, 1971, the library contained 138,657 cataloged volumes (books and bound periodicals) and 7,583 maps. It receives 533 current periodicals (including 18 newspapers), is a selective depository for U.S. Government publications, and has extensive holdings of recordings, pamphlets, microfilm and microcard materials, and mounted art plates.

The library has two main floors in the public area; a large basement housing the broadcasting studios of Station WPRK, a projection studio for the presentation of instructional films, slides, and film strips, and a six-level book stack with a capacity of 170,000 volumes. Five levels are open stacks; the sixth level houses the College Archives, the government documents, gifts, duplicates and exchanges. Reading rooms, study carrels, and loggias seat approximately 350. The reference room opens onto a shaded patio. Adjacent to the reference room are a newspaper and periodical lounge and a map and atlas room.

The reserve reading room, the browsing room, and two listening rooms are located on the second floor. The Jessie Rittenhouse, Walt Whitman, Benjamin Franklin, and Constance Fenimore Woolson special collections, the library of the Hispanic Institute, the art reference picture collection, and the phonograph records collection are also on this floor. The Hamilton Holt papers are housed in a special area.

The Floridiana Room on the main floor contains an outstanding Florida collection noted for its extensive and rare items of Floridiana. The Union Catalog of Floridiana, in the public catalog area, is a most valuable research tool. The Rare Books Room has valuable manuscripts and scarce and rare books.

The facilities of the Mills Memorial Library are open to residents and visiting scholars and writers in Winter Park.

Income from endowments is supplemented by an annual appropriation from the general funds of the College for the library's budget for books, periodicals, and other expenses. The Rollins "Book-A-Year Club" is made up of friends of the library who have contributed memberships or memorials of \$150 each to the endowment, thus providing in perpetuity one new book each year, bearing the name of the donor. Gifts to the College of private collections and of cash for specific purposes are other valuable sources of library materials.

THE CRUMMER SCHOOL LIBRARY

The Crummer School departmental library, located in the Roy E. Crummer School of Finance and Business Administration, contains 7,649 cataloged books, 293 periodical and newspaper subscriptions (including gifts), and more than 1,000 uncataloged reports, and pamphlets.

BUSH SCIENCE CENTER LIBRARY

The Bush Science Center Library, located on the second floor of the Archibald Granville Bush Science Center, was opened in January 1969. This library contained 7,600 books and bound periodicals on March 1, 1971. It has 118 current periodical subscriptions.

THE ROLLINS MUSEUMS

The Thomas R. Baker Museum, named in honor of its founder, has scientific collections used in the study of natural science.

The Beal-Maltbie Shell Museum with its famous collection of shells, occupies a specially designed building on the campus. Many of the shells are extremely rare.

The Morse Gallery of Art contains probably the finest exhibition in the world of Louis Comfort Tiffany's various art works. The recently remodeled Gallery, first opened in 1942 by Mrs. Hugh F. McKean as a memorial to Chicago industrialist Charles H. Morse, includes thirteen windows in which Tiffany experimented with new techniques. The permanent exhibition also includes the breakfast table and chairs from Tiffany's great Art Nouveau mansion at Oyster Bay, Long Island, and examples of his paintings and work in pottery, silver, and jewelry.

The Rollins Museum of Art represents the first step in the development of a comprehensive fine arts center for the College. Located on Interlachen Avenue in the former President's residence (Holt House), the Museum offers a continuing display of art treasures. Among paintings in the permanent College collection are works by Sir Anthony Van Dyck, Tintoretto, Gilbert Stuart, Francesco de Mura, Madame Vigee LeBrun, Lamar Dodd, Anna Mary Robertson (Grandma) Moses, George Inness, Lavinia Fontana, and Childe Hassam.

The Museum of Living Art, a collection of art of all periods, is dispersed and shown in various buildings of the College. The Smith Watch Key Collection, one of the most extensive of its kind, presenting 400 years of history in this aspect of jewelry making, is on display in the Archibald Granville Bush Science Center.

THE ROY E. CRUMMER SCHOOL OF FINANCE AND BUSINESS ADMINISTRATION

The Roy E. Crummer School of Finance and Business Administration of Rollins College was established through the interest of the late Mr. Roy E. Crummer, who donated \$1 million for the purpose of providing the highest quality of professional preparation for future businessmen based upon a solid background of liberal education. The School offers to Rollins students an opportunity to combine education in the liberal arts and training for careers in finance and management in a five-year educational sequence.

INTERNSHIPS AND SCHOLARSHIPS IN CRUMMER SCHOOL

Students from the undergraduate college of Rollins, seeking to enter the two-year Crummer Program at the end of either the junior or senior year may apply for scholarship assistance.

A number of industries and firms have established scholarships and/or internships in the Crummer School. Applications for these scholarships should be made through the office of the Dean of Student Affairs or the Dean of the Crummer School.

THE CENTRAL FLORIDA SCHOOL FOR CONTINUING STUDIES

A DIVISION OF ROLLINS COLLEGE

The rapid growth and development of the Central Florida area following World War II brought Rollins College many requests for additional educational services. In 1951, the College introduced an adult evening program, part of which evolved into The Central Florida School for Continuing Studies, a Division of Rollins College.

Open primarily to qualified adults, the School provides a liberal arts program leading to a bachelor's degree. Concentrations are offered in business administration and economics, the humanities, mathematics and science, preparation for teaching, the social sciences, and criminal justice.

The latest addition, criminal justice, is specifically addressed to the task of raising the educational level as well as the prestige of law enforcement officials and typifies the responsiveness of the school to societal needs.

PATRICK AIR FORCE BASE BRANCH

At Patrick Air Force Base, Rollins College maintains a Branch whose student body comprises military, civil service, and missile range contractor personnel, their dependents, and active teachers in the Brevard County Schools. These students follow individualized programs leading to the degree of Bachelor of General Studies.

Information about admission and a descriptive brochure may be secured by writing to the Director, P.O. Box 4393, Patrick Air Force Base, Florida 32925.

THE GRADUATE PROGRAMS OF ROLLINS COLLEGE

Rollins College offers graduate degree programs in the areas of business administration, physics, engineering physics, and education. Descriptive bulletins of the various graduate programs may be secured from the Admissions Office of the College. Admission to any one of the programs is arranged through the Admissions Office.

1. GRADUATE PROGRAMS IN FINANCE AND BUSINESS ADMINISTRATION

a. *The Crummer Program*

The Roy E. Crummer School of Finance and Business Administration offers a curriculum leading to the degree of Master of Business Administration. This program, limited to full-time graduate students, provides preparation for financial and industrial management at a professional level. The two-year sequence of study, incorporating modern concepts of financial administration, data processing, automation, and behavioral and management sciences, is designed to permit qualified Rollins College seniors and selected applicants from other accredited colleges to earn the degree of Bachelor of Arts at the end of their fourth year, and the Master of Business Administration degree at the end of the fifth year of college work.

Further information concerning the Crummer Program is set forth on pages 27-28.

b. *Master of Science in Management*

This program offers to qualified graduates of accredited colleges a curriculum of part-time evening studies designed to prepare candidates for responsible supervisory and administrative positions in management.

The courses leading to the Master of Science in Management degree include optional concentration in the fields of General Management, Engineering Management, and Accounting. The Accounting major is designed to prepare the student, assuming other requirements are met, for a professional Accounting career.

The program is accredited by state and regional authorities, and accepted for the training

of veterans. Specific entrance requirements and procedures are set forth in the bulletin of the graduate programs.

2. MASTER OF SCIENCE PROGRAM

The College offers a Master of Science program with majors in either Physics or Engineering Physics. This program is designed to provide a sound working knowledge of advanced physics for both physicists and engineers. All courses are offered in the evening for the convenience of those employed during the day in local industries and laboratories. Offerings include advanced mathematics, analytical mechanics, electromagnetic theory, atomic and nuclear physics, quantum mechanics and solid state physics.

A major in Physics completes a research project and thesis, while a major in Engineering Physics will fulfill the requirements by taking six additional hours of course work.

3. GRADUATE PROGRAM IN EDUCATION

This program offers to qualified graduates of accredited colleges curricula leading to either the Master of Arts in Teaching or the Master of Education degree. The Florida State Department of Education has approved the program as a guide to granting the Post Graduate (Rank II) Certificate to eligible applicants.

a. *Master of Arts in Teaching*

This degree is available to the liberal arts graduate who as a part of his undergraduate study did not complete a teacher education program sufficient to enable full certification. The plan of study will include courses in professional education and depth study in the area of teaching specialty.

b. *Master of Education*

This degree is available to the graduate who has completed a teacher education program sufficient to enable full certification. The plan of study will include a major in a professional specialty area and courses in the teaching specialty.

Specific admission requirements and procedures are set forth in the *Bulletin* of the Graduate Program in Education.

HONORS PROGRAMS

Rollins College offers two distinct honors programs, each of which satisfies the needs of a particular category of students:

1. **THE HONORS DEGREE PROGRAM.** This program is designed for academically superior students who are ready to do honors work in their freshman year and are prepared to follow a four-year curriculum leading to a special Honors B.A. degree. Successful candidates in this program graduate with a pass, *cum laude*, *magna cum laude* or *summa cum laude*.

This program has the following main objectives:

- a. To provide an intensive liberal arts education.
- b. To ensure a solid preparation for graduate training.

Freshmen are invited to enter the program towards the end of the fall term on the basis of their high school records, performance in college and an interview with the Honors Committee. Experience has shown that the student who is best suited for the program is one who enjoys academic work, is able to work on his own, has a fairly clear idea of his field of specialization before entering the program, and intends to go on to graduate school.

The Honors B.A. degree is offered in the following fields: art history, behavioral science, biology, chemistry, economics, English, French, German, government, history and public affairs, mathematics, philosophy, physics, Spanish, and theatre arts. The program has its own graduation requirements, a distinctive curriculum, and its own specialist academic advisers.

Curriculum

The curriculum is designed to add greater depth in the major field and more advanced independent work to the interdisciplinary emphasis of the normal program. These features are provided in the following manner:

A. Depth in the Major Field

Students are required, in addition to satisfying the major field requirements for the normal de-

gree, to take an extra graduate-level course in the field, pass a comprehensive examination, and complete a research project with its associated thesis.

B. Independent Study

All students in the program follow a four-year, planned, independent study sequence having a systematically increasing level of difficulty and a decreasing level of supervision.

C. Interdisciplinary Courses

All participants are required to take the freshman Foundation Courses offered in the normal program. In their senior year they are required to take the Senior Synoptic Course.

Graduation Requirements

To graduate from the honors degree program, candidates must satisfy course, grade, credit, examination and residence requirements. The course and examination requirements have already been stated; the grade and credit requirements follow:

A. Grade Requirements

The following table lists the grade requirements students must attain to earn the honors degree and to graduate *cum laude*. Graduation *magna cum laude* and *summa cum laude* are at the discretion of the Honors Committee.

Requirement Areas	Cum Laude	Pass
a. Cumulative Average	10.50	9.50
b. Comprehensive Examination	B+	B-
c. Research Project	B+	B-
d. Individual Study Average	10.00	9.00

B. Credit Requirements

Courses	No. of Courses
1. Interdisciplinary Courses	
a. Foundation (Humanities)	2
b. Foundation (Social Sciences)	2
c. Foundation (Natural Sciences)	2
d. Departmental Senior Seminar	1
e. Senior Synoptic Course	1

2. Independent Study	
a. Directed Honors Project	1
b. Independent Study (Sophomore)	1
c. Department Independent Study (Senior) .	1
d. Advanced Independent Study	1
3. Research Project	2
4. Additional Major Field Requirements	10
5. Electives	12
	<hr/>
Total	36

2. THE HONORS AT GRADUATION PROGRAM.

This program is designed for the superior student who is qualified to begin honors work in his junior year, although applications may be made at the beginning of the senior year. Qualified students are normally invited at the end of the second term of their junior year by the Academic Standards Committee to engage in independent study for Honors at Graduation. An approved plan of independent study may be started in the spring term of the junior year, but cannot be started later than the beginning of the winter term of the senior year.

The candidate for honors must submit a thesis project to the Academic Standards Committee no later than Monday of the last week of classes of the fall term of his senior year. The project must be approved by the Committee prior to the first day of winter term classes.

The honors thesis may be written in conjunction with the regular program, so that if the student intends to register for a course of Independent Study, the subject matter of which is to have a direct bearing on the honors project, he may combine the two, and the Independent Study credits will be included as Honors credits.

The thesis must be presented to the office of the Dean of the College not later than Monday morning of the eighth week of the final term of the senior year. It must be typewritten, with an original and two carbon copies. The original is filed in the College library; the first copy goes to the files of the major department; the other is returned to the student.

A student who is a candidate for Honors at Graduation takes final examinations which include a written examination in the major field,

and an oral one in the special field covered by the thesis. The Graduate Record Examination will be used as the written examination in the event that no GRE Advanced Test or other suitable examination exists in the student's major field. The oral examination is conducted by a special Examination Committee appointed by the chief academic officer, and is made up of the candidate's sponsor, members of his major department, and two members from other departments. One or more members of the Academic Standards Committee will be present at this examination.

It is the responsibility of the candidate to distribute copies of the thesis early enough to all the members of the Examination Committee to insure them of an opportunity to read the thesis prior to the examination date.

The program for Honors at Graduation normally carries one course credit, although a special project of exceptional complexity and scope may be allowed two course credits if after a special appeal to the Academic Standards Committee by the candidate and his sponsor, the Committee deems it worthy. Once the program has been approved, it may be dropped only with the joint permission of the sponsor, adviser, and the Academic Standards Committee.

Seniors participating in the program are designated at graduation as follows:

GRADUATION WITH DISTINCTION—A cumulative average of 10.00 and the specific recommendation of the Examination Committee,

GRADUATION WITH HIGH DISTINCTION—A cumulative average of 10.50 and the specific recommendation of the Examination Committee,

GRADUATION WITH HIGHEST DISTINCTION—A cumulative average of 11.00 and the specific recommendation of the Examination Committee.

A student who has not done independent study for Honors, but whose general average is high may be awarded his degree with distinction. The requirement for this honor is an average for all courses of not less than 11.00.

ORIENTATION AND GUIDANCE

An extensive and carefully organized program of orientation and guidance is provided for all students.

All entering students arrive at the College several days in advance of the upperclassmen. Freshmen meet with upperclassmen and faculty members for small group discussions throughout College Preparation Week. The small group discussions serve to acquaint the students with the academic, social, and co-curricular aspects of the Rollins community.

Each freshman student is assigned to a faculty adviser who meets with him or her during this week to arrange individual course schedules for the Fall term. This faculty member is available for conferences with his student advisees throughout the year on matters of academic and personal importance.

Shortly before the end of his freshman year at Rollins, the student chooses a major. The student then selects a professor in the major department to serve as his adviser.

The Office of Student Affairs and the Student Health Service provide counseling for students throughout their college career. In addition, a number of undergraduate students serve on the housing staff of the Dean of Student Affairs with the responsibility of assisting the freshmen to make a successful adjustment to college life.

THE ROLLINS STANDARD

GENERAL POLICIES OF THE ROLLINS CODE OF STUDENT CONDUCT

A. Rollins College is dedicated to the kind of liberal arts education which fosters all aspects of the student's personal, social, and intellectual achievement. It is therefore a basic aim of the College to provide an environment which will help students to develop in understanding and maturity.

B. The College expects all students to obey the laws of the local community, the state, and the nation, as well as the College law. In case a student violates a community, state, or national law, the College will not request special con-

sideration for him because of his status as a student. Violators of College law are liable to disciplinary action by the Student Court.

C. A student cannot be tried by the Student Court for violating a community, state, or national law unless the violation of College law is involved. If he is charged and convicted by a civil court, he may be tried subsequently by the Student Court.

D. No officer or member of any recognized campus group may use his (or her) official position in any way to aid or encourage the members of his (or her) group to violate any local, community, state, or national law.

E. All student conduct should adhere to the basic principles of responsibility inherent in membership in the campus community.

CONDUCT OF STUDENTS

It is a part of the Rollins concept that the learning which takes place on the campus through our classroom instruction, religious activities, social functions, and all other opportunities for interpersonal and intellectual relations is of utmost concern to the College.

The faculty has been entrusted and charged by the Board of Trustees with all matters pertaining to the order, instruction, discipline, and curriculum of the College. It is responsible for the maintenance of good order and discipline within the student body, and for the authorization and enforcement of needed rules and regulations. The faculty, in turn, has delegated certain of these responsibilities to the Dean of the College, the Dean of Student Affairs, the Rollins Student Association, and the Student Court.

The possession or use of alcoholic beverages by minors is illegal in Florida. Possession or use of alcoholic beverages is expressly forbidden on the Rollins College campus. Intoxication or disorderly conduct by Rollins students is not permitted.

Rollins College does not condone the possession, use, or distribution of marijuana, LSD, or any stimulant, depressant, narcotic, or hallucinogenic drugs by any of its students except on the prescription of a physician or dentist as prescribed by law.

No firearms of any kind are allowed on campus.

As part of the over-all educational program on the campus, students assume responsibility for group and individual behavior. Any student who makes himself an undesirable citizen of the campus or community as a result of irresponsible behavior may be warned, placed on social probation, advised to withdraw, suspended, or dismissed from college. This action can be taken by the faculty, the Dean of Student Affairs, or the Student Court.

STUDENT GOVERNMENT

The purpose of Student Government on the Rollins campus is to promote and develop strength in leadership and creative ideas.

All regularly enrolled undergraduate and Crummer students pay the Student Association fee and become members of that Association.

The governance of the Student Association is vested in the Student Assembly, a representative body composed of students, five faculty members, and a member of the Student Affairs staff.

Within the framework of the Student Assembly is a system of standing and special committees. Several standing committees of the Student Assembly are the Constitution and By-Laws, Faculty Evaluation, and Food Service committees. The Rules Committee, which is responsible for studying and implementing change in the social regulations of the campus, is also included. Another important committee is the Community Life Committee, which is responsible for continual direction and evaluation of the co-ed visitation policies in the Rollins residence halls.

Rollins students serve on Faculty committees and the Faculty Senate, the governing body of the College. Students serving on the College Senate, College Activities Committee, Professional Standards and Ethics Committee, Academic Objectives Committee, and Academic Standards Committee are selected in the general student body elections held each spring.

To be eligible to hold elective or appointive positions on the Rollins campus, a student must maintain a 6.0 (C) cumulative grade average.

MARRIAGE

Students planning to be married should give indication of these plans to their parents prior to the impending marriage and notify the Dean of Student Affairs. The College is not responsible for refunding any portion of the boarding charge to students who become day students because of marriage during the academic year. The College does not operate housing facilities for married students.

RESIDENCE HALL AND FOOD SERVICE REGULATIONS

The Board of Trustees has adopted the following requirements for College residence halls and the dining hall:

1. Every regularly-enrolled undergraduate student, not living with parents or relatives, is required to live in one of the College residence halls and to board at the College dining hall unless specific approval for an exception to this policy is obtained from the Dean of Student Affairs.

2. Alcoholic beverages may not be served in residence halls or on College property.

3. The College residence halls and dining hall will be closed during the Christmas holidays.

4. Several residence halls will remain open during Thanksgiving and Spring vacations. Students planning to remain on campus during these periods will be assigned to rooms in one of these halls. The dining hall will not be open during that time.

5. Students are not allowed to have pets in College residence halls or on the College campus.

6. Graduate students may reside off campus.

7. Women's curfew hours are as follows:

- a. Freshman hours are 12:00 midnight weekdays and 2:00 a.m. weekends with parental permission or 11:00 p.m. weekdays and 1:00 a.m. on weekends for those students who did not receive parental permission. A system of late hours allows a one-hour extension on a limited number of evenings for Freshmen women with 11:00 p.m. and 1:00 a.m. curfew hours.

b. Sophomore, Junior and Senior hours.
Upperclass women who are not on academic or social probation have the option of regulating their own curfew hours. Any upperclass woman student not eligible for this option is required to return to her residence hall by 12:00 midnight on weekdays and 2:00 a.m. on weekends. The curfew hour system is under continued study and evaluation by the Rules Committee of the Student Government Association and may apply to winter and spring term freshmen for 1973. It should be noted here that all social rules and regulations of the College are subject to continual study and evaluation by the Rules Committee of the Student Government Association, the Community Life Committee, the Office of Student Affairs, and the Rollins College Faculty.

8. Visitation

The Rollins Visitation Program provides for each living unit, with the exception of freshmen living units during the Fall term, to submit to the Community Life Committee a proposal for self-regulation including standards under which students may entertain guests of the opposite sex in the residence unit. The Community Life Committee, made up of six students and two representatives from the Office of Student Affairs, will exercise approval, review, and evaluation functions. All proposals will be considered in view of the all-campus residence hall visitation regulations and implementation procedures.

RESERVATION OF ROOMS

Upperclass Housing Assignment Policy
Housing assignments will be made only after the individual student has completed the following steps:

1. Payment of the \$250 room reservation fee in the Cashier's Office on or before the date specified by the Treasurer of the College.
2. Completion and return of the Housing Agreement form to the Office of Student Affairs. Students under 21 years of age must have a parent or guardian sign the Agreement.
3. Completion of the Housing Preference Form and filing of it in the Office of Student Affairs.

Priority will be given according to the date the student has completed the above steps. Roommates will be assigned according to the student's request on the Housing Preference Form in so far as possible.

Freshman Housing Assignment Policy
Elizabeth Hall and New Hall have been designated as Freshman Residence Halls. Freshmen will receive their room assignments during the month of August.

The practice of discrimination on the basis of race, color, creed, national origin, and religion is prohibited in all programs and activities at Rollins College.

All rooms, the majority being designated for double occupancy, are furnished with single beds, dressers, study desks, and chairs. All other furnishings must be provided by the occupant. Each resident is held responsible for the condition of all equipment in his room. Damages or expenses are assessed to the students responsible.

The general fee for boarding students includes linens. The boarding student is issued two sheets, one pillow case, three bath towels, and one face cloth each week.

AUTOMOBILE REGULATIONS

Students at Rollins College are allowed to own and maintain automobiles under the following regulations:

1. All vehicles owned and/or operated by Rollins College students must be licensed and have a current Rollins decal displayed on the lower right corner of the rear windshield.
2. The registration fee for vehicles shall be \$3.00 for an on-campus permit. For Freshman boarding students only, the registration fee shall be \$1.00 for an off-campus permit. The person to whom the vehicle is registered will be liable for any violations attributed to the vehicle. Freshmen may own or operate a motor vehicle at Rollins but may not park on campus at any time.
3. No student is permitted to maintain or operate a motor scooter, motorcycle, or motor bike on the Rollins College campus.
4. The speed limit on the Rollins College campus is 15 miles per hour. Reckless driving and

excessive speed are prohibited. Reckless driving and excessive speed on the campus will result in automatic referral to the College Traffic Court.

5. Campus parking regulations, distributed to the students at Registration (and as amended through the year), will be strictly enforced. Violators will be fined \$2.00 per ticket. After receiving five tickets in one term, a student may be required to appear before the College Traffic Court, and excessive violations may result in suspension of the privilege of owning or operating a vehicle on campus. Failure to register a vehicle promptly will result in a registration fee of \$10.00. Violators who neglect to pay their fines within two weeks will have their fines listed on the ledger of the Cashier of Rollins College.

6. Every resident student's automobile must carry personal liability and property damage insurance. All accidents and cases of reckless driving must be reported to the Office of Student Affairs.

7. The Office of Student Affairs reserves the right to revoke any student's privilege of having an automobile on campus.

HONORS AND PRIZES

The Trustees of Rollins College have established the five following awards:

The Rollins Decoration of Honor, established in 1935, "to be given only in recognition of distinguished and eminent service to Rollins College and to be awarded only to alumni, trustees, members of the faculty or administrative staff, or friends of the College."

Three medals honoring "great Presidents" of the College:

The Hamilton Holt Medal, established 1956, which "can be given to the famous or the unknown. . . It must, however, always be given to those who have in some way shown that any man anywhere, guided by truth and armed with honesty, can find his own true destiny."

The William Fremont Blackman Medal, established 1958, "to be awarded alumni, trustees, faculty, administration, students, or friends of

Rollins in recognition of distinguished achievement which advances [President Blackman's] ideals."

The George Morgan Ward Medal, first given 1959, "to be awarded to those who have exemplified the ideals for which President Ward stood and the sacrifices which he made in the cause of Christian education."

The Roy Edwin Crummer Medal, first given 1968, "to memorialize the rare qualities demonstrated in Mr. Crummer's life and to honor fine qualities in others."

The Academy of American Poets Poetry Prize of \$100 may be awarded annually for the best poem or group of poems submitted during the year by a Rollins undergraduate. The award, which is administered by the English Department is made possible by a bequest from Mrs. Mary Cummings Eudy, a former member of The Academy of American Poets.

The Thomas R. Baker Memorial Prize may be awarded to the junior student who has maintained the highest scholarship record in the study of chemistry.

The Ralph Lyman Baldwin Award of \$50 and a medallion may be given to the graduating major in organ or composition who is deemed by the music faculty as most worthy of the honor.

The J. Gordon Clerk Trophy was donated in 1945 by Mrs. J. Gordon Clerk in memory of her husband, killed in action in World War II. A cup is awarded to the men's group with the greatest number of points in athletics at the end of the sports year. Permanent possession is granted to any group winning the trophy for three consecutive years.

The William Abbott Constable Award, established in 1970, may be awarded annually to a Rollins student in Shakespeare Essay competition. The award consists of income from a fund established for this purpose.

The Nina O. Dean Libra Group Leadership Award is presented annually by the Order of the Libra, women's honorary group, to the women's social group that is outstanding in campus leadership as it exemplifies Libra's balanced life ideal.

The Decourcy Music Prize of \$50, established in 1965 by Mr. and Mrs. William E. Decourcy, may be awarded annually to the outstanding student, preferably a senior, in the Department of Music.

The Lecomte du Noüy Essay Prize may be awarded annually to the Rollins student who submits the best essay on a subject covered by the works of the late Lecomte du Noüy. The prize consists of income from a \$3,000 fund established for this purpose.

The Cynthia Williams Eastwood Award, to recognize outstanding contributions to Rollins College by an unaffiliated woman, was established in 1968 by the Association of Unaffiliated Women and named "in honor of a woman of independent spirit who has made outstanding contributions to Rollins College" through many years. The award is to be presented by the president of the donor group at the all-college awards assembly each year.

The Howard Fox Literary Prize is furnished from the income of a \$5,000 fund given by Howard Fox of New York City in honor of his lifelong friend and former Rollins College president, Hamilton Holt. This prize is offered for the best piece of literature produced by a student at Rollins College, considered on the basis of originality, human interest, and craftsmanship.

The Barbara S. Goldner Scholarship Awards are awarded annually on the basis of the best overall academic average of the pledge classes for the term in which they were pledged. Separate awards are presented to the best men's and women's pledge class. These awards were created by the class of 1962 in memory of Barbara S. Goldner.

The Arthur Knowles Hutchins Music Award of \$100.00 was established in 1957 by James O. Hardee for the encouragement of and assistance to scholarship students majoring in music who have shown outstanding personal and musical development, achievement, and promise.

The Intramural Trophy is awarded annually to the men's group with the greatest number of

points in intramural competition. This trophy becomes the permanent possession of any group winning it for three consecutive years.

The George Chandler Holt Scholarship Trophy, established 1958, is awarded annually at an all-College convocation to the fraternity that maintained the highest academic average during the preceding school year.

Women's Intramural Trophies are awarded annually. Permanent possession is granted to any group that wins a trophy for three consecutive years.

Archery—presented by Women's Physical Education Department.

Basketball—presented by Alpha Phi.

Bowling—presented by Women's "R" Club.

Golf—Kappa Alpha Theta.

Softball—presented by Women's Physical Education Department.

Sportsmanship—presented by Alpha Phi.

Swimming—presented by Chi Omega.

Table Tennis—presented by Women's Physical Education Department.

Tennis—presented by Kappa Kappa Gamma.

Volleyball—presented by Women's Physical Education Department.

The Walter B. Johnston Memorial Award of \$50, established 1959 by the Student Council, may be given annually to an outstanding pre-medical graduating student whose record and character indicate his life will be devoted to the ideals of the former Rollins College physician.

The Kappa Kappa Gamma Scholarship Trophy, established 1959, is awarded annually at an all-College convocation to the sorority that maintained the highest academic average during the preceding school year.

The Peter MacNeil Memorial Award was established in 1964 by the Chapel Choir as a result of a gift from Mr. and Mrs. John MacNeil in memory of their son. The award in the form of a medallion may be presented annually to a freshman student in the choir who best exemplifies Peter's character, idealism, and devotion to music, particularly to church music.

The John C. Myers Award, established 1971, is given to a candidate for the M.B.A. degree in the Roy E. Crummer School of Finance and Business Administration, for scholarship and leadership during the program. Criteria include: "Character, initiative, and contribution by example and spirit of service to classmates, to the development of creative and responsible business leadership and to the highest aims of management and enterprise."

The O'Brien Intramural Trophy, donated by Mr. Neil O'Brien of Winter Park in 1946, is awarded to the women's group that has the greatest number of points at the completion of the intramural sports season. Permanent possession is granted if the trophy is won three consecutive years.

The ODK Leadership Trophy is awarded by the Alpha Iota Circle of Omicron Delta Kappa, honorary fraternity, to the men's group that has the best composite record of achievement and leadership in scholarship, student government, social and religious affairs, athletics, publications, speech, music, drama, and other arts.

The Phi Mu Athletic Award may be presented annually by the Phi Mu Fraternity to the outstanding senior woman athlete.

The Pi Gamma Mu Honor Medal, established 1956 by Florida Delta Chapter of Pi Gamma Mu, may be awarded annually to an outstanding senior in the social science field.

The Pi Kappa Lambda Award, established in 1970 by Xi Chapter, Pi Kappa Lambda, National Honor Music Society, is to be awarded to an outstanding student of music, who will bear the name of an honored contributor to the ideals of the Society. The 1971 winner was named Walter Charmbury Scholar.

The Rollins Players Honor Plaque is awarded to the Rollins Player who has contributed the most to the theatre during the academic year.

The Colonel Richard C. Plumer Memorial Award is given annually to a student of business law who is outstanding in the qualities represented by Richard C. Plumer: scholarship, integrity of mind, humbleness of soul, and rendered service to his fellow men in a spirit of kindness and dignity. The award is the income from a fund

created by the Class of 1954 in memory of Colonel Plumer.

The Charles Hyde Pratt Creative Writing Award. \$50 is available for annual presentation to a Rollins student outstanding in creative writing.

The Marie Rackensperger Prize for Excellence in Spanish, established 1966, is a dictionary, "Pequeño Larousse Ilustrado," which may be presented annually to an outstanding junior Spanish major recommended by the Spanish Department.

The General Reeve Awards for Scholarship, established in 1945 by the late General Charles McCormick Reeve in recognition of high scholastic standing, are awarded at graduation each year to the five seniors who have maintained the highest scholastic record during their last three years at Rollins.

The Sigma Xi Research Fund, established 1971, makes modest grants for undergraduate research in any science or in mathematics. Any interested student should make application in writing to the Sigma Xi Club of Rollins College, describing briefly the proposed research or study and stating the amount of money needed for books and/or equipment not otherwise available in the College. Applications, which must have the approval of a supervising professor, will be acted upon on March 15 for spring term projects, on May 15 for summer term projects, and on October 15 for fall term projects.

The Fred Stone Award is for excellence in work done in the Fred Stone Theatre, in acting, directing, or designing. The recipient's name is engraved on a trophy which remains permanently in the Theatre Arts Department. This trophy was presented many years ago to Mr. Fred Stone by his admirers in the professional theatre. After his death it was given to the Fred Stone Theatre.

The Algernon Sydney Sullivan Award. In 1925 the New York Southern Society established the Algernon Sydney Sullivan Award. This award, a bronze medallion, is intended to perpetuate the memory of its esteemed founder. It is designed to recognize and encourage in others those same principles of love and service to mankind that were his dominant characteristics.

Rollins College has the honor of being one of the limited number of institutions chosen to bestow this award. It may be given each year to not more than one man and one woman of the graduating class, and to one other person who is not a student of the College.

The recipients of the award are chosen by the faculty of the College. In the selection of the recipients, "nothing shall be considered except the possession of such characteristics of heart, mind and conduct as evince a spirit of love for and helpfulness toward other men and women!"

The Theta Alpha Phi Freshman Award is a prize given by the Rollins chapter of this national honorary fraternity to the first-year man and woman doing outstanding work as actors or technicians in the Theatre Arts Department.

The Theta Alpha Phi Scholarship and Achievement Award of \$100 is available annually to an upperclass student majoring in theatre arts who has maintained a high academic average and has also participated actively in the theatre program.

The Tiedtke Award is a gold medal given by Mr. John Tiedtke to a student showing outstanding achievement and progress in the fine arts.

The Roy and Elizabeth Traylor Foundation Award is given at Commencement to the outstanding M.B.A. graduate of the Roy E. Crummer School of Finance and Business Administration.

The Willard Wattles English Award is a book presented by the Rollins Key Society to the junior English major with the highest over-all academic average.

Careers through Rollins

An excellent foundation for advanced study may be acquired at Rollins College in behavioral science, biology, chemistry, economics, English, foreign languages, history, mathematics, philosophy, physics, and public affairs. Rollins courses provide an equally excellent background for teaching in a college or university, or entering a specialized career in research, public service, or industry.

Cooperative agreements between Rollins College and certain universities make it possible for students to shorten the time of preparation when their academic ability and performance meet the requirements of the professional school concerned. This is an advantage for the student who wishes to have a liberal arts foundation for his later specialization. Such a foundation is preferred by employers, and is recommended by many professional schools in technical and professional areas.

BUSINESS ADMINISTRATION

THE ROY E. CRUMMER SCHOOL OF FINANCE AND BUSINESS ADMINISTRATION

To Rollins students interested in business careers, The Roy E. Crummer School of Finance and Business Administration offers unique opportunities to pursue three years of liberal arts education, followed by a two-year program of training for management. Qualified students may apply for admission to the Crummer program at the end of their junior year at Rollins. Those students admitted to the program devote their senior year to a prescribed group of subjects and receive the degree of Bachelor of Arts at the end of their senior year. Successful completion of an additional year of study at the graduate level in the Crummer program makes possible the attainment of the Master of Business Administration degree at the end of the fifth year of college work. This "3-2" combination of undergraduate and graduate work thus maximizes the recog-

nized career values of both liberal arts education and management training for the student seeking a career in finance and industry, while shortening by one year the time generally required to obtain both a Bachelor's and a Master's degree in business administration. Applicants from other colleges who have a sound three-year liberal arts background may be considered for the Crummer program. Two years of study will be required to obtain the Master's degree.

The program of the Crummer School is based upon the concept that professional-level education for financiers and managers must build upon the foundations of liberal arts and traditional managerial skills, the understanding required to cope with the demands of a new phase in the evolution of enterprise. To manage effectively in an era of dynamic technology, highly competitive corporate entities, and rapid social and economic change, the new generation of managers must have a forward outlook. These men must possess comprehension of the fundamental managerial uses of automation, data processing, information systems, financial strategy and planning, and keen awareness of the human values served by business and industry as well as the human values utilized in that service.

To ensure that the business administration student is exposed to a realistic educational experience, the Crummer program is organized around certain dominant goals, using the most modern methods available. These goals and their means of realization include:

- a. Emphasis upon the managerial use of data processing and automation techniques in modern corporate and industrial systems, and their impact upon business organizations and society.
- b. Emphasis upon the human behavior and values in business and economic affairs and the relations between the business organization, government, and society.
- c. Emphasis upon individual ability to relate business experience and principles effectively in sound managerial judgments. The practice of decision-making in direct simulation of the business setting lends invaluable experience to the student of management and finance.

Internship in Business. To achieve the optimum combination of work and study during the student's participation in the Crummer program, each candidate for the Crummer degree must engage in an Internship in Business for a minimum of six weeks in summer at the end of either his junior or senior year.

Applicants for admission to the two-year program of the Crummer School must complete all necessary arrangements before the end of the spring term of their junior year.

Applications should be made to the Crummer School through the office of the Registrar of the College. Application forms should be submitted in duplicate at the beginning of the spring term of the junior year. All successful candidates will receive a formal notice of admission. This notice of admission should be filed with the Registrar of the College before the end of the Spring term of the junior year.

ENGINEERING

COLUMBIA UNIVERSITY SCHOOL OF ENGINEERING AND APPLIED SCIENCE

A student wishing to obtain a Bachelor of Science degree in Engineering from the Columbia University School of Engineering and Applied Science in addition to a Bachelor's degree from Rollins College may enter Rollins and, after following successfully a course of study approved by both schools, may transfer to Columbia at the end of three years. After meeting the graduation requirements he is granted the appropriate degree from each institution.

NEW YORK UNIVERSITY

Rollins College has also entered into an agreement with New York University. Under this program a student attends Rollins for three years and New York University for two years. He earns two degrees, a Bachelor's degree from Rollins College and the Bachelor of Engineering from New York University. The program at Rollins includes basic courses in the liberal arts field and concentration in mathematics and physics. At the end of three years the student will have an opportunity to choose among eight branches of engineering.

FORESTRY

DUKE UNIVERSITY SCHOOL OF FORESTRY

Professional and scientific programs of study in forestry for men and women are offered in cooperation with the School of Forestry, Duke University. The student spends three years in residence at Rollins College and an additional five semesters at Duke. Upon satisfactory completion of two semesters at Duke the student will have earned the A.B. degree from Rollins, and upon completing the remainder of the program will be awarded either the M.F. or M.S. degree from Duke, depending upon the nature of the program.

Candidates should indicate to the Admissions Office that they wish to enroll in the Forestry program. At the end of the first term of the third year, Rollins College will recommend qualified students for admission to the Duke School of Forestry. No application need be made to the School of Forestry before that time.

Students with interests in *Forest Resource Administration* are advised to elect a concentration in biology, business management, economics, mathematics, computer science, statistics, or sociology. Individuals planning careers in *Forest Science* should strengthen their backgrounds in biology, chemistry, mathematics, and physics. Typical programs in fields offered at Duke are available upon request from the Dean of the School of Forestry, Duke University, Durham, North Carolina, 27706.

UNIVERSITY OF FLORIDA

A similar program is available for students wishing to complete work at the University of Florida leading to the Bachelor of Science in Forestry. This program assumes two years at Rollins and two years at the University of Florida. No Rollins degree is given.

LAW

Rollins College enjoys a distinguished record in the preparation of students for admission to major law schools. Students planning for the bar are counseled by the Committee on Pre-Law Advisement and Liaison with Law Schools. During the academic year deans and professors from

a number of law schools meet with the group. To provide association with practicing lawyers, pre-law students meet informally as The Barristers. Law schools closely related to Rollins are Columbia, Duke, Florida, Florida State, George Washington, Georgetown, Miami, Rutgers, Stetson, Tulane, Vanderbilt, and Western Reserve.

DISTRIBUTION AND MAJOR STUDIES OF PRE-LAW STUDENTS

The American Bar Association prescribes no pre-law course of study, but legal educators agree that students planning to study law should take those courses which best develop ability in (a) comprehension and expression in words; (b) critical understanding of the human institutions and values with which the law deals; (c) creative power in thinking; and (d) habits of thoroughness, intellectual curiosity, and scholarship. Courses well designed for pre-law studies, according to the American Bar Association, have three characteristics: (a) a variety of reading assignments selected from well-written sources; (b) a large amount of well-directed class discussion; (c) ample opportunity for the preparation and criticism of written and oral reports, and (d) independent research projects which provide opportunity for original inquiry, organization of materials, and effective communication.

TULANE UNIVERSITY LAW SCHOOL FELLOWSHIP

Tulane University (New Orleans) makes available to a graduate of Rollins College a regional fellowship of \$500 a year for three years in the College of Law. Recommendations for this award are made by the Committee on Pre-Law Advisement and Liaison with Law Schools.

WESLEY A. STURGES LAW SCHOOL SCHOLARSHIP

The University of Miami (Florida) has made available to a Rollins College graduate a full tuition scholarship at the University of Miami Law School worth \$1400 per academic year. The scholarship will be renewed for the second and third year of law study if the student either maintains an 80 academic average or ranks within the

top 15 per cent of his class. Recommendations for this award are made by the Committee on Pre-Law Advisement and Liaison with Law Schools.

MEDICINE AND DENTISTRY

Rollins College offers a premedicine program which satisfies the requirements for admission to most American medical and dental schools. The premedicine program is supervised by a faculty advisory committee.

Medical and dental schools have varying requirements. Most medical school requirements are listed in *Medical School Admission Requirements*, an annual volume published by the Association of American Medical Colleges; students planning to seek admission to a particular school should consult this volume and plan their pre-medical studies to satisfy any special requirements of the school. In dentistry, a similar document exists: *Admission Requirements of American Dental Schools*, published by the American

Association of Dental Schools in cooperation with the Council on Dental Education.

Most medical schools require applicants to take the Medical College Admissions Test, which is given twice each year in May and October. Students are advised to take the test in May of the calendar year *before* they plan to enter medical school. Application for the examination must be made about a month before scheduled date.

Every dental school in the United States requires each applicant to take the Dental Aptitude Test. Generally the examination is given three times a year in October, January, or April. Applications may be secured from either the dental school of the student's choice or the Division of Educational Measurements, American Dental Association, 211 East Chicago Avenue, Chicago, Illinois 60611.

Two trends should be noted in pre-professional medical education. First, more successful medical school applicants have completed a four-year liberal arts program with a B.A. or B.S. degree.

Some medical schools will however admit exceptional students after three years of undergraduate education. (A Rollins student in this situation would receive his Rollins B.A. degree upon his successful completion of the first year of medicine or dentistry at an accredited school.) The second trend has been in the direction of more students entering medical or dental school with majors in science. Although it is possible to enter the professional school with a degree in a non-science area, the requirements of the schools have increased in the basic science area.

Students planning a professional career in medicine or dentistry may select a departmental major or the pre-medicine major.

THE MERRILL-PALMER INSTITUTE OF HUMAN DEVELOPMENT AND FAMILY LIFE

The Merrill-Palmer Institute of Human Development and Family Life is the world's most outstanding specialized educational institution dedicated to the study of human development and family life. The Institute offers a teaching program at the college level, conducts research, and provides community services in this field.

Rollins College is a participant in the Merrill-Palmer Institute Cooperating Colleges Program. Under this program, Rollins selects and recommends the undergraduate student or students it desires to send to Merrill-Palmer and also assumes the responsibility of crediting the student's Merrill-Palmer courses toward his degree. Confirmation of these student appointments is made by the Institute. Senior students or students in the last quarter of their junior year may be assigned to the Institute for a quarter. During this quarter of residence at Merrill-Palmer, students engage in an intensive educational experience involving class work, research projects, and involvement in community agency work in the Detroit metropolitan area.

TEACHER PREPARATION

The curriculum of Rollins College is designed to prepare those students interested in teaching for

a career in that profession. Programs leading to Florida certification are available for students desiring to teach at either the elementary or secondary school level.

Students desiring to teach at the elementary school level will major in elementary education.

Students desiring to teach at the secondary school level will major in an academic subject field and will be able to complete professional education requirements, including student teaching, within the undergraduate program of study. The Rollins College Graduate Program in Education is also available for the student who wishes to continue his study in secondary education for a Master of Arts in Teaching or a Master of Education degree.

STUDY ABROAD

Qualified Rollins students may take a year or part thereof *in absentia* at a foreign university. The student may negotiate his admission independently with the foreign university; he may apply for admission to an approved foreign-study program administered by another U. S. college or university; or he may apply for admission to one of the four existing Rollins overseas programs. In the case of a non-English-speaking country, the student is advised that he must have adequate foreign language preparation, which is interpreted as a B average in at least two years' study of that language.

Rollins administers four overseas programs, two in Spanish-speaking countries and two in French-speaking countries. It participates in a fifth program in Switzerland, Germany, or Spain sponsored by the Associated Mid-Florida Colleges.

The Rollins Semester-in-Colombia program is conducted annually January 28 - May 28 at the University of the Andes, Bogotá, Colombia, where the student may earn up to 18 semester hours (automatically convertible into Rollins term credits) in Spanish and all other departments. The student is absent from the Rollins campus during the last week of the winter term and all of the spring term, but his academic-year's prepaid room, board, and tuition fee at Rollins exempts

him from any further costs for the Semester-in-Colombia. Included in the Colombian program are round-trip jet between Miami and Bogotá, four months' room and board in a private home in Bogotá, tuition at the University of the Andes, an extensive orientation program, excursions, social affairs, the assistance of a full-time resident director with the group in Bogotá, and all expenses of a trip by air to the Amazon during Easter vacation week. Descriptive literature and applications are available from the coordinator, Dr. Frank Sedwick, Box 4, Rollins College. Applications close December 15.

Another program administered directly by Rollins is a summer study-tour to Spain, annually June 21 to August 8, in which the student may take up to three courses in Spanish language and literature. Classes are privately taught by an all-

Spanish staff in Rollins' own quarters in Madrid. The prerequisite for this study-tour is one year of Spanish and an over-all C average. The fee of \$1,085 includes full room and board in a private home in Madrid, tuition and books, round-trip jet New York-Madrid, and weekly excursions to the main cities and sights of Castile. There is also an optional week's tour of Spain. See Dr. Frank Sedwick, as above, for descriptive literature and applications. Applications close May 10.

Identical to the Spain summer program in dates, fees (and what they include), and prerequisites, is the Rollins summer study-tour to France, held annually in the city of Tours, south of Paris, in affiliation with the Institut de Touraine. The round-trip jet is between New York and Paris, classes are held at the Institut, and the excursions and week's tour cover as much of

France as possible. Applications close May 10 and the person to address for information is Dr. Elinor Miller of the Foreign Language Department.

The student who is meeting his language requirement in French (see Foreign Language Department listings, Placement of Freshmen, and French 201) may enroll for the French 201 section which is taught in Fort-de-France, island of Martinique, annually in the winter term. Advanced students in French doing Independent Study are also admitted to this program. The \$250 cost includes round-trip jet transportation, room, board, and everything except books. This program is the only one of its kind in the U.S.A. The professor in charge and resident director is Dr. Elinor Miller of the Foreign Language Department, to whom inquiries should be addressed.

Deadline for applications is December 1.

In 1962, Rollins and four other colleges of Central Florida formed the Associated Mid-Florida Colleges, one of whose various cooperative academic efforts is a junior-year-abroad in Switzerland (University of Neuchâtel), Germany (University of Freiburg), or Spain (University of Madrid). The \$2,600 fee covers tuition, room, and board, one-way transportation by ship from New York, and American resident directors. The group leaves New York about August 19, and receives additional language training in Europe before classes begin at the respective universities. A prerequisite for admission to the program is B average in at least two years' study of the respective foreign language. Applications, which close annually on March 1, and further information are available from Dr. Sedwick, as above.

Admission and Expenses

ADMISSION FROM SECONDARY SCHOOLS

Admission to Rollins is highly selective. Favorable consideration is given to the student who possesses a strong school achievement record, as well as strength and maturity of character.

Secondary school seniors who are recommended by their schools are eligible for consideration upon receipt of a formal application with the \$15.00 application fee, the secondary school record, and the results of the Scholastic Aptitude Test of the College Entrance Examination Board. All applicants for admission are required to take this test during the senior year, preferably in November or December. Registration forms may be obtained by writing to the College Entrance Examination Board, Box 592, Princeton, New Jersey.

Applicants who have been accepted must present the results of the College Board Achievement Tests in English composition, a foreign language (either modern or classical), and one other of the candidate's choice. These achievement tests should be taken in the Spring of the senior year.

The candidate for admission to Rollins should present four years of English, three years of mathematics, three years of one foreign language (or two years each of two foreign languages), two years of laboratory science, and credits completed in social studies. Although consideration will be given to candidates who offer courses outside these five main areas, Rollins judges the school records of its candidates chiefly by performance in these standard college preparatory subjects.

Unusually well-qualified applicants who are strongly recommended may be considered for admission prior to secondary school graduation.

Superior students, with the approval of their secondary school, may submit their junior year record and junior year Scholastic Aptitude Test

scores, with the request that the Admissions Committee grant an Early Decision based on the assumption that the senior year performance will be similar in quality to that of the first three years of secondary school. Applicants for Early Decision agree not to apply elsewhere unless their application is denied. Early Decision applications must be received before November; candidates will be notified by December 1 of their senior year. A non-refundable reservation fee of \$250 is due and payable upon notification of acceptance.

If the Early Decision candidate is not granted admission, his application will be reconsidered after January 1, when regular applications are reviewed.

Admission to the undergraduate day program is usually limited to students under thirty years of age. However, students over thirty who are pursuing a regular undergraduate or graduate degree on a full-time basis may be admitted by the Director of Admissions if they otherwise qualify.

Rollins College prohibits and rejects any discrimination based on race, sex, color, creed, national origin and religion in the selection and admission of students. Applicants can be fully assured of admission solely on the basis of their academic achievements and qualifications.

Further, the practice of discrimination on the basis of race, color, creed, national origin, and religion is prohibited in all programs and activities at Rollins College.

ADMISSION WITH ADVANCED STANDING

Entering freshmen who pass Advanced Placement Examinations given in May by the College Entrance Examination Board will, with the approval of the Academic Standards Committee and the department concerned, be eligible for admission to advanced courses in the department. Students may use these tests to meet, in advance, certain distribution requirements for graduation. Upon recommendation of the department concerned, the tests may be used to reduce the number of credit hours required for the Rollins degree. In-

formation about these tests may be obtained from the College Entrance Examination Board.

ADMISSION FROM OTHER COLLEGES

Rollins accepts students who wish to transfer from other colleges. To receive information regarding the evaluation of transfer credits, a student must first apply for admission and pay the application fee. He must be in good academic standing and eligible to return to the institution from which he proposes transfer.

No transfer credit is given for work completed with a grade of D or for work which is not typically offered in a liberal arts college. No credit will be granted for courses taken by correspondence, and not more than 30 credits will be allowed for extension courses.

AUDITIONS FOR MUSIC MAJORS

To study in certain special programs, applicants are asked to provide additional materials.

Auditions are required from all students who wish to major in music. If distance prohibits such an audition, a tape recording of the student's work may be sent before March 1 of the senior year. (See page 90.)

APPLICATION PROCEDURE

To apply for admission to Rollins College, request an Application for Admission and return this form with the application fee of \$15.00 which is paid only once and is non-refundable. Two small photographs are also required.

The Application for Admission form includes:

1. The Secondary School Record form which the candidate is asked to hand to the guidance officer of his school for completion. It is requested that the school submit this form directly to the College.

2. Information regarding the College Entrance Examination Board requirements.

3. The Parent Questionnaire, which the candidate is asked to hand to his parent or guardian for completion and mailing to the College.

It is the applicant's responsibility to make certain that the required College Entrance Examination Board tests are taken and the results reported to Rollins College.

Applications should be submitted before April 15 or earlier if possible. Applicants will receive notification throughout the winter and spring as their application folders are completed.

Upon notice of acceptance, boarding students pay a reservation fee of \$250 and day students \$100. Since Rollins College adheres to the Candidate's Reply Date as established by the College Entrance Examination Board, the reservation fee must be paid by that date and is non-refundable. The Candidate's Reply Date for 1972 is May 1. Payment of the reservation fee automatically reserves dormitory space for the accepted boarding candidate.

Accepted applicants are asked to read carefully pages 19 through 22 of this Bulletin, and are required to comply with regulations regarding health, as outlined on pages 47 and 48.

An accepted student who requests that his application be transferred to a later year must be reconsidered by the Admissions Committee. Applicants are urged to inform the College promptly of any change of address, transfer from one school to another, or withdrawal of application.

STUDENT EXPENSES

The cost of educating a student at Rollins College is considerably more than the amount of the tuition charged. The difference is covered by other revenue such as gifts and endowment income.

Fees:

(Fees are subject to change at any time by action of the Board of Trustees.)

Application Processing Fee

(Payable with submission of

Application for Admission)\$ 15

Tuition 2,400

Includes laboratory fees, instruction in music for music majors, limited medical service for minor illnesses.

Board and Room 1,060

Required fees, boarders 140

Required fees, day 115

The above includes the following:

Student Association Fee

Weekly issuance of linen (boarders) — two sheets, one pillow case, three bath towels, and one face cloth.

Medical Reimbursement Insurance (automatic) — hospitalization insurance and major medical insurance. The cost of this insurance (\$55.00) is deductible for federal income tax purposes.

An application for continuation of this insurance for the summer will be sent to parents on May 15. The application and check should be returned to the Cashier's Office by June 1 or the student will not have coverage for the summer vacation period.

Central Florida Scholarship — Commuting day students who are permanent local residents of this area will receive an automatic remission of \$500. This will not require a College Scholarship Service form. This remission is granted to local residents because the community has given fine, enthusiastic support to Rollins College.

SCHEDULE OF PAYMENT OF FEES

Incoming Boarding Students

Payable upon acceptance

(non-refundable after May 1)\$250

Returning Boarding Students

Payable April 15 (non-refundable)\$250

Incoming Day Students

Payable upon acceptance

(non-refundable after May 1)\$100

Returning Day Students

Payable April 15 (non-refundable)\$100

The reservation fee must be paid by April 15 to assure a reservation in the College. The balance of tuition and fees remaining after payment of the reservation fee will be payable in two installments — 60 percent on or before August 15, 1971 and 40 percent on or before January 15, 1972.

Payment of all fees must be in accordance with the above requirements. In cases where the student may anticipate completion of requirements at the end of the fall term, the 60 percent payment is still required at August 15. Adjustment and remission of charges, if any, will be made

after the business office has received official notification of such completion of requirements.

Physical Education courses do not have a fee unless the student elects one of the following courses. If so, the fee must be paid at the time of registration:

Bowling, Horseback Riding, Water Skiing.

All financial obligations must be fulfilled on or before August 15 and January 15 as indicated, and refunds after these dates will be made in accordance with the regulations shown in this section.

Students will not be given credit for work done, will not receive honorable dismissal or obtain a transcript of credit, or be permitted to graduate until all college bills are paid.

THE TUITION PLAN, INC. AND EDUCATION FUNDS, INC.

We have agreements with The Tuition Plan, Inc., and Education Funds Inc. to finance the fees for one year or for multiple years covering periods up to 72 months. Such contracts may be covered by life insurance. Contracts commence at varying dates. Literature is furnished to the parents by the finance companies each year or you may contact them direct:

The Tuition Plan, Inc.
575 Madison Avenue
New York, N. Y. 10022

Education Funds Inc.
10 Dorrance Street
Providence, R. I. 02901

NO DEFERRED PAYMENT PLAN IS AVAILABLE THROUGH THE COLLEGE.

INSURANCE FOR PERSONAL BELONGINGS

The College does not carry insurance on students' personal belongings and is not responsible for loss or damage from any cause. Students should arrange for adequate coverage on existing policies or make arrangements for insurance locally upon arrival.

The College does not maintain facilities for safekeeping of money or valuables. Banks located a few blocks off campus have such services available.

SPECIAL CHARGE

LATE REGISTRATION: A fee of \$5 is charged for late registration.

REGULATIONS REGARDING REFUND OF FEES

As the College predicates its expenses and bases its budget upon the collection of fees from all accepted students, refunds are made only under the following regulations:

1. A student who is obliged to leave college during the academic year because of serious accident or major medical or surgical illness necessitating two or more weeks hospitalization may be eligible for a refund; such unavoidable departure must be recommended by the College physician. In this particular situation, the College will cancel 75 percent of any unused portion of the fees exclusive of the reservation fee, which is non-refundable.

2. If any student enrolled at Rollins receives a mandatory call from the Federal Government to enter the military service on an active duty status, the College will cancel 75 percent of any unused portion of the fees exclusive of the reservation fee, which is non-refundable.

3. If a new student fails to enter college after acceptance has been granted, or if any student who has been in previous attendance fails to return, or if any student leaves the College for any reason other than those stated in No. 1 and No. 2 above, or is suspended or dismissed, no refund will be made.

Failure to pay the stipulated installments promptly upon the dates specified forfeits all previous payments and deposits as well as the right to a place in the College; and the College reserves the right to select another student immediately to fill the vacancy thereby created.

4. A student will be considered in attendance at the College until formal notice of withdrawal has been filed in the Office of Student Affairs by the parent or guardian, or until he has been dismissed for academic or social reasons.

Student Aid and Placement

STUDENT AID

The program of student aid at Rollins is designed to assist students to attend the college regardless of their financial need. Rollins assumes that the primary responsibility of financing the education of students belongs to the student and his family. It is the task of the Office of Student Aid to work with the family and student in preparing a reasonable and realistic financial program considering not only the costs of tuition, room, and board but additional costs of books, clothing, transportation, etc. The college must also assume that the family will make long-range preparation for the financing of the student's education.

Student aid consists of three basic types: scholarships or grants, various loan programs, and the opportunity for employment. Most aid awards at Rollins usually consist of two or more of these forms. Students must demonstrate financial need in order to qualify (except for Achievement Grants-In-Aid) and the Parents' Confidential Statement of the College Scholarship Service is the document normally required.

Making Application for Aid

In order to apply for all types of student aid, the following steps must be taken:

1. Apply for admission to Rollins College.
2. File an Application for Student Aid. Forms are available from either the Admissions or Student Aid offices.
3. File a copy of the Parents' Confidential Statement with the College Scholarship Service and request that an analysis be sent to Rollins.

While Rollins has no deadline for aid applications, there is a priority date of April 15. Students may apply after that date but available funds may have been committed.

Once a student is accepted and his Parents' Confidential Statement has been analyzed by College Scholarship Service and returned to Rollins, the College will act on the aid award. There

are no separate applications for different scholarships, loans, and work. The steps mentioned above include a single application for aid that covers any and all forms available through the College.

A special effort is made by Rollins to seek out students from lower income families, especially those of various minority groups. No discrimination is made because of race, creed, religious affiliation, or sex. Rollins College is an equal opportunity employer.

RENEWAL OF STUDENT AID

Student Aid programs are renewable annually if the student meets the requirements of each program and remains in good standing academically and socially. Renewal of aid requires that the family file a Parents' Confidential Statement annually for the purpose of up-dating the estimate of the student's need. The total award will be adjusted on the basis of any differences in need that result from this information. The renewal student must also file an Application for Renewal of Student Aid. Both forms will be available from the Office of Student Aid after November of each year. Renewal students should have both forms on file at the College no later than March 1 of each year.

SCHOLARSHIPS AND GRANTS

Academic Grant-In-Aid—The College awards a limited number of Academic Grants-In-Aid to outstanding students with superior records and test scores. The grants vary in amount and are available for both boarding and day students. To retain one of these awards, a student must maintain a cumulative grade average of 8.0 (B-), or better. Such awards are usually "packaged" with loans and some form of work opportunity on campus.

Achievement Grant-In-Aid—These awards are made on a limited basis to students in athletics. To qualify, the student must have a good academic record and an outstanding achievement in athletics. The holder agrees to continue his special activity at Rollins and must maintain no less

than a 6.0 (C) average. These are renewable annually.

Grant-In-Aid—A very limited number of these awards are made to students of outstanding potential who, for one reason or another, may not qualify for one of the above programs. The awards require a 6.0 (C) average for renewal.

Educational Opportunity Grant—These grants are made available from the United States Government and may range in amounts from \$200 to \$1,000 annually. They are designated for undergraduate students with exceptional financial need.

Central Florida Remission—See Central Florida Scholarship, page 37.

LOANS

Rollins has no provision for time-payment plans through the College. Through state and federal funds, however, the following loans are available as part of a total student aid package.

The National Defense Student Loan Program—This is a student deferred-payment loan which accrues no interest and requires no repayment until the student graduates or withdraws from school. Thereafter, it carries a 3 percent simple interest rate. This loan is limited by law to \$1,000 per year for undergraduates. These funds come from the federal government.

The Florida Student Loan—A deferred payment student loan made available to Florida residents only through the College by the State of Florida, the Florida Student Loan carries a rate of 4 percent simple interest following graduation or withdrawal.

The Federally Insured Loan—This loan, insured by the federal government, is negotiated through banks, savings and loan associations, credit unions, some insurance companies, and other lending agencies. Undergraduates and graduates may borrow up to \$1,500 per academic year. The College must certify that the student is enrolled "in good standing." Many states have similar state programs calling for the College's certification.

All loan applications should be sent to the Office of Student Aid for certification.

WORK OPPORTUNITIES

The College Work-Study Program—This work opportunity is made available through payment by the federal government of 80 percent of the student's earnings and by the College of the remainder. Jobs under this program are primarily on-campus but a limited number of community service opportunities are available off-campus.

Rollins Employment—A limited number of student jobs are available each year on-campus. Priority goes to students with proven financial need. In a few instances, certain skills are required which enable students without proven financial need to be employed.

Off-Campus Employment—Central Florida firms often contact the Office of Student Aid and Placement when part-time employees are needed. Lists of available jobs are maintained in this office and posted on bulletin boards in Carnegie Hall and the Student Center.

The College recommends that a student work no more than 15 to 20 hours per week. Studies indicate that employment beyond that amount may be harmful to academic work. On-campus employees are not allowed to average more than 15 hours weekly. Rollins wages are \$1.60 per hour. Off-campus opportunities range from \$1.00 per hour upward. Average wages in the immediate Winter Park area are about \$1.60 for part-time employees.

ENDOWED SCHOLARSHIPS

The Committee on Scholarships is able to award scholarships through the generosity of past donors. All scholarships are awarded on the basis of the above procedures and are made possible in part by the following endowments:

Alfond Scholarship—Income from this fund is available for a scholarship for worthy athletes.

Carolyn Hulbert Bassett Scholarship Fund—Income from this fund is available for scholarships for needy students, through the generosity of the late Carolyn Hulbert Bassett.

Will Paul Bateman Scholarships—The Bateman Foundation of Miami has made available \$10,000 for scholarship grants to young men with proven need and outstanding academic potential.

Rex Beach-Rollins College Student Aid Fund—This fund for scholarships was created by the estate of Rex Beach.

Anna G. Burt Scholarship—This scholarship is available to female residents of Florida and amounts to approximately \$400 annually.

Gertrude Cole Memorial Fund—The fund is available for graduate scholarships and/or fellowships for students who are British citizens, who were born in, and at the time of application are residents of, England, Wales, Scotland, or Northern Ireland. Applicants should be teachers, or planning to be teachers, in Great Britain. This is to cover their expenses while at Rollins. The College is co-operating with the English Speaking Union in selecting students.

J. Roy and Mabel R. Dickie Scholarship Fund—Income from funds granted Rollins from the estate of J. Roy Dickie is used for scholarships for worthy, needy students.

Jessie Ball duPont Scholarship Fund—The fund for this scholarship was created by donations of Mrs. Alfred I. duPont.

Eckerd Drugs of Florida Scholarship—Funds granted by this organization create an income for worthy students requiring aid to secure an education.

Mrs. Davis E. Fishback, Sr.-Mrs. John T. Galey Scholarship Fund—The income from this fund is for an outstanding and needy student in fine arts. This scholarship was established in 1958.

Charlotte Gero Scholarship—The sum of \$1,000 per year is awarded to a worthy, talented student of music. This scholarship was established in 1967.

Hamilton Holt Scholarships—Established by donations in honor of Hamilton Holt, former president of Rollins College, these scholarships are awarded to outstanding students, up to \$1,000 annually.

Arthur Knowles Hutchins Scholarship Fund—The recipients of this fund, established by James O. Hardee in 1957, are selected from among scholarship students who are majoring in music.

Blanche Mallett Scholarship Fund—The income is awarded as a grant to a woman student study-

ing business and economics. This scholarship was established in 1956 by Mrs. Blanche W. Mallett.

Edward S. Meyer Scholarship—Available for an outstanding student, preferably majoring in modern languages, this scholarship was established in 1941 through the generosity of the late Professor Edward Stockton Meyer.

Henry Buckingham Mowbray Scholarship Fund—The income is used to aid needy students. The fund, established in 1960, was the bequest of Henry B. Mowbray, early graduate of Rollins College.

Charles A. and Jessie W. Noone Scholarship Fund—Created in 1961 by a bequest of Charles Ashton Noone, Rollins alumnus, the income of approximately \$1,000 a year is available for a period not to exceed four years for any one person.

Caroline G. Plant Scholarship Fund—To be awarded to outstanding students in the form of scholarships or loans. Amount: \$1,150 annually. This fund was established in 1949 through the generosity of the late Caroline G. Plant.

The Orlando Sentinel Star Scholarship—Scholarship awards to outstanding day students with need from the Central Florida Area are made from generous funds provided by the Sentinel Star Community Association, Inc.

Rose Skillman Scholarship Fund—Established to aid worthy, needy students.

Alice H. Southworth Fund—The income from this fund, established in 1957, is for worthy students.

Elizabeth Strubing Scholarship—Granted to an outstanding applicant, this scholarship may be renewed for the four undergraduate years provided the student continues to meet the standards required. Students receiving this scholarship for four years will be presented a certificate upon graduation designating them as Elizabeth Strubing Scholars. Annual stipend is approximately \$2,000.

The University Club of Orlando Scholarship—This grant award is for students from the Central Florida Area for the 1971-72 academic year. It requires proven need and academic achievement.

The University Club of Winter Park Scholarship—This grant award usually goes to three or four students annually, based on need and academic achievement.

Myra Gray Williams Scholarship—Awarded to a native and resident of Florida, this scholarship is available to freshmen and is renewable for four years. The amount available is \$400 annually.

Winter Park Federal Savings and Loan Association Trust Fund for Scholarships in the Roy E. Crummer School of Finance and Business Administration—These are endowed scholarships with an annual award of approximately \$1,000 which will increase to \$1,500 in a few years.

OTHER SPECIAL SCHOLARSHIPS

The Edwin B. Garrigues Foundation Scholarship—Funds have been made available by the Garrigues Foundation for scholarship awards to students majoring in the study and practice of applied music.

Stella and Charles Guttman Foundation Scholarships—Preference is given to students of recognized ability who have completed two academic years of college and are contemplating later graduate or professional study. Awards may be renewed for a second year.

Ward-Hart-Hurrey Honor Scholarships Endowment for Latin Americans—A scholarship is offered annually to one or two students from Latin America for one year of study. This scholarship is renewable and covers full cost of expenses for one year of residence on campus. The scholarship is derived from the the Ward-Hart-Hurrey Endowment Fund.

National Merit Scholarships—Three scholarships are awarded each year to National Merit Scholarship winners. Awards ranging from \$250 to \$1,500 are granted on the basis of need. For more information write the National Merit Scholarship Corporation, 990 Grove Street, Evanston, Illinois, 60201, or the Director of Student Aid at Rollins.

The Presser Music Scholarship—Funds have been made available by the Presser Foundation

for awards to outstanding students majoring in music. These are primarily for students preparing to become music teachers.

Rotary Club Scholarship—Local Florida Rotary Clubs and Florida International Students, Inc., have cooperated with Rollins College to award full scholarships to foreign students on a matching basis. The students are chosen by Rotary International and must be academically qualified.

The Hattie M. Strong Foundation Scholarship—This scholarship has been provided annually by Mr. and Mrs. L. Corrin Strong and is being continued by Mrs. Strong through the Foundation. This provides a scholarship of \$800 for two Rollins students to study each summer in Oslo, Norway, and is part of an exchange program of St. Olaf College in Northfield, Minnesota, and the University of Oslo.

GRADUATE SCHOLARSHIPS AND FELLOWSHIPS

The Committee on Academic Standards has as one of its responsibilities the promotion of graduate study for Rollins graduates. Many scholarships and fellowships for graduate study are available. The Committee brings these opportunities to the attention of all students in their junior year. Currently over half of the men and about a fourth of the women of the senior class continue to graduate study. The Placement Office also has information on graduate programs and financial aid for graduate work.

LOAN FUNDS

Della Clifford McManus Loan Fund
Franklin A. Cobb Memorial Loan Fund
Luis de Florez Student Loan Fund
Fox Scholarship Loan Fund
Elbert H. Gary Student Loan Fund
Thomas G. Lee Memorial Fund
Fred A. and Alice Mundis Scholarship Fund
Dr. P. Phillips Loan Fund
Hattie M. Strong Foundation Scholarship Fund
Strong Hall Loan Fund
George Hammond Sullivan Loan Fund
Milton J. Warner Student Aid Fund

PLACEMENT SERVICE

As part of the Office of Student Affairs, Rollins maintains a Placement Service which is a member of the Southern College Placement Association and the College Placement Council.

The basic function of the Service is to aid graduating students as well as alumni of the College in locating employment opportunities in areas of business, industry, government, education, etc. A Placement Library is maintained for use by students and alumni in the Placement Office. Potential employers schedule interviews on campus throughout the year. Information regarding these interviews is sent to seniors and graduate students and posted in several buildings.

In conjunction with the Office of Student Aid, part-time employment, as well as summer jobs, is listed and up-dated through the year. Most on-campus jobs go to those on some form of student aid but many opportunities for part-time work off-campus arise during the year. Interested students should contact the Placement Office.

THE
CHARLES A. DUBOIS
HEALTH CENTER
ROLLINS COLLEGE

Activities and Services

STUDENT HEALTH SERVICE

Rollins College Health Service consists of physicians, a counseling psychologist, a psychiatric consultant, and registered nurses. A nurse is in regular attendance five days each week between 7:30 a.m. and 7:00 p.m. Each morning one of the College physicians sees students at the Charles A. DuBois Health Center for examination and treatment. Minor illnesses and accidents are treated in the Health Center, but students requiring bed care are referred by the College physician to the Winter Park Memorial Hospital. The Winter Park Memorial Hospital offers medical and surgical facilities for in-patients as well as an emergency service for serious illnesses and accident cases. Any student requiring care when the DuBois Health Center is not open can report to the emergency room, Winter Park Memorial Hospital, or be transported by Winter Park Memorial Hospital ambulance in case of an accident or appropriate illness, for immediate treatment by the emergency room physician on duty. Any student so treated in the emergency room and admitted to the hospital continues under the care of the Director of the Rollins College Health Service. When a student is seen in the emergency room, the Dean of Student Affairs or his representative should be notified at once.

The physician and nurse in attendance at the DuBois Health Center may be consulted without charge. The health insurance plan described below covers partial costs arising from hospitalization as a result of illness or accident.

The College provides health insurance known as Students' Medical Reimbursement Insurance. This coverage provides for reimbursement, within specified limits, for surgery, medical, and hospital expenses due to illness and accident.

The basic plan provides for medical expense reimbursement for illness or accident only if there

is hospital confinement or surgery, except that there is provided a blanket coverage of \$50 for accidents which do not require hospital confinement. Surgical benefits are provided under a schedule with maximum payment of \$300. The maximum total benefit payable under the basic plan, including surgical benefits, is \$500.

In addition to the basic plan, there is provided Major Medical Insurance with a maximum benefit of \$5,000 per illness or accident. This is subject to a deductible of \$500 with 80 percent reimbursement of eligible expenses. Expenses resulting from accidents due to participation in intercollegiate athletics are not covered under the Students' Medical Reimbursement Insurance but are covered under special insurance policies provided by the College.

Descriptive brochures outlining the benefits, limitations, and exclusions of health and accident insurance are available at the DuBois Health Center. The insurance coverage is in effect 24 hours a day both on and off campus throughout the academic year and includes college-year vacation periods as well as a reasonable time at the beginning and end of the college year for travel to and from the College. It is the practice to offer coverage for the summer months for a nominal premium, payable before the close of the spring term.

All students are automatically covered in this medical reimbursement plan. The premium is included in the general fee.

Certain health regulations must be met by all entering students, including transfer students. A medical examination blank provided by the Student Health Service must be completed by the applicant and his family or school physician and filed with the Admissions Office as soon as possible after acceptance. As part of this health report, certification of immunization against tetanus and poliomyelitis, vaccination against smallpox, and evidence of a recent chest X-ray are required. Students who have failed to file this health report must have the necessary physical examination and immunizations completed on arrival at Rollins before they are permitted to register. Such indi-

viduals are charged accordingly for the medical examination, immunization, and tests.

A student unable to participate in the required physical education program must furnish a letter from his personal physician stating the reasons. Any recommendation not to engage in the physical education program must be confirmed by a member of the Health Service staff.

If any medical information, including reports of nervous or mental diseases, is withheld from the student's Health Certificate, this omission would be cause for dismissal from the College. Anyone requiring further medical treatment, including injections for asthma, etc., must also furnish a statement from his physician.

All communications from parents and guardians concerning the health of students should be addressed to the Director, Rollins College Health Service. Any student who becomes ill when absent from the College must notify the Office of Student Affairs immediately. A student absent from the College due to health reasons should report to the Health Center upon his return to school with a note from his attending physician.

If the parents or guardian cannot be reached, the College reserves the right to make decisions concerning operations or other matters of health.

Students who are required to leave the College for one or more days to recuperate for medical reasons shall have a recommendation from the Health Service. Any student who withdraws from College for health reasons will be readmitted to the College through readmission procedures which require evidence that the condition which necessitated the withdrawal no longer exists.

COUNSELING AND TESTING SERVICES

The Office of Student Affairs, located in Carnegie Hall, offers assistance to Rollins students in their academic, co-curricular, and personal life. The Dean of Student Affairs, Associate Dean of Student Affairs, Director of Placement and Financial Aid, the Counseling Psychologist at the Health Center and the Consulting Psychiatrist

offer such help to individuals involved in decision making, college adjustment, and conflict situations. A student may also consult his academic adviser or the Deans of the Chapel for guidance in specific areas of concern. The professional staff also works with student groups desiring aid in establishing and carrying on student activities and programs.

The focus of this service is directed toward helping the student to know himself and his societal situation. The student's competency in making successful and realistic decisions and choosing appropriate routes for attaining selected goals is the primary objective of this service.

The Rollins Counseling Psychologist administers group tests at intervals during the student's undergraduate years. Appropriate information from the results are made available to the student and his advisers as needed, so that he may arrive at more meaningful decisions about his educational and vocational goals. Other testing may be arranged on an individual basis as indicated.

DEVELOPMENTAL READING PROGRAM

The College maintains a reading laboratory and conducts a developmental reading program. The program is designed to help students develop reading skills necessary for college work. The program emphasizes optimum skill for all students and is not primarily a remedial program. Work taken at the laboratory is voluntary and on an individual basis. The laboratory is equipped with devices and materials for use in improving comprehension, speed, vocabulary, and the skills necessary in the various content fields in the College program.

LEARNING LABORATORY

The Learning Laboratory has a console and booths with listening devices, tape recorders, and electronic facilities for both individual practice and group learning. Systematic use of the laboratory

is a required part of first- and second-year language courses in French, German, Russian and Spanish. The laboratory is used also by students in speech courses, and for study or note-taking purposes, is available to the college at large for practicing readings, lectures, dramatic performances, or studying musical selections. The laboratory is open days and evenings throughout the school year.

RELIGIOUS ACTIVITIES

Services of worship are held in The Knowles Memorial Chapel on Sunday mornings and on special days and seasons of the Christian year. In the services students participate in the conduct of

worship, either as readers, as ushers, or as members of the Rollins Chapel Choir. Organ vespers are usually held on Wednesdays during the winter season. The Chapel Service Program is supervised by the Chapel Staff and the Community Service Committee.

The over-all religious program on the campus is directed by the Dean of the Chapel, Assistant Dean of the Chapel, and the Chapel Staff. This staff is composed of the chairmen of the student committees, thirteen elected students, and two members of the faculty. The Deans of the Chapel are available for guidance of and conferences with students on religious problems.

All students are urged to join in the services of the churches in Winter Park and Orlando.

MUSIC ACTIVITIES

The Thirty-seventh Annual Bach Festival of Winter Park. The Bach Festival of Winter Park, consisting of a series of programs by the Bach Choir of one hundred voices assisted by renowned soloists, orchestra, and organ, is held in early March in the Knowles Memorial Chapel. The chorus, under the direction of Dr. Ward Woodbury, includes selected singers from Central Florida communities, and qualified Rollins students.

Rollins Concert Series. Programs throughout the year feature internationally known soloists and chamber groups along with recitals by artist faculty members of the College and the Rollins Chamber Orchestra—a fully professional group of thirty-two players from the Florida Symphony Orchestra.

Organ Vesper Recitals. During the winter term organ programs are presented on the three-manual Aeolian-Skinner organ in the Knowles Memorial Chapel.

Rollins Chapel Choir. The Chapel Choir participates throughout the academic year in the Sunday Morning Service held in the Knowles Memorial Chapel, singing masterpieces of choral literature of all periods from medieval to contemporary. Membership in the Chapel Choir is open to all qualified students after an audition with Dr. Woodbury.

Rollins Singers. This group of 12 vocalists specially selected from the ranks of the Rollins Choir performs music of an entertaining nature and represents the College on campus, in the community, and as a touring group.

Florida Youth Symphony. Sponsored jointly by Rollins College and the Florida Symphony Society, this organization is open to qualified students of the College.

Baroque Ensemble. The Baroque Ensemble is composed of outstanding string players from the student body and performs appropriate music for this medium.

Wind Ensembles. These organizations afford opportunity for wind instrument players to pursue their musical training in the finest literature in this field.

The Rollins Music Guild. The Music Guild is composed of students who are interested in promoting the musical welfare of the College. It holds regular meetings and is active on campus in the sponsoring of recitals, lectures, and other activities of musical worth.

Pi Kappa Lambda. The Xi Chapter of Pi Kappa Lambda, a national honorary music society, was installed at Rollins in 1935. Its prime object is the encouragement of eminent achievement in performance and original composition. Qualified juniors and seniors are eligible for membership.

The Collegium Musicum presents frequent programs illustrating musical styles in the context of their historical significance. Faculty, students, and guests perform and lecture. Student recitals are also presented throughout the year.

RADIO ACTIVITIES

Rollins' own 330-watt FM-Radio station WPRK operates on a frequency of 91.5 megacycles and covers a wide area surrounding Winter Park and Orlando. Housed in modern studios in the Mills Memorial Library, the station was made possible through an anonymous donor. Basic equipment includes two spacious studios, each with its own control rooms, RCA control boards, Fairchild transcription tables, four Magnecord tape recorders, an Ampex 350 tape recorder, and a variety of microphones.

WPRK is a member of the National Association of Educational Broadcasters, through which it participates in a program exchange with 80 educational stations.

Students in speech and drama classes gain practical experience in announcing for radio under the supervision of WPRK staff members. Rollins students have also been part- and full-time announcers on the four Orlando radio stations.

ATHLETIC ACTIVITIES

Because of the mild climate of Florida, Rollins is able to maintain out-of-door athletic activities throughout the year. Time is made available for recreation or supervised instruction in physical activities in order to enable students to partici-

pate in the sports in which they are particularly interested.

Intercollegiate

Rollins men compete in the following intercollegiate sports: baseball, basketball, crew, golf, soccer, and tennis. Rollins is a member of the National Collegiate Athletic Association. The soccer team is a member of the Florida Intercollegiate Soccer Conference.

For the women, an intercollegiate basketball, golf, softball, tennis, and volleyball varsity program is available for the highly skilled students.

Intramural

A full schedule of intramural sports for men and women, conducted under expert direction, is described on page 97.

STUDENT PUBLICATIONS

Rollins College is noted for its encouragement of creative writing, and the student interest is demonstrated by the number and quality of its undergraduate publications. The following publications are included in the Rollins Publication Union:

THE TOMOKAN, financed by the Student Association and issued annually, gives a pictorial résumé of the activities, organizations, and events of interest to the students and faculty of Rollins. THE SANDSPUR, a weekly student newspaper, provides campus and local news, and involves Rollins students in the preparation of the editorial, social, news, and sports columns.

THE ROLLINS STUDENT CENTER

The Rollins Student Center serves as the center of extracurricular student life. Through sponsorship of an increasingly broad program of co-curricular education, recreation, and entertainment, the organization binds students, faculty, staff, and alumni—all of whom enjoy full rights and privileges as members of the Center—in a common effort to “establish a cultural pattern which will distinguish Rollins students.”

Many students learn leadership and various administrative skills through active service on such Center committees as:

Educational Entertainment—Stirs awareness and interest in crucial matters of the day through nationally known speakers, debates, and forums.

Films and Special Projects—Hosts a full schedule of recent, award-winning American and foreign films, and combines international dinners with a wide variety of extracurricular miscellany.

Fine Arts—Provides the best in art exhibits, folk sings, poetry readings, celebrity performances, and art festivals.

Publicity Committee—Handles publicity for all Student Center-sponsored events.

Social Entertainment and Coffee House—Famous for its major rock, folk, and pop concerts; also sponsors informal poetry readings and musical groups in the Coffee House.

Board of Directors, the policy-making group consisting of students, faculty and staff members headed by the President of the Rollins Student Center, each year welcomes new programs and new members in a continual endeavor to fulfill its ambitious purpose.

SOCIETIES AND ORGANIZATIONS

Student interests are enhanced and promoted by a variety of organizations:

The Women's Athletic Association is composed of all of the women students at Rollins. This organization's primary purpose is to promote and foster the highest spirit of sportsmanship and cooperation. The Women's Intramural Board is the governing body of this organization.

Campus Guides is a service organization of selected students who serve the College as official guides for campus visitors to Rollins College, including prospective students and their parents.

Delta Sigma Rho-Tau Kappa Alpha is the national forensic honor society. The society is organized and operated exclusively for educational purposes: to promote interest in, and award recognition for, excellence in forensics and original speaking; and to foster respect for, and appreciation of, freedom of speech as a vital element of democracy. To qualify for membership a student must be in the top 35 percent of his class, participate in debate and forensic events during two academic years, and be a member of the Speakers Bureau.

The Florida Student Education Association (Hamilton Holt Chapter) is the local organization of the state and national education associations. It encourages interest in the profession of teaching, and promotes selective recruitment of young men and women for the career of teaching. It gives practical experience for working in a democratic way on the problems of the profession and of the community.

Greek Letter Organizations. The Interfraternity Council is composed of chapters of the following men's national fraternities:

Kappa Alpha Order
Phi Delta Theta

Sigma Nu
Sigma Phi Epsilon
Tau Kappa Epsilon
and the following local fraternities:

The Guild
Lambda
X Club

The Panhellenic Council is composed of chapters of the following women's national fraternities:

Alphi Phi
Chi Omega
Kappa Alpha Theta
Kappa Kappa Gamma
Phi Mu

Hazing and the practice of discrimination on the basis of race, color, creed, national origin, and religion in membership determination is prohibited in the Greek Letter organizations.

The Association of Unaffiliated Students is an organization that is composed of students who are not members of any Greek Letter organization. Unaffiliated students who join this organization participate in intramural activities and student government, as well as plan special activities.

Kappa Delta Pi, an honor society in education, installed the Lambda Kappa Chapter at Rollins College in 1967. It invites to membership both qualified undergraduate and graduate men and women who exhibit scholarship and potential to become teachers and other school personnel of high quality.

The Rollins Key Society is an honorary society founded in 1927 for the purpose of fostering interests in all campus and scholastic activities, and promoting the welfare of Rollins College. Membership is open to juniors and seniors who have maintained the equivalent of an A minus (11.00) over-all average for no less than six consecutive terms, including at least one in the junior year.

The Order of the Libra, an honorary society for junior and senior women, was organized in 1935 for the purpose of recognizing balanced living and broad interest, and for encouraging further development in high scholarship, extracurricular activities, generous citizenship, and integrity of character.

Omicron Delta Kappa, a national honorary leadership fraternity, was installed at Rollins in 1931. Membership is conferred on junior and senior men who have distinguished themselves in scholarship, athletics, student government, social and religious affairs, publication work, and the arts.

O.O.O.O. is a men't honorary organization. This group's aim is to create, preserve, and foster the traditions and ideals of Rollins; to promote respect for the customs of the College; and to develop a spirit of leadership and cooperation in the student body.

Phi Society is a first-year honorary scholarship society encouraged by Phi Beta Kappa and having chapters at several colleges. The academic requirement is an over-all average of B plus (10.0) or better (preferably 10.20), for the freshman year and in the upper 10 percent of the class.

Pi Gamma Mu, National Social Science Honor Society, installed at Rollins in 1932, confers membership on juniors and seniors distinguished in the social sciences and having a minimum of thirty term hours in the four core subjects of history, political science, sociology (including anthropology), and economics (including geography), with no academic failure in any of the above and with an average grade therein of not less than B.

Women's "R" Club affords recognition to those who have excelled in the Intramural Sports Program. Membership in this club is awarded on the basis of good sportsmanship and athletic ability. The Women's "R" Club is the governing body of the Women's Intramural Board.

The Rollins Players, under the direction of the Theatre Arts Department, presents a series of plays during the year in both the Annie Russell and the Fred Stone Theatres. This organization is composed of students who have done outstanding work in dramatics. A point system for work accomplished in acting and stagecraft has been established as a basis for membership. Tryouts for all plays produced by The Rollins Players are open to all Rollins students, with preference given to theatre arts majors.

The Rollins Scientific Society, organized in 1942, has as its purpose the bringing together of

students interested in discussing and hearing about advancements within all fields of science. Membership in the society is open to sophomores, juniors, and seniors who have had one year of science.

The *Sigma Xi Club* of Rollins College was organized by members of Sigma Xi in the science division and in the Central Florida community, and was granted a charter by the National Society of the Sigma Xi in January, 1953. Its purpose is to encourage investigation in science, pure and applied. It makes grants available to students working on projects in science.

Theta Alpha Phi is a national honorary dramatic fraternity; Florida Gamma Chapter was installed at Rollins in 1938. Juniors and seniors who have done superior work as actors and technical workers are eligible for membership.

Zeta Alpha Epsilon is an honorary scientific fraternity, the purpose of which is to give recognition to outstanding students, and to promote a broadened interest in science.

Musical organizations are listed under Music Activities.

ALUMNI ACTIVITIES

Founded in 1898, the Rollins College Alumni Association today includes over 10,000 graduates and former students. Students who spend one academic year or more at Rollins are automatically eligible for membership.

The Director of Alumni Affairs supervises and coordinates alumni activity from his campus office at Alumni House and serves as liaison between the alumni and the College administration.

Alumni Clubs exist in major metropolitan areas throughout the country, from Los Angeles, California, to Boston to Miami.

Several hundred alumni return to campus each spring for the Annual Alumni Reunion.

COMMUNITY ACTIVITIES

PUBLIC SERVICE

In order to carry out the aims of Rollins College to render service to the communities and to the

state, as well as to its undergraduate body, public lectures and addresses are offered by many of the members of the Rollins faculty. The topics they cover have a wide range, and include international relations, political theory, readings in English literature, scientific subjects, and music. This service receives the full cooperation of the public schools and social agencies.

SPEAKERS BUREAU

The purpose of the Rollins Speakers Bureau is to provide a student organization through which undergraduates who have ability and interest in public speaking may gain further effectiveness and experience. The Speakers Bureau affords its members this opportunity to improve all aspects of their speaking skill by means of two major programs:

1. Speeches, debates, and discussions for the campus and public groups throughout Central Florida;
2. A season of intercollegiate debating, participation in the model United Nations and in conferences on international problems.

A brochure is published by the Bureau explaining the availability of its services. This publication is widely circulated in Central Florida.

THE MCCOLLOUGH LECTURES

Through the generosity of Mr. and Mrs. Charles B. McCollough, an endowment is available for the purpose of bringing lecturers to the campus. Each academic year selected lecturers are invited to speak on topics pertinent to student academic concerns and community interests. These lectures are known officially as The McCollough Lectures of Rollins College.

WRITERS' CONFERENCE

The Annual Rollins College Writers' Conference, with Allen Drury as an adviser, is held in mid-November. The Conference is a gathering of people who like to write and confer about writing. Enrollment includes students, teachers, business and professional people, and homemakers. The Conference—which involves workshops, lectures,

seminars and panel discussions—deals specifically with fiction and magazine-article writing, as well as poetry.

MILITARY ACTIVITIES

The 479th Military Intelligence Detachment (Strategic)

Lt. Col. Norton O. Braxton, *Commanding Officer*

Through an affiliation agreement concluded with the Assistant Chief of Staff, Intelligence, Department of the Army, in 1949, the 479th Military Intelligence Detachment was activated at Rollins College in 1950. As an early-ready unit in the Active Reserve of the United States Army, it has a Table of Organization of three officers and four enlisted men. It serves both as a collecting and training unit for the office of the Assistant Chief of Staff, Intelligence. In filling vacancies in the unit, preference is given to those members of the Rollins College faculty and student body who are qualified and approved by the Assistant Chief of Staff, Intelligence. Under present regulations, students who have had extended active duty for six months or more are eligible for consideration.

LATIN AMERICAN PROGRAM

The Latin American Program is one of the oldest in the United States. Foundations for it were laid in the middle 1890's, when Cuban students whose education was being seriously impaired by the struggle for independence in that island came to Rollins.

During the administration of President George Morgan Ward, 1896-1902, students came to Rollins from various parts of the Hispanic-American world. In the next decade under the administration of President William Fremont Blackman, the Latin American program was considerably broadened. In the long administration of President Hamilton Holt, 1925-1949, courses relating to Spain, Portugal, and Latin America were introduced. Lecturers of national and world distinction came frequently to the campus.

In 1942, the Latin American Program was formally organized by Professor A. J. Hanna in association with Professor Angela P. Campbell of the Spanish Department. Under her guidance headquarters were established at Casa Iberia, a Spanish-type building which she developed into a living museum of Spanish art.

During World War II, the United States government extended financial aid to the Rollins program as part of the national effort toward Western Hemisphere solidarity. Two endowments were established during this period, one for the administration of the Casa Iberia, Inter-American Center, and one for a history professorship.

Since the beginning of the Hugh F. McKean administration in 1951, two other endowments have been established—namely, the Bowers Fund for the purchase of books, and a Latin American Scholarship Fund, which is for the purpose of aiding students from Latin American countries to come to Rollins.

The Latin American Studies major was established in 1957 in the Government and History Department which included a variety of interdisciplinary courses. Beginning in the fall of 1970, a separate program of Latin American Studies was established. The program is interdisciplinary and coordinated with courses offered by the Spanish, economics, history and public affairs, behavioral science, English, and other departments.

The Rollins Latin American Studies major is at present a necessary and complementary offering of academic courses within the broader Latin American Program. The major seeks to provide academic skills to undergraduate students in the area study of Latin America and is a key element in the exposure of the student to Latin America.

Through teaching, research, study abroad, lecture series, symposia, exhibitions, exchange programs, the College seeks to enhance the impact of this exposure to another culture.

Other aspects of Rollins' Latin American Program are frequent forums at which outstanding speakers discuss contemporary problems, the Cafezinho Book Reviews on Saturday mornings during the winter term, and annual opportunities for field studies.

Curriculum

THE HOUR-GLASS CURRICULUM

The faculty of Rollins College adopted a new curriculum and academic calendar effective September, 1966, and modified in 1970. This curriculum, called the "Hour-Glass Curriculum," is based upon a liberal arts educational pattern from the freshman year to graduation, and is designed to assure broadly educated graduates, well-prepared in a field of concentration.

The new curriculum takes into account the preparation of entering students and builds upon their educational background in a systematic way by providing Foundation Courses to integrate the knowledge students have acquired. It introduces them to some of the best minds of the College in all fields, and sustains and develops further the inquisitiveness and motivation of each freshman. It provides a better basis upon which each freshman may select his major field of interest through early introduction to most major disciplines and to many of our senior and superior teachers.

The middle years (sophomore-junior) provide each student the opportunity to concentrate in a particular discipline, to take courses in related and other fields, and to engage in directed study.

The senior year builds further upon the Foundation Courses and the middle years of study by integrating knowledge through a Senior Interdisciplinary Course.

Additional independent study, a senior departmental course, and, in some fields, a senior comprehensive examination are vital parts of the final year.

The College, through this curriculum, is assuming a dual obligation—to prepare students for graduate schools and appropriate jobs, and to educate them more broadly as human beings. Inherent in the curricular plan is the philosophy that each student should move from a passive absorption of knowledge to self-motivated learning, and that each student must gain a perspective which can relate his own special field to much wider areas of human knowledge. For this reason, final responsibility for each student's academic program rests with the student.

THE ACADEMIC CALENDAR

The academic calendar consists of a 14-week fall term, a 5-week winter term, and a 14-week spring term. The winter term has been adopted to place emphasis on directed study for freshmen, sophomores, and juniors and independent study for seniors and well-qualified juniors.

The fall and spring terms are devoted to regular classroom instruction in all subject matter areas offered by the College. Freshman Foundation Courses and the Senior Interdisciplinary Course will be offered only during the fall and spring terms.

MAJORS

Rollins College offers the Bachelor of Arts and the Honors Bachelor of Arts degrees in the undergraduate college in the following major fields:

Art	Spanish
Behavioral Science (Anthropology, Psychology, Sociology)	History and Public Affairs (History, Political Science)
Biology	Latin American Studies
Chemistry	Mathematics
Economics	Music
Elementary Education	Philosophy
English	Philosophy and Religion
Environmental Studies	Physics
Expressive Arts (Art, Music, Theatre Arts)	Pre-Engineering*
Foreign Language	Pre-Forestry*
French	Pre-Medicine
German	Theatre Arts

*3-2 Program (see page 28)

COMBINED MAJOR

A combined major in two departments may be earned if approved by a student's adviser, the departments concerned, and the Dean of the College. Such majors must have coherence and depth, and be deemed better to meet the needs of the individual student than the normal majors offered.

Combined majors require the completion of 8 of the courses required in the regular major of each department concerned, and will reduce proportionately the number of courses in other areas.

When one of the majors is music, four years of applied music and four years of ensemble participation will be required.

REQUIREMENTS FOR GRADUATION

To be eligible for the Bachelor of Arts degree, the following general requirements are stipulated:

1. **Residence Requirements.** The entire senior year (i.e., the last 9 courses leading to the Bachelor's degree, including independent study and the Senior Synoptic Course or another Senior Interdisciplinary Course) must be taken at Rollins College. For special requirements in cooperative programs with other colleges or universities, see page 28.

2. **Grade Requirement.** The student must have a minimum academic average of 6.00 (C) for all courses taken at Rollins. For an explanation of grades and scholastic requirements, see pages 59-60.

3. **Credit Requirement.** Total courses: completion of 36 courses of academic work and 4 terms of physical education. The following specific requirements must be observed:

a. Satisfactory completion of a 200-level foreign language.

b. Satisfactory accomplishment in English Composition.

c. Six terms of Foundation Courses (two each in the Humanities, Social Sciences, and Science and Mathematics) in the fall and spring terms and directed studies or equivalent in two different fields during the winter term.

Requirements (a), (b), and (c) should be completed by the end of the second academic year at Rollins College.

d. Twelve courses in a major field including the senior departmental course and senior independent study. The Department of Music requires additional credits in applied music.

e. Senior Interdisciplinary Course, or Senior Synoptic Course on nomination.

f. A total of 11 to 15 unrestricted courses may be elected, depending upon other requirements.

g. Freshmen may take only 100-level courses except in unusual cases and then only by special permission. One exception to the general rule is the 200-level intermediate language requirement.

h. Four terms (fall and spring) of physical education to be completed by the end of the fall term of the junior year.

Graduating seniors must participate in the annual Commencement unless excused for a valid reason by the Dean of the College.

EXPLANATION OF COLLEGE ACADEMIC REQUIREMENTS

Foreign Language. The College feels that all of its graduates should have some acquaintance with a foreign culture through the study of its language. Every student, therefore, is required to achieve proficiency in a foreign language equivalent to completion of the second-year college course. Interested students are urged to elect further work in either advanced foreign languages or area studies. Students who have studied a language in secondary school are advised to continue the study of the same language. The language requirement should be completed not later than the sophomore year. Special permission to complete this requirement in the junior year will be granted only under unusual circumstances.

The language requirement can be met in the following ways:

1. Students whose score on the achievement test shows achievement equivalent to the satisfactory completion of a second-year college course will be excused from further language study.

2. Students who began a language in high school may complete the second year course in that language in college. A student who has taken two or more years of a language in secondary school may not take for credit the first year college course.

3. Students who begin the study of a new language in the College must complete the 100- and 200-level language courses.

English Composition. All entering students must give evidence to the faculty of their ability to

write correctly, clearly, and effectively. This evidence may be in the form of a sufficiently high score on the English Composition Achievement Test of the College Entrance Examination Board and satisfactory writing on the theme written during College Preparation Week. Those students whose writing falls below the standards of acceptable freshman writing will be placed in English 101 (Freshman Rhetoric and Composition) for the fall term. Students failing in this course will find it necessary to be tutored until they can meet freshman writing standards.

Physical Education. Four terms of physical education (fall and spring terms), unless excused for medical reasons, are required of all students for graduation. A satisfactory grade must be achieved. This requirement should be satisfied before the end of the fall term of the junior year.

Senior Examination. All seniors are required to take at a scheduled time during the academic year the Aptitude Test of the Undergraduate Program for Counseling and Evaluation (Educational Testing Service), measuring verbal and quantitative abilities. In addition to the Aptitude Test, seniors will take the Field Test of the Undergraduate Program for Counseling and Evaluation applicable to the major department.

COURSE LOAD

A full academic load is defined as 4 courses during the fall and spring terms and 1 course during the winter term. A course is considered equal to five quarter hours for accounting and transfer purposes. Any student registering for more than 4 courses in the fall or spring terms must have the program approved by his adviser and by the Dean of the College or the Registrar. Only one course may be taken in the winter term.

EVALUATION OF THE STUDENT'S WORK

The grade report is based on the following principles:

Grade A is reserved for work that is exceptional in quality, for work showing keen insight,

understanding, and initiative well beyond the requirements of the course. This grade cannot be earned solely by conscientious preparation of assigned work or by high grades on tests.

Grade B is given for work that is consistently superior, for work that shows interest, effort or originality that lifts it well above the average. Conscientious preparation of assigned work alone does not merit B; the grade is a recognition of quality.

Grade C is a respectable grade. It is the minimum average required for graduation. It assumes regular attendance at class, punctuality, consistent preparation of work day by day, and completion in a satisfactory manner of all work required in the course.

Grade D is the lowest passing grade. It is below the average necessary for meeting graduation requirements and usually is not accepted for transfer to other institutions.

Grade F is failing.

For each course credit, letter grades are assigned quality points as follows:

Grade A	12 quality pts.	Grade C-	5 quality pts.
Grade A-	11 quality pts.	Grade D+	4 quality pts.
Grade B+	10 quality pts.	Grade D	3 quality pts.
Grade B	9 quality pts.	Grade D-	2 quality pts.
Grade B-	8 quality pts.	Grade F	0 quality pts.
Grade C+	7 quality pts.	Grade WF	0 quality pts.
Grade C	6 quality pts.	Grade XF	0 quality pts.

A grade of *I* indicating that the work of a course is *Incomplete*, may be assigned only when circumstances beyond the control of the student, such as illness or necessary absence from the campus, have made it impossible for the student to complete the work of the course within the normal period. *The student receiving a grade of I must complete the work of the course within the next succeeding term of residence in the College.* Failure to complete the course within one term will result in the assignment of a grade of F.

Grade reports of all first-year students are sent to their secondary schools.

A student may elect (no later than one week after the beginning of a course, in writing to the Dean of the College and the instructor) to take a course or directed study outside his major field on pass-or-fail basis. The grade of pass will not be assessed on the grade-point average but will be given academic credit. No more than one course per term may be so designated and a maximum of four such courses will count for graduation. The pass-fail option does not apply to *required* courses.

THE GRADUATE RECORD EXAMINATION

All seniors are urged to take the Graduate Record Examination (Aptitude). Most graduate schools

either require or request candidates to take this examination. It is given each year at Rollins, which serves as a Center for this purpose, and is so designated by the Educational Testing Service of Princeton, New Jersey.

CLASSIFICATION OF STUDENTS

Sophomore standing	9 courses
Junior standing	18 courses
Senior standing	27 courses

REGISTRATION

Students must present themselves for registration on the days that are assigned for that purpose. Completion of registration after the regularly appointed period subjects the student to a \$5 fine.

CHANGE IN REGISTRATION

Any change in registration must be made during the first week of the term. Approval of changes later in the term will be granted by the Dean of the College or the Registrar only to meet circumstances beyond the control of the student.

TRANSFER STUDENTS

Transfer students must meet all of the Rollins requirements if they expect to graduate from Rollins. In the evaluation of transfer credit 3-1/3 semester hours or 5 quarter hours are equated to one Rollins course. (See page 36 for details.)

CLASS ATTENDANCE

Rollins employs a variety of instructional methods with a corresponding variety of class attendance requirements.

In view of this variety, the College makes a distinction between *absence from class* and *overnight absence from the College*. Permission to be absent from the College must be obtained from the Office of Student Affairs. Permission to be absent from a specific class must be obtained from the professor responsible for that class. Hence, a student who wishes to be absent from the College must obtain permission both from the Office of Student Affairs and from his professor.

A student who is absent from the College without permission from the Office of Student Affairs

will be subject to appropriate disciplinary action, which may include dismissal from the College. A student who is absent from any class without permission of his instructor may be penalized by the lowering of his grade for the course or, in extreme cases, he may be referred to the Academic Standards Committee, who may place him on academic probation or require him to withdraw from the College.

Each student will be held responsible for all absences from class. When a student is absent, it is his responsibility to arrange with his professor to make up the work deemed necessary. In this respect, there is no differentiation between excused and unexcused absences. *If a student is not in attendance at class for any reason, he is considered absent.*

Violations of the foregoing attendance policy immediately before or after a holiday or vacation will be treated more severely than violations at other times.

ACADEMIC PROBATION AND DISMISSAL

Academic probation is not to be considered as punishment, but is intended to give the student opportunity and encouragement to achieve and maintain good academic standing.

Since a cumulative average of 6.0 (C) is a requirement for graduation, it is in the best interests of the student that he maintain a reasonable progress. With this in mind, and in order to uphold the academic standards of the College, policies of academic probation and dismissal have been established, as shown below.

Because of its special nature, the winter term is not considered separately in applying these standards. Winter term grades are averaged together with spring term grades.

Academic Probation

A student will be placed on academic probation if his cumulative average is less than that shown below at the end of the indicated term:

	Fall	Spring
Freshman	4.00	4.50
Sophomore	5.00	5.40
Junior	5.60	5.80
Senior	6.00	(6.00 required for graduation)

A student on academic probation is not in good standing and may not own or maintain a motor vehicle or hold a scholarship. The student may be asked to abide by additional regulations determined by the Academic Standards Committee.

Removal from Academic Probation

A student on academic probation will ordinarily be removed from probation if in the next succeeding term he carries a normal academic load and raises his cumulative average to the required level.

Academic Dismissal

A student will be dismissed from the College under the following conditions:

1. If his term average is 1.00 or less.
2. If his cumulative average is less than 4.00 at the end of his freshman year.
3. If, at the end of the spring term of the 2nd, 3rd, or 4th year, he has not attained the appropriate cumulative average shown above after having been on academic probation for the entire academic year.

If the student believes there are extenuating circumstances which justify an appeal of academic probation or dismissal, such appeal must be made in writing by the student to the Dean of the College.

DROPPING WORK

Work for which a student has once registered may not be dropped except by *formal permission of the adviser, the instructor, and the Dean of the College or Registrar*. Drop cards may be secured from the Registrar's Office. A course dropped after the first week of classes in any term is recorded as *W* if the work to date is passing, or *WF* if failing, on the student's permanent record. *WF* is included in computing a student's average. The grade of *XF* is recorded for a course abandoned without an official withdrawal, and is computed in the average as a failure.

After the middle of any term, a student may not withdraw from a course without a failing grade, except for illness or other major reason to be defined and recommended by the Office of Student Affairs.

Courses of Instruction

NUMBERING OF COURSES

The following system is used in the numbering of courses: courses open to freshmen are numbered from 100 to 199; courses open to sophomores are numbered from 200 to 299 (200-level foreign language courses are open to qualified freshmen); courses open primarily to juniors and seniors are numbered 300 and above. An official course schedule is printed before the opening of each term.

PREREQUISITES

Course prerequisites apply to all students in their major area of concentration. They exist to insure that the student receives exposure to the fundamental concepts of his major and to insure that subject matter is introduced in a logical sequence with advanced studies built upon a foundation of selected required courses.

Students may elect courses outside of their chosen area of specialty without regard to prerequisites provided they receive the consent of the instructor and realize that extra effort will be needed on their part. Such students cannot expect a lowering of academic standards to compensate for their lack of background.

CREDIT AND ACADEMIC LOAD

A course credit is equivalent to five quarter-hours (three and one-third semester-hours) credit. The normal academic load is four courses during the fall and spring terms, and one course in the five-week winter term.

FOUNDATION COURSES

Four Foundation Courses for freshmen are offered: one each in the humanities and the social sciences and two in the natural sciences. Of the latter, one, comprising all natural sciences, is for

students not planning to major in one of the natural sciences and one, in the physical sciences, is for students planning to major in mathematics or a laboratory science, or for students who have had physics or chemistry in secondary school. All students must complete the Humanities Foundation Course, the Social Science Course, and one of the Science Foundation Courses. These courses, together with a winter term directed study, are basic in the normal freshman year program.

The Foundation Courses are taught by groups of selected teachers representing the major disciplines within each field; hence, not only will each freshman be exposed to some of the leading scholars on the faculty, but each student will be provided with a sound basis for selecting a major field of interest at the end of the freshman year.

Lecture and discussion sessions and laboratory work in science, extensive outside reading and preparation form the normal weekly instructional pattern and requirement for each course. The teaching groups will give serious attention to composition work on papers and examinations. Any student whose composition work in the Foundation Courses is below standard will be required to do additional work until satisfactory writing standards are met.

Edge (*Chairman*), Folsom, Gallo, Lancaster, Nordstrom, Ser, Thompson, Woodbury

FC 101, 102. The Genesis of the Modern World
The Humanities course consists of a study of the interrelationships of social, political, intellectual, and artistic events and achievements of the past with those of today. The primary aim of the course is to encourage independent thought through viewing these events as interrelated rather than isolated phenomena. The secondary aim is to introduce the student to the forms and methods of the disciplines in the Humanities in order to prepare him for later study in each of them and to aid him in making an intelligent choice of his major field of study. These goals are accomplished through either a chronological study of a particular period in history or a the-

matic approach covering the entire scope of western civilization.

The course is taught by a combination of lecture and discussion method, with the small discussion group the heart of the course. There are two lectures, films, musical or theatrical presentations a week, and two or more discussion classes.

SOCIAL SCIENCES

Levis (*Chairman*), Cotanche, Epley, Hales, Haylor, Jones, Lane

FC 111, 112. Contemporary Issues in Society

The basic concepts, methods, and ways of examining society by the social sciences are presented to students, using some contemporary problem of our society as a relevant context. Historical, sociological, anthropological, educational, and economic dimensions of this issue will be examined in terms of its causes and its consequences for society. The course is designed to present to the students the basic concepts and methodologies of the contributing disciplines and to acquaint them with their interrelation.

THE NATURAL SCIENCES

Byers (*Chairman*), Griffin, Hellwege, Racey, Roth, D. Smith

FC 121, 122. The Sciences: A Search for Order

An examination of the world of nature to unravel, as far as feasible, the mystery of matter both living and non-living.

The course will include material from various sciences pertaining to order and disorder, symmetry and asymmetry, genetic and evolutionary laws, and the basic concepts of ecology.

This course is designed for those students not planning to major in biology, chemistry, mathematics, physics, pre-engineering, or premedicine. Students anticipating such majors are to take FC 141, 142, in their freshman year.

Ross (*Chairman*), Blossey

FC 141, 142. Principles of Physics and Chemistry

An introductory course designed to be taken in the freshman year by all students planning to major in mathematics or in a laboratory science:

biology, chemistry, physics, pre-engineering, or pre-medicine. Other students who have had either physics or chemistry in high school may elect this course to fulfill their science foundation course requirement.

This course will formally develop basic background concepts concerning the nature of matter and energy which underlie all fields of science. The first term of the course will concentrate on the basic conservation principles in mechanics and the fundamental principles and laws of chemistry with emphasis on the development of atomic theory.

In the second term the theory of electricity leads to a treatment of wave motion, followed by atomic structure, quantum theory, and chemical bonding.

Laboratory experimentation will be an integral part of the course work, and emphasis will be placed upon analytical reasoning.

SENIOR INTERDISCIPLINARY COURSES

All seniors are required to take an integrating course designed to enable them to relate their major field to other fields both inside and outside the division to which it belongs. Two such courses are being offered: the *Senior Synoptic Course*, which is open only to those seniors who have been nominated for the course by a faculty member in their department; and a new *Senior Group Study Course*, which is open to all seniors. The first is a two-term course which runs through the fall and spring terms; the second is a one-term course which may be taken in the fall or spring term.

SR 491, 492. Senior Synoptic Course
Darrah, Vestal

Each of the sections in this course is composed of a variety of different majors. During the fall term these majors try to state the basic methods, problems, assumptions, "irreducibles" and values of their own field, and then try to relate this field to the other fields represented in the section with the aid of the outline "map of knowledge"

provided by F. S. C. Northrop's "The Logic of the Sciences and the Humanities."

During the spring term each student writes a paper giving a systematic, philosophical synopsis of his education at Rollins, based to a large extent on the integrated knowledge he has acquired during the fall term. He is required to read and defend this paper before the other students in his section. Moreover, he is required to answer a number of important, practical problems from the standpoint of his stated philosophy.

SR 493. Senior Group Study D.S.

Miller and Wavell (Co-Chairmen)

In this course, groups of six students from as many different major fields cooperatively research one or more interdisciplinary problems. Each student of a group is held responsible for all aspects of all problems that relate to his major field, and for educating the other members of the group in these aspects. A group study normally results either in individual interdisciplinary reports from each member of the group, or in a joint report from the group as a whole. In the latter case, the contribution of each member of the group to the report must be confined to his own field.

ART

Peterson (Head), Hallam, Larned, McKean, Thompson

A major in Art requires broad fundamental training in the various phases of art expression. The student should have a thorough understanding of fundamental art principles. He should be able to analyze art problems and achievements of the past and present. Emphasis on creative thinking is the aim of the department's program.

The student may choose a program emphasizing studio art or history of art. For studio concentration the student should schedule two courses, Principles of Art 131 and Art Structure 132 (to be taken in the freshman year) and the two courses, Introduction to Art History 201 and 202.

For art history concentration he should schedule Introduction to Art History, either Principles

of Art or Art Structure, and one intermediate level studio course.

Studio Concentration

Principles of Art	(131)
Art Structure	(132)
Introduction to Art History	(201, 202)
Drawing and Composition	(221)
Intermediate Studio	3 courses
Advanced Studio (should include painting and sculpture)	4 courses
Major Discipline Seminar	1 course
Independent Study	1 course

Art History Concentration

Principles of Art	(131)
or	
Art Structure	(132)
Intermediate Studio	1 course
Introduction to Art History	(201, 202)
Period Concentration (classes or directed study)	5 courses
Major Discipline Seminar	1 course
Independent Study	1 course
Special Studies in Art History	1 course

Related Courses

To achieve breadth in his college program, the student majoring in Art should select at least four from the following group of associated courses:

1. Aesthetics
2. World Literature
3. Old Testament
4. Technical Theatre
5. Masterpieces of Music Literature
6. European History
7. 20th-Century Drama
8. 20th-Century Poetry

All senior art majors will take part in the Senior Seminar. Studio majors will be required to participate in the Senior Art Exhibition at the end of their senior year. Art history majors may participate in the senior Art Exhibition or must meet a suitable equivalent requirement.

131. Principles of Art
Theory and application of color and design fundamentals. Work in this two-term course includes drawing, painting, and graphics.

132. Art Structure

This course is intended to provide a foundation of history, theory and technical information pertinent to the study of painting and printmaking. Course work will consist of directed study in these fields, and execution of projects related to the areas of study. Emphasis will be placed on acquiring a knowledge of art structure, important to creative expression.

198. Directed Study in Baroque Art
Not offered, 1971-72.

201, 202. Introduction to Art History

A general introduction to the visual arts. Works of architecture, sculpture, and painting studied through illustrated lectures and discussions. Class work supplemented by outside reading reports. Required of majors. High school credit in survey of art history accepted.

221. Drawing and Composition

Various forms and drawing media will be explored. Drawing will be approached as an aid to visualization of two- and three-dimensional form through studies in perspective, the human figure, and non-representational form.

222. Two- and Three-Dimensional Design

Exploration of two- and three-dimensional form, leading to studies in sculpture, ceramics, painting, and graphics.

231. Painting I

Intermediate level studies in painting, collage, and construction, employing oil, acrylic, and various mixed media. Prerequisite: Principles of Art or consent of instructor.

232, 332. Special Studies in Painting and Graphics, I and II

Intermediate and advanced level studies in the related fields of painting and graphic arts. Special attention will be given to the development of individual points of view, drawing from the student's prior experience in design, painting, and graphics.

241. Sculpture I

Exploration of several sculptural modes and techniques, traditional and contemporary. This course

is intended to give the beginning sculpture student a broad training from which to go on to specialized work. Prerequisite: Art 222 or consent of instructor.

298. Directed Study in Painting, Design, Sculpture, or Art History

299. Directed Study in Printmaking

Studies in intaglio and silk screen printing. Prerequisite: consent of instructor.

309. Medieval Art and Architecture

A study of architecture, sculpture, and painting. Lectures consider decline of classical art, emergence of Early Christian and Byzantine art, the interrelationships between arts of the east and those of the west. Special attention is given to sources and development of Romanesque and Gothic styles, examined as symbols of human life, belief, and ideas. Prerequisite: Sophomore standing.

310. Northern Renaissance Art

Northern Renaissance art concentrates on the development of painting techniques, the variances of styles, and the iconology of 15th- and 16th-century Flanders, France, Germany, England, and Spain. Prerequisite: Sophomore standing.

311. Italian Renaissance Art

The development of Renaissance art in Italy from the 14th to the early 17th century. Analogies between visual arts and contemporary humanist ideas are explored. Prerequisite: Sophomore standing or consent of instructor.

313. Mannerist and Baroque Art

Sources of Italian Baroque style are examined in context with the Reformation and Counter-Reformation. Dutch, Flemish, French, and Spanish 17th-century art considered. Prerequisite: Art 311 or consent of instructor.

319. Arts of Ancient Civilizations

This course concentrates on Egypt, Mesopotamia, Anatolia, Crete, Greece, and Rome, tracing the intermingling of influences in architecture, sculpture, painting, and the minor arts. Prerequisite: Sophomore standing or Art 202.

321. Nineteenth Century Art

This course traces the succession of styles in nineteenth-century painting, highlighting of the leadership of France, and showing in the pictures of the nineteenth century the basis for abstract art of the present time. Prerequisite: Sophomore standing or consent of instructor.

322. American Art

A study of architecture, sculpture, and painting in America from the founding of the colonies to the present time. The course traces America's emergence from a reflection of European influence to contemporary leadership in the arts. Prerequisite: Sophomore standing or consent of instructor.

323. Contemporary Art

A study of the origins and trends in painting, sculpture, and architecture since Realist-Impressionist movements of the 1860's. Artistic problems and ideas studied in context of social and political life and as symptoms of crises and deep changes in modern civilization. Prerequisite: Sophomore standing or consent of instructor.

324. Movements in Contemporary Art

A selected study of significant art works since World War II, stressing their interrelationship and the sociological trends which they represent. Prerequisite: Junior standing and Art 323 or consent of instructor.

331. Painting II

Studies in several media, concentrating on the student's individual development. Prerequisite: two courses in painting and consent of instructor.

341. Watercolor

Studies in the handling of transparent watercolor, treating still life, landscape, and the figure. For majors and non-majors. Taught in alternate years (1971-72).

342. Sculpture II

Additional studies in sculpture, emphasizing contemporary forms and materials and concentrating on the student's individual development. Prerequisite: Art 241 or consent of instructor.

343. The Human Figure

Studies in drawing and painting. Anatomy studies, study of master drawings, and work from figure and portrait models will be included. Taught in alternate years (not offered, 1971-72).

370. Special Studies in Art History

Research in specialized areas of the field of art history. This course is designed to provide students with a thorough working knowledge of the varied resources of the art historian. Required of art history majors. Open to students with Introduction to Art History and three period courses.

380. Special Categories in Art History

Surveys of selected areas of art history not encompassed by the departmental sequence of period courses. Included will be Art Nouveau, Latin American Art, and Near Eastern Art.

399. Senior Independent Study

400. Tours Abroad

Prerequisite: Sophomore standing

401. Senior Seminar

Departmental studies designed to integrate different aspects of the art curriculum through lectures, papers, panels, and individual studio and art history projects.

BEHAVIORAL SCIENCE

Upson (*Head*), Burnett, Jones, McLeod, Ray, Weiss

Behavioral Science explores man's experience and behavior at three conceptual levels: person, society, and culture. An emphasis is placed when possible, on integration and continuity among psychology, sociology, and anthropology.

The Department offers a major in Behavioral Science in which the student may (1) pursue a general program of studies or (2) choose to concentrate in one of the specific areas of anthropology, psychology, or sociology.

All students wishing to major in Behavioral Science should plan to complete 12 courses in the Department. The following 3 courses must be taken:

Introduction to Behavioral Science
(or equivalent) (200)

Senior Independent Study and
Colloquium (499)—two terms

A student wishing to concentrate in the area of Anthropology should discuss his program of studies with Mr. McLeod.

A student wishing to concentrate in the area of Sociology should discuss his program of studies with Dr. Jones or Dr. Weiss.

A student wishing to concentrate in the area of Psychology should discuss his program of studies with Dr. Burnett, Dr. Ray, or Dr. Upson.

The choice of an adviser is left to the student. Those pursuing a general area of study may consult with any staff member in the department.

200. Introduction to the Behavioral Sciences

An introduction into the fields of anthropology, psychology, and sociology. Emphasis is placed on the basic processes and methodologies in the behavioral sciences.

This course is a prerequisite for any other course offered in Behavioral Science.

220. Learning

This course acquaints the student with the various areas of concern in the study of behavior acquisition and modification. The course considers the philosophical and theoretical positions of workers in a variety of these areas. Both pure and applied research are reviewed, thus attempting to appreciate the continuity from the laboratory use of animals to the social-ecological understanding of humans.

254. Theories of Personality

A study of major theorists' contributions to personality theory. An evaluation of the current status and research of each theory is part of the course content.

261. Areas Studies in Anthropology

A single culture area of the world is selected for intensive analysis of the people and their culture. Different areas will be selected for each term. Offerings will include, for example, cultures of the Pacific, North American Indians, Negroes of the New World, Aboriginal Cultures of Latin America, etc.

271. Deviant Behavior

A sociological analysis of current patterns of behavior which our society labels "deviant." To be discussed are topics such as drug usage, protests directed against the war, sexual deviations, etc., with emphasis on how these deviant patterns may be changing the value and normative structure of our society.

276. Social Dynamics

Theories of the dynamics of social change are studied with special emphasis on the importance of rates of change and the causes and consequences of present-day rapid social change. In this context deviant behavior and social problems are given consideration.

281. Organizational Behavior

A behavioral science survey of organizational structures, group processes, and leadership and management skills as they relate to problem solving, decision making, and the process of change in the psycho-social systems of private and governmental institutions.

301. Population

An introduction to the basic principles of demography. This course will include the important contributions of population analysis and of the trends in population changes to the understanding of society.

303. Methodology

Emphasis is given to a conceptual appreciation of research strategies from laboratory experimentation to naturalistic observation in field situations. Illustrative techniques and instrumentation developed by the major fields of inquiry will be presented.

308. The Family

A study of the human family as a social system including an analysis of its structure and functioning, and an examination of courtship, sexual behavior, love, marriage, and husband-wife and parent-child relationships.

310. Psychopathology

This course is intended to combine a survey of the types of pathology, their etiology, dynamics,

and treatment with a field experience. Students must be of junior standing and obtain permission of the instructor.

318. Urban Sociology

The study of urban life styles based on an analysis of the differences between rural, urban, and suburban patterns of interaction. The city will be examined in terms of the impact that size, heterogeneity, and density have had on other institutional arrangements.

319. Social Psychology

This course acquaints the student with a variety of approaches to the understanding of human behavior in a social context. All sources contributing to such an understanding are considered, including animal social experimentation, physiological psychology, ethology, behavior modification, attitude conditioning, as well as more traditional areas such as group dynamics and dissonance theory. Prerequisite: Behavioral Science 220.

325. Motivation

A survey and analysis of a wide variety of research areas which address the question of motivation. An operational analysis is made of research derived from ethology, comparative and physiological, activation studies, social and personality dimensions. A synthesis of this material based on an operational point of view is attempted. Prerequisite: Behavioral Science 220.

338. Developmental Psychology and Testing

This course introduces the student into principles of psychological testing in reference to individual and group differences. Attention is directed to developmental stages and the differential effects on elicited behavior. A significant aspect of this course is the opportunity to work in a field (clinical) setting.

341. Sociology of Education

An analysis of the social structures implicit in the educational process. The nature of an educational setting is related to the sociological framework out of which it evolved.

351. Cultural Anthropology

A study of the development and functioning of

culture, and an examination of the differences and similarities between various societies in an attempt to understand the relationship between culture and human behavior.

352. Racial and Ethnic Group Relations

Social cohesion and subcultures in America and in other societies are considered.

353. Culture and Personality

The anthropological contributions to an understanding of personality are examined, including the concepts of national character.

356. Culture and Biological Man

An analysis of behavioral aspects of the interaction between culture and man as an animal.

361. Experimental Psychology

An introduction to laboratory techniques and procedures in psychology. Laboratory required.

365. Physiological Psychology

An introduction to research and methods in physiological contributions to an understanding of behavior.

402. Development of Social Theory

The development of sociological theory is traced from Comte to contemporary thought.

405. Sociology of Religion

The interrelation of religion and cultures in various societies and the relationship between groups of diverse religious orientations.

407. History and Systematic Psychology

Current major concepts of psychology evaluated through the perspective of their histories.

420. Phenomenological Psychology

American and European contributions to the emerging field of phenomenology are discussed with emphasis placed on relating phenomenology to other traditional psychological approaches.

430. Comparative and Animal Behavior

A review of ethology and comparative research in animal behavior.

499. Senior Independent Study and Colloquium

BIOLOGY

Scheer (Head), Byers, Racey, Richard, Sandstrom, D. Smith, Vestal

A student majoring in Biology must take a minimum of 12 courses in the field in addition to the Principles of Physics and Chemistry Foundation Course and Organic Chemistry. Courses required within the Biology major are 201, 202, 211, 212, 316, 329, 408, 462, and Independent research in the junior or senior year. These requirements exist to insure that the student receives exposure to the fundamental concepts of his major and to insure that subject matter is introduced in a logical sequence with advanced studies built upon a foundation of selected prerequisites. Elective courses are scheduled in a sequence that, in the opinion of the major adviser, best reflects the needs and interests of the student. The following courses are open to the Biology major; however, they do not count toward satisfying the 12-course requirement: Psychobiology, From Origin to Organism, Parasitology, Paleontology, Biology of Reproduction, and Human Ecology.

The curriculum in Biology is broadly based and exposes the major to a variety of meaningful laboratory and field experiences. Students of demonstrated abilities may receive the honor of being awarded a laboratory assistantship. If a career of research or teaching on the college level or above is contemplated, the student is strongly urged toward graduate work by acquiring mathematical skills as well as a reading knowledge of foreign languages. Additional studies in other fields provide for a broad cultural background. See Pre-Medicine.

Non-major students may elect biology courses without regard to prerequisites provided they receive the consent of the instructor and realize that extra effort will be needed on their part. Such students cannot expect a lowering of academic standards to compensate for their lack of background.

191, 291; DS. Psychobiology

An introduction to the biological bases of behavior including physical, developmental, physiological, and hereditary determinants. Environ-

mental and experimental modifications of behavior will be considered. Special topics include the study of social behavior, instinct, conditioning experiments, memory, and the effects of drugs on behavior. In odd years.

192, 292; DS. From Origin to Organism

Experimental evidence concerned with the origin of life, the structure and function of the cell, and the combining of cell into multicellular organisms.

193, 293; DS. Biology of Reproduction

The basic concepts and principles of reproduction of organisms from a biological point of view. Lectures, reports, and laboratory observations. Consent of instructor.

194, 294; DS. Parasitology

The principles of parasitology with emphasis on animal parasites and human disease. In even years.

199, 299; DS. Paleontology

Reconstruction of life of past time through a study of fossils and the geological formations in which they occur. In odd years.

201, 202. Biological Diversity

An evolutionary treatment of the plant and animal kingdoms, emphasizing practical approaches of the field and laboratory and theoretical aspects of the origins and ordering of biological diversity. Required of biology majors. Prerequisite: FC142.

211, 212. Physiology

Principles of plant and animal physiology at the cellular and organismal levels, with emphasis on homeostatic mechanisms. Required of biology majors; 212 required of premedical majors. Prerequisite: FC142.

216. Human Ecology

An introduction to the dynamics of man in ecosystems, tracing the interrelationships of man and his environment from prehistory through the present. Emphases placed upon growth of human populations, effects of expanding populations and technology upon the environment. Present environmental problems, difficulties inherent in

pollution control, conservation of resources, radiation ecology, and human ecology in the future will be studied.

315. Oceanography

A study of submarine geology, physical and chemical oceanography, and biogeochemical cycling. Field emphasis placed upon near-shore processes and the Gulf Stream. In odd years.

316. Ecology

A field-oriented course in ecology with an emphasis on population, community, and ecosystem studies in representative aquatic and terrestrial habitats of Florida. Required of biology majors. Prerequisite: 202.

318. Animal Behavior

Field-oriented studies in the physical and physiological mechanisms of behavior, comparative nervous system structure and levels of behavior among different animal groups, development and evolution of behavior, behavior genetics, and ecological aspects of behavior. Special topics include bioacoustics, animal navigation, territoriality. Prerequisite: 212. In odd years.

323. Comparative Vertebrate Anatomy

History of vertebrate structure based upon a comparative study of the various classes of vertebrates. Laboratory dissection of the dogfish as a basic type. Required of premedical majors.

325. Mammalian Anatomy

An in-depth analysis of the anatomy of mammals with particular emphasis on structural interrelations between various systems. Dissection of the mammal. Prerequisite: 323. In odd years.

328. Vertebrate Embryology

Embryological development of vertebrate forms, particularly the bird and mammal. Both descriptive and experimental aspects considered. Laboratory covers development of bird and mammal. Required of premedical majors. In even years.

329. Microbiology

Lectures and laboratory in microbial taxonomy and physiology. Required of biology majors. Prerequisite: 202.

340; IS. Advanced Taxonomy

An independent in-depth systematic study of a selected group of organisms. Prerequisite: 202 and consent of instructor.

351. Population Biology

A biosystematic study of the variation within and between natural populations for the available species of a genus found in the area. This is a course in practical mathematical biology insofar as various statistical techniques are used to measure the variations and their significance. In odd years.

360; DS. Cellular Development and Morphogenesis

An introduction to cell structure and function. Emphasis includes descriptive and experimental approaches to the time-related phenomena of division, growth, differentiation, and morphogenesis.

394; DS. Marine Biology

An introduction to life in the sea. Directed field-oriented studies in the systematics, ecology, physiology, biogeographic patterns, and behavior of marine plankton, benthos, and nekton. Emphases on representative field areas along the South Florida coast and islands. Prerequisite: 202. In even years.

397, 497; IS. Tropical Biology

Studies in tropical biology conducted at the Smithsonian Institution research station at Barro Colorado Island in the Panama Canal Zone. Field studies may include selected problems in taxonomy, behavior or ecology. Prerequisite: Consent of instructor; open to majors only. In odd years.

399, 499; IS. Research

Special topics will be selected. Consent of instructor.

408. Genetics

Course deals with the laws of variation and heredity. Required of biology majors. Prerequisite: Senior standing.

431. Biochemistry

An introduction to the principles of modern bio-

chemistry. Emphasis on the chemical nature and metabolism of fats, carbohydrates, protein, and nucleic acids. Required of premedical majors. Prerequisite: Chemistry 222.

451. Cellular and Molecular Biology

Lectures and laboratory in fundamental cellular and molecular biology. Includes structure and function of cell organelles, biophysical effects of radiation on cells, and macro-molecular control mechanisms. Emphasis on nucleic acid and protein synthesis. Required of premedical majors. Prerequisite: 431 and senior standing.

462. Evolution

Integrates those disciplines that contribute to present-day concepts of evolution with emphasis on genetic mechanisms and the theoretical relationships of phylogenies to modern taxonomic structure. Required of biology majors. Prerequisite: 408.

CHEMISTRY

Hellwege (*Head*), Blossey, Cochran

A major in Chemistry provides the student with basic training for a professional career in chemistry and related areas of science. Many graduates continue their education in the various fields of chemistry, chemical physics, geochemistry, oceanography, and the sciences related to life, such as medicine, biochemistry, pharmacology, dentistry, etc., with support through fellowships and assistantships in graduate schools. Others pursue teaching careers on the secondary school level or find careers in the non-laboratory activities of science-based industry, such as information retrieval, sales and market research, and personnel.

Premedical students find that the courses required and strongly recommended by many medical schools can be advantageously met by a major in chemistry. The department recognizes this by allowing students to satisfy their major requirements with courses in physiology, biochemistry, molecular biology, comparative anatomy, and others beyond those required in the minimum basic program in chemistry. The newer trends in medical education are also comple-

mented by the opportunities for independent studies in areas related to medicine.

Students planning to major in Chemistry must take the Science Foundation Course FC141, 142 and Mathematics 111, 112 in their freshman year. Well-qualified entering freshmen may be exempt from FC 141 and 142 by passing satisfactorily a department-administered examination.

Beyond these a minimum of eight additional courses in chemistry and four elective courses either in chemistry or related fields, on the 300- or 400-level, will satisfy the requirements for a major in chemistry. Courses taken outside the Science Division will only be accepted for satisfying the major requirements if these have been approved by the department.

Normally, a student will take Chemistry 221, 222, 305, 331, 332, 399, 413, and 499. Mathematics 111, 112 and Physics 217 are required. Students exempt from FC141, 142 will be expected to add one advanced course in chemistry and one advanced course in physics to their program.

Students who wish to emphasize biochemistry or medicine are advised to include courses 211, 212, and 451 in the Department of Biology as well as Chemistry 431.

If graduate study in chemistry is contemplated, Chemistry 306, 401, and 417 should be included in the program. Completion of the second year of college work in German or Russian is also strongly recommended.

221, 222. Organic Chemistry I and II

Basic study of the most important types of carbon compounds: their preparation, interrelations, and properties. Introduction to instrumental methods such as VPC, NMR, IR and UV spectroscopy. Three lecture hours and one laboratory per week.

305. Physical Chemistry I: Thermodynamics

Chemical applications of the laws of thermodynamics. Introduction to equations of state of matter, the laws of thermodynamics, thermochemistry, properties of solutions, phase equilibria. Three lecture hours and one laboratory period per week. Prerequisite: Mathematics 111, 112.

306. Physical Chemistry II: Quantum Chemistry
Introduction to some aspects of quantum mechanics. Properties of fundamental particles. Atomic and molecular structure. Molecular orbital theory. Quantum concepts in spectroscopy. Chemical kinetics. Three lecture hours and one laboratory period per week. Prerequisite: Chemistry 305. Mathematics 212 strongly recommended.

331. Analytical Chemistry I
Fundamental theories and techniques of quantitative gravimetric and volumetric methods of analysis with emphasis on the theory of thermodynamic solution equilibria. Application of graphical methods to the solution of equilibria problems. Two lecture hours and two laboratory periods per week.

332. Analytical Chemistry II
Introduction to potentiometric, polarographic, amperometric, and spectrophotometric methods of analysis. Study of radiometric methods in analytical chemistry. Two lecture hours and two laboratory periods per week. Prerequisite: Chemistry 331.

399. Instrumental Techniques
Study of principles and practices of chromatographic separation techniques, and of methods of analysis using modern physical instrumentation such as infrared and visible-ultraviolet spectroscopy, conductimetry, nuclear magnetic resonance, X-ray diffraction, differential thermal analysis, and others. Prerequisite: Chemistry 331.

401. Organic Chemistry
Quantum mechanical basis of magnetic moment. Basic chemistry of selected transition elements. Stereochemistry of complex inorganic compounds. Kinetics and reaction mechanisms of inorganic reactions. Three lecture hours and one laboratory period per week. Prerequisite: Chemistry 306 and 331. Mathematics 212 strongly recommended.

413. Problems in Chemistry—Senior Course
Study of individual problems or special topics, depending on the interest or preparation of the

student. Use of chemical literature and preparation of written and oral reports are required.

417. Advanced Organic Chemistry
Modern interpretation of molecular structure and reactivity related by means of organic reaction mechanisms. The laboratory portion of the course will be devoted to a study of qualitative organic analysis. Both lecture and laboratory will stress independent use of primary chemical literature. Two lecture hours and two laboratory periods per week. Open only to seniors. Prerequisite: Chemistry 222 and 306.

431. Biochemistry
An introduction to the principles of modern biochemistry, with emphasis on the chemical mechanisms by which living cells store and utilize energy and information. Three lecture hours and one laboratory period per week. Prerequisite: Chemistry 222; suggested previous course: 305.

499. Independent Study
Chemical Research.

ECONOMICS

Welsh (*Head*), Epley, Etzold, Evans, Hales, Hill, Jorgensen, Legg, R. B. Smith

The Department of Economics offers an undergraduate major which provides a balanced program of courses in economic theory and applied principles in economic and business operations.

A major in Economics comprises twelve courses, including one independent study at the junior or senior level, and one Senior Departmental course. It is recommended that students considering graduate study take Introductory Calculus (Mathematics 111).

The requirements for the major include the following courses:

Principles of Economics I, II (211, 212)
Economic Analysis (Micro) (303)
International Economics (307)
One Independent Study Course
Departmental Senior Seminar (401)
or
Major Discipline Seminar (402)

In addition it is recommended that at least three courses be taken in the following special fields:

- Economic Analysis (Macro) (304)
- Money and Banking (306)
- Economics and the Law (323)
- Accounting in the Business Firm (325)
- Comparative Economic Systems (327)

It is recommended also that at least one of the following courses be taken:

- Statistical Inference (301)
- Labor Economics (321)
- Legal Factors in Business Organization (322)
- Financial Analysis and Economic Decisions (326)

The following courses are open to non-majors without prerequisite:

- The American Economy (201)

Note: This course may not be taken for major credit after the student has taken Economics 211—Principles of Economics.

- Principles of Economics I (211)
- Statistical Inference (301)
- Accounting in the Business Firm (325)

Students majoring in Economics or students choosing a sequence of subjects in preparation for entry into a graduate program in economics, business administration, or industrial management should consult with a member of the department concerning selection of courses.

The courses in directed study for sophomores and the directed and independent study courses for juniors and seniors permit the student to pursue areas of interest under the guidance of members of the department in a wide range of economic and business subjects. At the junior and senior level, directed or independent study may be taken in fields such as cost accounting, taxation, investments, operations research, mathematical economics, industrial history, public finance, or similar aspects of economics and business.

201. The American Economy

A survey of the growth and development of the American economic system. Historical factors, the rise of mass production, the development of corporate enterprise, and the position of the United States in the world economy. Open to non-

majors. This course may not be taken for major credit after the student has taken Economics 211.

211. Principles of Economics I

A fundamental course devoted to development and application of the basic analytical tools and principles required for an understanding of major economic problems and policy alternatives available for their solution. Areas covered include introduction to American capitalism, markets and prices, national income analysis, money and banking, and economic growth. Particular emphasis on macroeconomic analysis. The first course of a two-course sequence: Economics 211 and 212. No prerequisite.

212. Principles of Economics II

A fundamental course devoted to development and application of the basic analytical tools and principles required for an understanding of major economic problems and policy alternatives available for their solution. Areas covered include the theory of prices and markets, government and the economy, and international economic relationships. Particular emphasis on microeconomic analysis. Prerequisite: Economics 211.

241. Economics of the Environment

Problems of economic control, costs, and measurement of alternative systems of managing the quality of man's environment. Open to non-majors. May be taken for major credit.

298. Directed Study for Sophomores

301. Statistical Inference

Introduction to modern standard statistical methods utilized in economics. Sources and methods for collecting and organizing data. Probability distributions and analysis in economics and other fields. Measures of concentration and dispersion. Correlation methods. Sampling and experiment. Time series. Presentation and interpretation of results. Statistical systems. Prerequisite: Sophomore status.

303. Economic Analysis (Micro)

An elaboration of the basic principles of price theory as an analytic and predictive tool using

graphic analysis and techniques; market price analysis, product pricing and output, and resource pricing and output. Prerequisite: Economics 212.

304. Economic Analysis (Macro)

An intensive analysis of the behavior and relationship of the broad aggregates of economic activity, such as national income, the price level, savings, investment, consumption, government expenditures, taxes, money, and credit. Consideration is given to economic fluctuations and factors influencing economic growth. Prerequisite: Economics 212.

306. Money and Banking

A study of money and banking as prelude to consideration of alternative monetary theories and policies. Special attention to interrelationship of monetary, fiscal, and income policies in stabilization and development of U. S. economy. International aspects also examined. Prerequisite: Economics 211.

307. International Economic Relations

A study of principles of international trade and related commercial policies. Equivalent emphasis to balance of payments problems and methods of adjustment. World financial institutions and regional arrangements considered, with special reference to world-wide economic development. Prerequisite: Economics 211 or consent of instructor.

321. Labor Economics

The labor force, trends in employment, problems of unemployment, wages and hours, labor unions, labor disputes and methods of settlement, and the theory and practice of collective bargaining. Prerequisite: Economics 211 or consent of instructor.

322. Legal Factors in Business Organization

The basic principles of law as applied to business organizations, including contracts, agency, negotiable instruments, property, security for credit transactions. Prerequisite: Sophomore status.

323. Economics and the Law

An analysis of the major legal factors affecting economic life. Legal criteria involved in the gen-

eral regulation of industry and trade by various levels of government. The development and structure of government participation in economic decisions. Prerequisite: Economics 322.

325. Accounting in the Business Firm

The theory, methods, and uses of accounting information in solving business problems. The development and role of accounting standards in economic and corporate decisions and behavior. Prerequisite: Sophomore status.

326. Financial Analysis and Economic Decisions

A study of accounting reports in identifying issues, analysis of their sources, and applied solutions by use of accounting and economic data from management viewpoint. The effects of costs on prices, profits, revenues, asset values, capital asset decisions, and other financial policies are examined as to their impact on private business and the economy. Prerequisite: Economics 325.

327. Comparative Economic Systems

The basic problems faced by all economic systems, and the special problems of authoritarian, competitive, and mixed economies. Prerequisite: Economics 211 or consent of instructor.

341. Applied Environmental Planning

Studies of current environmental problems, especially from standpoint of preservation, conservation, and restoration and development of environmental control systems. Field studies, including benefit-cost ratios involved in environmental planning. Open to non-majors. May be taken for major credit.

351. Economic Development (with emphasis on Latin America)

Theory and empirical data related to economic development and growth of less-developed areas of the world economy. Special attention is given to the problems of Latin America. Open to non-majors. May be taken for major credit.

398. Directed Study for Juniors

401. Major Discipline Seminar

Senior seminar covering various topics which serve to integrate major study in theoretical and applied economics. Prerequisite: Economics 303.

402. Major Discipline Seminar
Seminar for students majoring in economics, designed to provide seniors with intensive and extensive criteria in major aspects of theoretical and applied economics. One senior seminar is required of all students majoring in the economics field. Prerequisite: Economics 303.

499. Independent Study for Seniors

EDUCATION

Wilson (*Head*), Blamick, Cotanche, Critchfield, Glass, Jenny, Norris, Pease, Stevens

ELEMENTARY EDUCATION

The program for majors in Elementary Education includes the following:

- School and Society (271)
- Educational Psychology (272)
- Curriculum Development (375)
- Teaching of Reading and Language Arts (360)
- Science for Elementary Schools (362)
- Social Studies for Elementary Schools (363)
- Health and Physical Education for Elementary Schools (364)
- Art for Elementary Schools (365)
- Music for Elementary Schools (366)
- Mathematics for Elementary Schools (367)
- Instructional Materials (461)
- Curriculum Issues Seminar (479)
- Student Teaching (491, 492)
- Four courses (461, 479, 491, 492)

must be taken as a Block in the spring term of the senior year.

SECONDARY SCHOOL CERTIFICATION

The program for secondary school teacher certification includes a "teaching" subject area major plus the following:

- School and Society (271)
- Educational Psychology (272)
- Curriculum Development (375)
- Curriculum Issues Seminar (479)

Special Methods — Secondary (481)

Student Teaching (493, 494)

Four courses (479, 481, 493, 494)

must be taken as a Block in the spring term of the senior year.

Note: Education 271 and 272 are prerequisites for all 300- and 400-level Education courses.

271. School and Society

An examination of sociological influences on educational theory and practice; the development of the School as an institution.

272. Educational Psychology

Application of concepts of psychology to children and adolescents in school situations. Psychological analysis of the learning process and the interrelationships between the individual and his environment. An examination of influences upon motivation, perception, and behavior of teachers, students, and administrators.

291. DS. Directed Observation and Participation in Elementary and Secondary Classroom Activities
This course is designed to provide students the opportunity for daily observation and active participation in the work of the classroom teacher. Weekly seminars are scheduled under the direction of staff members to direct the activities of the students.

360. Teaching of Reading and Language Arts
Improvement of reading and language arts programs in the elementary school with techniques of developing reading, writing, listening, spelling, and speaking skills.

362. Science for Elementary Schools

A study of the major concepts in science taught in the elementary school and the methods employed to achieve the objectives of elementary science. With cooperation and assistance of the National Aeronautics and Space Administration, special emphasis is placed on aerospace education and the incorporation of aerospace content in the elementary school science curriculum.

363. Social Studies for Elementary Schools

Concepts from the social studies, and how they relate to the study of Man and his environment.

Methods and materials for teaching in the elementary school.

364. Health and Physical Education for Elementary Schools

Organizing and conducting physical education programs in elementary school; includes principles of health education.

365. Art for Elementary Schools

Fundamental concepts of color and design and the process of teaching art in the elementary grades.

366. Music for Elementary Schools

Basic concepts, literature, and procedures relative to teaching music in the elementary grades.

367. Mathematics for Elementary Schools

Sets, number systems and operations, and the procedures for teaching mathematics to elementary school students.

375. Curriculum Development

Survey of current curriculum practices from kindergarten through high school and analysis of selected school systems. Includes application and evaluative techniques, school organization, and financial support.

461. Instructional Materials

Selection, evaluation, and utilization of instructional materials. Among such materials are traditional and recent children's literature, maps, films, reference books, newspapers, television programs, and other audio-visual aids.

479. Curriculum Issues Seminar

Seminars will be organized on important topics of interest to instructor and students. Designed for seniors who have completed student teaching.

481. Special Methods — Secondary

Selection, evaluation, and utilization of instructional materials. Planning of content and methods and techniques of teaching in a special field. Students must reserve three hours weekly for laboratory assignments.

491, 492. Student Teaching — Elementary

493, 494. Student Teaching — Secondary
Eight weeks of all-day experience in a local school classroom under the direction of a public school directing teacher. Experience includes weekly observation visits and/or conferences with the college coordinator.

ENGLISH

Folsom (*Head*), Cohen, Dorsett, Hamilton, Haylor, Koontz, Mendell, Nordstrom, Pastore, Phelan, Ser

Students majoring in English are required to complete the following courses and studies:

Old English, Middle English, and Early Renaissance Literature (201)

Major Writers of the Later Renaissance and Seventeenth Century (202)

Shakespeare (317 or 318)

18th Century (301 or 355)

19th Century (332 or 333 or 356)

20th Century (364 or 365 or 366 or 370)

American Literature (303 or 304)

Elective in American Literature

Two Electives in English (from English courses and studies in literature and language above the 100-level)

Independent Study

Senior English Course

Of these courses English 201 and 202 are usually taken in the sophomore year, and English 301, 303, or 304 in the junior year. The others may be taken in the student's sophomore or junior year. The Senior Course and Independent Study are normally taken in the senior year.

101. Freshman Rhetoric and Composition

The aim of this course is to inculcate habits of accurate reading, logical thinking, and clear, correct expression. Subject matter for both reading and writing is limited in the main to exposition. (Required of students who at entrance do not meet composition requirements.)

150. Introduction to Literature

A critical study of short stories, short novels, plays, and poems that are representative of the various literary periods, past and present. (Freshmen only)

201. Old English, Middle English, and Early Renaissance Literature
Emphasis on the epic, *Sir Gawain*, Chaucer, Spenser, and Marlowe. Sophomore, junior years.

202. Major Writers of the Later Renaissance and Seventeenth Century
Emphasis on the Metaphysical poets, Milton, and writers of the Restoration. Sophomore, junior years.

205. The English Language
Study of modern written and spoken language as affected by changes in pronunciation, forms, sentence structures, meanings, and idiom dictated by either convention or usage at all levels. No prerequisite; designed for both majors and non-majors; sophomores, juniors, seniors. Essential for future teachers of English at either elementary or secondary level.

281, 282. Types of Literature
Advanced study of fiction, drama, and poetry, selected from the literature of various countries and various periods. The genre presented in each course will be selected at the discretion of the instructor. Primarily for non-English majors.

290. Advanced Expository Writing
The techniques of expository writing for the student wishing to improve his ability to organize and present material. Careful critical study of structure and style. Frequent essays and individual conferences. Sophomores and above.

301. Eighteenth Century
English literature from Swift to Burns, with special emphasis on the beginnings of the Romantic Movement and the ideas that have shaped the thinking of modern times. Prerequisite: two courses in literature. Junior, senior years.

303, 304. American Literature
A critical, historical study of the forms and ideas shaping — and produced by — major American authors. Fall: Hawthorne, Emerson, Thoreau, Poe, Melville, Whitman, Dickinson, Clemens. Spring: James, Crane, Fitzgerald, Robinson, Frost, Hemingway, Jeffers, Faulkner. Oral reports and analytical papers. Junior, senior years.

306, 307. Selected Studies in American Literature
American literary studies, varied from year to year as to authors, genres, or historical and cultural movements.

306. Selected Studies in American Literature

The Life of the American Dream

Readings in fiction, poetry, drama, and protest literature from such writers as Thoreau, Melville, Faulkner, Fitzgerald, Steinbeck, Baldwin, Malcolm X, Frost, Sylvia Plath, Lillian Hellman, Tennessee Williams, Bernard Malamud, Thomas Wolfe, and Joseph Heller. Sophomore and above.

307. Selected Studies in American Literature

The "Epic" Novel

This course will investigate various novels which attain to "epic" proportions in either theme or method. Novels which employ the great myths of Western civilization as background, as well as those which create their own indigenous mythic structure will be considered. The works of Melville, Hemingway, Faulkner, Rolvaag, Steinbeck, and others will be included in the course. Sophomores and above.

313. Southern Writers

A study of selected Southern writers. Sophomore, junior, senior years.

317, 318. Shakespeare

A study of the major plays and sonnets. Both courses include comedies, tragedies, and histories. 317 covers the early plays; 318, the later. Sophomore, junior, senior years.

321, 322. World Literature

First term: literature of Ancient Greece and Rome, and Medieval Europe, with emphasis upon the classical tradition and Dante. Second term: Later Renaissance and Humanism, the Enlightenment, the Romantic period, and modern continental literature. Sophomore, junior, senior years.

332. Romantic Period

A study of the literature and the leading ideas of the English Romantic Movement, with special

emphasis on the poetry of Wordsworth, Coleridge, Byron, Keats and Shelley. Sophomore, junior, senior years.

333. Victorian Poetry and Essay

A study of the literature of England from 1850 to 1900. Special attention is given to the leading ideas of the period and to the work of Carlyle, Tennyson, Browning, Ruskin, and Arnold. Sophomore, junior, senior years.

350. Literary Criticism

A study of literary criticism and critical theory proceeding from Plato and Aristotle or methodologically by various approaches. Junior, senior years.

351, 352. Development of the Drama

A survey of important plays from the Greeks to the mid-nineteenth century. In English 351 Greek drama is emphasized; in English 352, English and French. Emphasis on dramatic principles as an aid to enjoying the theatre. Sophomore, junior, senior years.

355, 356. English Novel

The development of the novel in England into a major literary medium interpreting man's experience in life, both as an individual and as a member of human society. Fall — Fielding, Smollett, Sterne, Austin, Scott; Spring — Dickens, Thackeray, Trollope, Meredith, Hardy. Sophomore, junior, senior years.

363. Twentieth-Century Drama: European

From Ibsen to Ionesco, including Strindberg, Chekhov, Rostand, Lorca, Pirandello, and others. Sophomore, junior, senior years.

364. Twentieth-Century Drama: British and American

From Wilde to Albee, including Barrie, Shaw, Coward, Synge, O'Casey, Pinter, Shaffer, O'Neill, Maxwell Anderson, Wilder, Williams, Miller, and others. Sophomore, junior, senior years.

365. The Twentieth-Century English Novel

A study of twentieth-century English fiction with detailed analyses of novels and the writing of critical papers. Sophomore, junior, senior years.

366. Twentieth-Century British and American Poetry

A study of British and American poets of the twentieth century, with emphasis upon the major poets. Sophomore, junior, senior years.

367, 368, 369. Creative Writing

A course in creative writing, conducted on the workshop plan. Weekly reading and criticism of manuscripts that are written outside of class. Sophomore, junior, senior years. Consent of instructor required. (One course in creative writing may count as an elective in English. Additional courses count for credit outside of the English major.)

370. Twentieth-Century American Novel

A study of twentieth-century American fiction with detailed analyses of novels and the writing of critical papers. Sophomore and above.

381. Modern European Novel

A study of the development of the contemporary fiction in Europe. Representative authors from Flaubert to Robbe-Grillet, including Silone, Kafka, Camus, and others. Sophomore, junior, senior years.

481. Senior Course for English and History Majors

This course will investigate similarities and differences in the expression of the human condition as it manifests itself in historical and literary forms. A primary assumption of the course is that all literature, historical and fictional, is firmly rooted in the life of a society, and each in its special way reflects and illuminates the attitude and condition of society.

The purpose of this course is to provide, by lecture and discussion of historical and literary expression of certain historical themes, a broader perspective and at the same time a deeper appreciation of their major fields for both English and history senior majors.

Directed Study

Directed Studies will be offered as needed.

Independent Study

499. Project with department approval. Senior year; junior, with permission.

ENVIRONMENTAL STUDIES

The Environmental Studies major, a cross-disciplinary program instituted in the spring of 1971, combines a wide range of course offerings from four established academic areas within the present curriculum as well as a number of new courses especially designed for this major.

Graduation requirements are met by taking 12 courses with a distribution of two courses in each of the following areas: Behavioral Science, Economics and Management, History and Public Affairs, the Natural Sciences and Mathematics. In addition, four courses on the 300-400 level are to be taken in one of these four areas with one course being an Independent Study. This program combines interdisciplinary breadth with an in-depth specialization in one field. By a judicious selection of elective courses, it is feasible to pursue a major in two areas.

Students majoring in Environmental Studies will be advised by selected faculty members who are actively involved in the development and implementation of the program. The list of advisers may be obtained from the Registrar's Office. Academic advising will emphasize the individual — his needs, his interests, his aspirations. Because of the large number of available courses, it is unlikely that any two students would have an identical program although the programs would be academically equivalent. The Environmental Studies major leads into opportunities for advanced studies on the graduate level and/or a wide range of careers in environmentally related areas of concern.

An important aspect of this major is the exposure and involvement of the student with real environmental problems that exist beyond the campus. First-hand experience is obtained in the field and laboratory.

In consultation with an Environmental Studies adviser a student will select two courses in each of the following categories. (New courses are identified by an asterisk “*”).

BEHAVIORAL SCIENCE

Introduction to Behavioral Sciences (BH 200)

*Area Studies in Anthropology (BH 261)

*Organizational Behavior (BH 281)

ECONOMICS AND MANAGEMENT

The American Economy (Econ 201)

*Economics of the Environment (Econ 241)

International Economic Relations (Econ 307)

*Applied Environment Planning (Econ 341)

HISTORY AND PUBLIC AFFAIRS

Principles of Government (HPA 101)

American National Government (HPA 247)

State and Local Government (HPA 348)

NATURAL SCIENCES AND MATHEMATICS

*Cleaning Our Environment: The Chemical Basis for Action (CH 199 DS)

*Human Ecology (B 216)

Statistical Methods (M 120)

Additional courses that may be elected include the following. Others are being planned.

BEHAVIORAL SCIENCE

Field Studies in Behavioral Science (BH DS)

Urban Sociology (BH 318)

Motivation (BH 325)

Human Evolution (BH 333)

Sociology of Education (BH 341)

Cultural Anthropology (BH 351)

Culture and Biological Man (BH 356)

Population (BH 401)

Sociology of Religion (BH 405)

Comparative and Animal Behavior (BH 430)

ECONOMICS AND MANAGEMENT

Statistical Inference (Econ 301)

Economic Analysis - Macro (Econ 304)

Labor Economics (Econ 321)

Legal Factors in Business Organization (Econ 322)

Economics and the Law (Econ 323)

Accounting in the Business Firm (Econ 325)

Financial Analysis and Economic Decisions (Econ 326)

Comparative Economic Systems (Econ 327)

Economic Development—Special Emphasis on Latin America (Econ 351)

HISTORY AND PUBLIC AFFAIRS

- The Developing Nations (HPA 356)
- International Organizations (HPA 357)
- International Law (HPA 358)
- Urban Regional Development (HPA 375, 377)
- The Great Depression and the New Deal (HPA 430)
- Public Opinion (HPA 460)

NATURAL SCIENCE

- Oceanography (B 315)
- Ecology (B 316)
- Animal Behavior (B 318)
- Population Biology (B 351)
- Marine Biology (B 394)

The following related courses may be elected beyond the 12 courses selected in the Environmental Studies program.

BEHAVIORAL SCIENCE

- Deviant Behavior (BH 271)

ECONOMICS AND MANAGEMENT

- *Economic Effects of Interest Groups, Science and Technology (Econ 192 DS)
- Principles of Economics I and II (Econ 211, 212)

EDUCATION

- School and Society (Educ 271)
- Science for Elementary Schools (Educ 362)

NATURAL SCIENCES

- Psychobiology (B 191, 291 DS)
- *Biology of Reproduction (B 193, 293 DS)
- *Parasitology (B 194, 294 DS)
- *Geology (GG 294 DS)

PHILOSOPHY AND RELIGION

- Introduction to Logic (PH 123)
- Philosophy of Science (PH 311)
- Religious Responses to Social Issues (R 331)
- Philosophy of the Social Sciences (PH 346)

SPEECH

- Fundamentals of Speech (SP 101)
- Group Discussion (SP 104)
- Argumentation and Debate (SP 202)
- Elements of Persuasion (SP 304)

EXPRESSIVE ARTS

The Expressive Arts major is an integrated arts curriculum offered by the art, music and theatre arts departments. The major is an addition to the existing departmental majors in these fields.

The joint offerings provided by this program should be of interest to students who desire a more comprehensive study of the arts than is normally possible within departmental majors.

While the courses which make up the Expressive Arts major will tend to emphasize history and theory rather than applied work, it is the belief of the participating departments that students working in the program will achieve more meaningful insights if they are required to attain a certain level of competence in the practice of one of the arts.

Each student taking this major will select one of the areas, theatre, music, or art, for emphasis and will complete a required number of hours in applied work in that field in addition to the history and theory requirements in each of the three areas.

FOREIGN LANGUAGES

(FRENCH, GERMAN, RUSSIAN, SPANISH)

Sedwick (Head), Bonnell, Borsoi,* Danowitz, Lancaster, Miller, Stadt, Terrett, Zilius

The department serves the needs of those who wish to achieve a knowledge of a given language, its literature, and its culture, or — on a more advanced level — those who plan to teach, who anticipate graduate study and research, or who are preparing to use the language as an important second skill in various professional fields.

A student may major in one language (French, German, or Spanish) by completing 12 courses on the 200-, 300-, and 400-level in that language, plus two years, or their equivalent, of any second foreign language; or he may have a Combined Language Major defined as at least 7 of the above courses in any one language and 5 courses in any second language, including Russian.

Placement of freshmen: Incoming freshmen are expected to have taken the Language Achievement Test of the CEEB (see Requirements, Foreign Language, page 58). A student who scores above 550 in this examination has met the Rollins language requirement and, if he wishes further study in the same language, is eligible for 300-numbered courses. (Also see Admission with Advanced Standing, page 35). Students who score lower than 550 are placed at the discretion of the department; in general, students with scores between 440 and 549 are placed in the 201 course, the completion of which fulfills the Rollins language requirement. A student who scores lower than 440 is advised either to begin the language again (101, 102) as an auditor (no credit) before he attempts the 201 course, or to undertake a fresh start in a new language for full credit.

FRENCH

101, 102. Elementary French
Grammar, readings, cultural material, maximum of oral practice, laboratory.

*On leave, 1971-72

201. Intermediate French

An intensive one-term course. Reading, writing, speaking, grammar review, laboratory work. Prerequisite: French 102 or equivalent. One section of French 201 is taught in the winter term in Fort-de-France, Martinique. See section on Study Abroad on page 33.

311, 312. Survey of French Literature

A panoramic view of French literature from the earliest times to the present. Required of French majors as a prerequisite to all 400-numbered French literature courses. Prerequisite: French 201 or score of 550 in the Language Achievement Test of the CEEB.

321. Advanced Composition and Conversation
Required of French majors. Prerequisite: French 201 or score of 550 in the Language Achievement Test of the CEEB.

401. Eighteenth-Century Literature

Prerequisite: French 311, 312.

405. Nineteenth-Century Literature

Prerequisite: French 311, 312.

409. Twentieth-Century Literature

Prerequisite: French 311, 312.

413. Seminar

Advanced study of literary or linguistic topics of special interest or importance. Prerequisite: French 311, 312, and consent of instructor.

421. Seventeenth-Century Literature

Prerequisite: French 311, 312.

431. French Civilization

A cultural course relating French art, music, history, literature, and customs into a meaningful analysis of the contemporary French society. No prerequisite. Offered only in the Rollins summer program in France.

GERMAN

101, 102. Elementary German
Grammar, readings, cultural material, maximum of oral practice, laboratory.

201. Intermediate German

An intensive one-term course. Reading, writing, speaking, grammar review, laboratory work. Prerequisite: German 102 or equivalent.

301, 302. Survey of German Literature

A panoramic view of German literature from the earliest times to the present. Required of German majors as a prerequisite to all 400-numbered German literature courses. Prerequisite: German 201 or score of 550 in the Language Achievement Test of the CEEB.

321. Advanced Composition and Conversation
Required of German majors. Prerequisite: German 201 or score of 550 in the Language Achievement Test of the CEEB.

401. Eighteenth and Nineteenth Century Literature

Vorklassik, Hochklassik, Romantik. Prerequisite: German 301, 302.

404. Late Nineteenth and Twentieth Century Literature

Realism, naturalism, and modern. Prerequisite: German 301, 302.

413. Seminar

Advanced study of literary or linguistic topics of special interest or importance. Prerequisite: German 301, 302, and consent of instructor.

RUSSIAN

101, 102. Elementary Russian

Grammar, readings, cultural material, maximum of oral practice, laboratory.

201. Intermediate Russian

An intensive one-term course. Reading, writing, speaking, grammar review, laboratory work. Prerequisite: Russian 102 or equivalent.

301, 302. Introduction to Russian Literature and Culture

Masterworks of Russian literature in English translation. No knowledge of Russian required. No prerequisite, except not open to freshmen.

321. Advanced Composition and Conversation
Prerequisite: Russian 201 and consent of instructor, or score of 550 in the Language Achievement Test of the CEEB.

331, 332. Survey of Russian Literature
(Not offered 1971-72)

SPANISH

101, 102. Elementary Spanish

Grammar, readings, cultural material, maximum of oral practice, laboratory.

201. Intermediate Spanish

An intensive one-term course. Reading, writing, speaking, grammar review, laboratory work. Prerequisite: Spanish 102 or equivalent.

321. Advanced Composition and Conversation
Required of Spanish majors. Prerequisite: Spanish 201 or score of 550 in the Language Achievement Test of the CEEB.

331, 332. Survey of the Literature of Spain
A panoramic view of Spanish literature from the earliest times to the present. Required of Spanish majors as a prerequisite to all 400-numbered Spanish literature courses. Prerequisite: Spanish 201 or score of 550 in the Language Achievement Test of the CEEB.

341, 342. Survey of Spanish-American Literature
A panoramic view of Spanish-American literature from the earliest times to the present. Prerequisite: Spanish 201 or score of 550 in the Language Achievement Test of the CEEB.

401. Golden-Age Drama

Sixteenth- and seventeenth-century drama in Spain. Prerequisite: Spanish 331, 332.

403. Don Quijote

Conducted in English in order to accommodate non-Spanish students, who may have *Don Quijote* in translation and who are exempt from the Spanish prerequisite for this course. Prerequisite for Spanish majors: Spanish 331, 332.

405. Nineteenth-Century Literature of Spain
Prerequisite: Spanish 331, 332.

409. Twentieth-Century Literature of Spain
Prerequisite: Spanish 331, 332.

413. Seminar
Advanced study of literary or linguistic topics of special interest or importance. Prerequisite: Spanish 331, 332, and consent of instructor.

431. Spanish Civilization
A cultural course relating Spanish art, music, history, literature, and customs into a meaningful analysis of the contemporary Spanish society. No prerequisite. Offered only in the Rollins summer program in Spain.

All Languages, Winter term:

298. Directed Study for sophomores.

398. Directed Study for juniors.

499. Independent Study for seniors.

(By permission, particularly well-prepared sophomores or juniors may be allowed to undertake Independent Study.)

ALL LANGUAGES, Fall term only, required of all language majors in their senior year:

451. Fundamentals of Language Analysis
The aim of the course is to acquaint the student with the basic concepts and general features found in human language and to relate this knowledge to his major language. Emphasis is on the principles of phonology, morphology, syntax, with briefer treatment of historical linguistics and methods of analysis. The class is given in English, with illustrative material taken from other languages, especially Romance and Germanic. The student is required to apply the concepts presented by dealing with a specific grammatical topic in his major language.

Rollins Semester-in-Colombia at the Universidad De Los Andes, Bogotá, annually, January 28 to May 28. B average in Spanish required for enrollment. See description of the program under Study Abroad (page 31).

Rollins Summer Program in Madrid, annually, June 21 to August 8. C average required for enrollment. The student may register for one or two courses chosen from the following, which are offered each summer: Spanish 201, 321, 332, 413, and 431. See description of the program under Study Abroad (page 32).

Rollins Summer Program in France, annually, June 21 to August 8. C average required for enrollment. The student may register for one or two courses chosen from the following, which are offered each summer: French 201, 312, 321, 413, and 431. See description of the program under Study Abroad (page 32).

Junior or Sophomore Year in Germany, Switzerland, or Spain, sponsored annually by the Associated Mid-Florida Colleges. See description of the program under Study Abroad (page 33).

GEOLOGY

294; DS. Geology

The evolution of Earth structures, environments, and resources is emphasized and related to man's use of the Earth. Sophomore standing.

Note: Refer also to Biology 199 and 299, Paleontology, and to Biology 315, Oceanography.

HISTORY AND PUBLIC AFFAIRS

Lane (*Head*), Edmondson, Gilbert, Hicks, Levis, Reddick, Riva, R. M. Smith, Stabell, Summers, Thomas.

Major Requirements

History and Public Affairs majors must satisfy the following requirements:

Principles of Government (101)

History of Western Civilization (113 or 114)

History of the United States (242, 243)

(With the consent of the adviser, students with sufficient preparation in these introductory courses may waive these requirements. Such preparation would normally include high school advanced courses in government or in either American or European history.)

Three courses in Area of Concentration
Three courses in the department outside Area of Concentration
Senior Departmental Course
Senior Independent Study

Area of Concentration

Each History and Public Affairs major should consult with his adviser concerning the selection of an Area of Concentration and the proper sequence to follow. The choices available are American history, European history, and political science.

**Indicates course is offered in alternate years.*

101. Principles of Government

An introduction to the nature of the state and the behavior of political man with emphasis on responsible citizenship; approached through the study of classics from Plato to contemporary behaviorists. Value systems as articulated through the political process. Emphasis on principles and concepts. Prerequisite for future students in government.

113, 114. History of Western Civilization

An introduction to the political, intellectual, social, economic, and religious history of Europe from the Renaissance to the present. 113 covers 1500-1815; 114, 1815-present.

198. Directed Study

205. Major Issues of Our Times

A forum for the development of informed attitudes and responsibilities, approached through a discussion of contemporary problems selected to encourage ongoing citizen concern. Distinguished lecturers; readings in mass media; writing of a journal; pro and con memorandums; position papers.

*208. Ancient History

A survey of the ancient world from prehistoric times through the middle of the fifth century with emphasis on Greece and Rome.

*209. Medieval History

An introduction to medieval Europe from the fifth

to the fifteenth century with special emphasis on social, political, and religious developments.

225, 226, 227. History of England and the Empire-Commonwealth

225: Constitutional and political development of England from Norman times to the Stuart Period. 226: Constitutional and political development of England during the Hanoverian Period. 227: History of Modern England and the evolution of the Empire and Commonwealth from the Hanoverian Period to the present. Prerequisite: 113, 114 or consent of instructor.

241, 242, 243. History of the United States from 1789 to the Present

A study of political, social, and economic development from the founding of the Republic to the present.

247. American National Government

Study of the Constitutional structure and operational pattern of the federal system with emphasis on political behavior.

337, 338, 339. Comparative Government

337: Study of representative types of political institutions in major national states. Prerequisite: Political Science 101. 338: Survey of the government party structure and politics of the Soviet Union and Eastern European Communist Bloc countries with emphasis on the continuing processes of change. 339: Survey of the government party structure and politics of the People's Republic of China, North Korea, and North Vietnam with emphasis on the continuing processes of change.

*334. American Social and Intellectual History

An examination of the major American philosophies, political and social theories, religious and literary movements, and scientific achievements since the foundation of the Republic. Emphasis will be placed on diverse readings, thoughtful essays, and student discussion on such topics as: Transcendentalism, pragmatism, the intellectual response to urbanization and industrialism, and other related topics. Prerequisite: 242, 243 or consent of instructor.

348. State and Local Government

Study of the structure and operational patterns of state, county, and municipal government with emphasis on effective citizen participation. Special attention to evolving regional and intergovernmental relationships.

*354, 355. History of Russia

354 deals with the period of Imperial Russia; 355 deals with the U.S.S.R. Prerequisite: 113, 114 or consent of instructor.

356. The Developing Nations

A study of the politics, economy, and social conditions in the emerging nations and the interrelations between Asia, Africa, and Latin-America.

357. International Organizations

Practical and institutional arrangements among sovereign states for carrying out their national interests, for the pursuit of welfare, and for national security. Attention to regional arrangements, functional agencies, and the United Nations. Prerequisite: Government 101.

358. International Law

The rights, obligations, and relationships of national states in their intercourse with one another. Prerequisite: Government 357 or consent of instructor.

359, 360. Spain and the Spanish Empire

359: The historical evolution of Spain and the Empire to 1700. 360: A study of the developments from 1700 to the present. Prerequisite: 113, 114 or consent of instructor.

*361, 362. American Foreign Relations

361 deals with American foreign relations to 1898; 362, after 1898. Prerequisite: 241, 243 or consent of instructor.

371. The Sixteenth Century

An intensive study of the political, economic, cultural, and intellectual aspects of the sixteenth century.

*375, 377. Urban Regional Development

The City in Crisis. The demographic, environmental, and political patterns of metropolitan

growth with special attention to public opinion, public services, and legislation. Collaboration with the East Central Florida Regional Planning Council. Prerequisite: Government 101 or consent of instructor.

381, 382, 388. Modern European History since 1815

The first term concentrates on the reactionary and revolutionary activities to 1870. The second term concentrates on nationalist and imperialist tendencies to 1919. The third term stresses World War II, the Cold War, and efforts to maintain collective security.

385. Political Theory

Study of representative thinkers from Greece to contemporary behaviorists with attention to conflict involved in the authoritative allocation of values.

399, 499. Independent Study

405. Public Administration

A study of management in large-scale organization with emphasis on careers in federal, state, and local government.

*421. Society and Ideas in America's Gilded Age
A reappraisal of the social and intellectual aspects of the nation's "watershed" phase.

*430. The Great Depression and the New Deal, 1919-1940

After an introductory study of the Republican ascendancy, this course focuses on the impending economic crisis and the subsequent New Deal reform movement. Emphasis is given to the continuing interpretation of Roosevelt and the New Deal through reading, class discussions, and written projects. Open to junior and senior History majors or by special permission of instructor. Prerequisite: 243 or consent of instructor.

*432. War in Modern Society

Concerned with war as a major force in modern history, with emphasis on its influence on social, economic, and political conditions, concepts and theories of war, and the origin and development

of the military profession. Open to junior and senior History majors. Prerequisite: 114 and 243 or consent of instructor.

***433. Age of Jefferson and Jackson**

An extensive examination of the social, political, and economic developments in the United States during the period 1800-1860. Prerequisite: 242 or consent of instructor.

***434. Civil War and Reconstruction**

An extensive examination of the social, political, and economic developments in the United States during the period 1860-1877. Prerequisite: 242 or consent of instructor.

***435. Modern France**

An interpretive study of French social, political, and intellectual development from early modern times to the present. Prerequisite: 114 or consent of instructor.

***460. Public Opinion**

A study of the nature, development, and control of opinion in contemporary society; a study of methods of communication and techniques of persuasion.

461. Contemporary Asia

History of the Far East since the opening of the Trans-Siberian Railroad. Geographical, religious, cultural, demographic, economic, and political factors to colonialism, independence, communist penetration, and the involvement of the United States.

490. Senior Departmental Course

Given in two sections: (1) Historiography and (2) Methods.

LATIN AMERICAN STUDIES

Valdés (*Coordinator*), Mitchell

The overall objective of the Latin American Studies major is to develop and continuously upgrade a systematic and coordinated body of undergraduate courses and programs on Latin America, enabling students to understand their mission within the North American civilization

through intensive study of the Latin American segment of world civilization.

Students planning to major in either Latin American Studies or in the combined major of Latin American Studies and Spanish must select Spanish to fulfill the general college requirement for foreign language.

The major in Latin American Studies includes courses in anthropology, economics, history, literature, political science, and sociology, and related courses.

Students interested in a combined major of Latin American Studies and Spanish must take approximately eight courses in each field. Since this is not a straight Spanish major, the requirement of another language is waived, the Latin American Studies taking its place.

Students electing the Latin American Studies major must take, in addition to the introductory course, *The Latin Americans* (211), ten courses selected from those listed below, or in consultation with the Coordinator of the program, courses in the field given by other departments.

Students majoring in other departments who wish to supplement their major with related work in Latin American Studies are invited to discuss their program with the Coordinator of Latin American Studies and with their major adviser.

211. The Latin Americans

A survey of the geographic, economic, social, racial and ethnic, ideological, and political factors which condition the destinies and potential of the peoples of Latin America. This course is a prerequisite for any 300-level course in this department.

233, 234. Republics of Latin America

Interdisciplinary study in depth of selected individual countries in Latin America.

298, 398. Directed Study

303. Problems and Prospects of Latin America

A topical survey of socio-economic and political problems related to the implementation of programs to bring about effective and rational re-

source utilization, and higher levels of living in Latin America. Prerequisite: Latin American Studies 211, 212; open also to non-major upper-classmen by consent of instructor.

311. The United States and Latin America
A study of the development of the Latin American policy of the United States and of the inter-American problems. Admission by consent of instructor.

321. Latin America in World Perspective
The study of the impact of Europe, Asia, and Africa upon Latin America and the specific economic, cultural, psychological, and political problems in the international relations of Latin America.

332, 333. History of Latin America
In the fall term, a survey of Spanish and Portuguese colonial systems and institutions with emphasis on long-term influences of this period. The spring term offers a study of the growth of the Latin American Republics from the wars of independence to the present. Open as an elective to all upperclass students.

365. The Political Systems of Latin America
A study of the politics and governments of Latin America within its social, political, and economic contexts.

399, 499. Independent Study

492. Senior Seminar in Latin American Studies

Related Courses

Economic Development (with emphasis on Latin America)
(See Economics 351)

International Economic Relations (with emphasis on Latin America)
(See Economics 307; prerequisite: Economics 211)

Introduction to Folksong Style (in the Anglo-American and Mexican traditions)
(See Music 317)

Research Projects on Latin American Topics (In various departments; in winter term)

Survey of Spanish-American Literature
(See Spanish 341, 342)

MATHEMATICS

Bowers (*Head*), Naleway, Roth, Skidmore, Wolfe

A student majoring in mathematics obtains the best undergraduate preparation for careers in pure and applied mathematical research, college, junior college and secondary school teaching of mathematics, actuarial science, operations research, computer science, and certain analytical areas of the engineering sciences and the life sciences. In addition, mathematics majors are generally welcome into diverse professional areas such as law, medicine, and business, government and industrial management.

A mathematics student will take Mathematics 111, 112, three 200-level courses including 211, three 300-level courses including 311 and either 321 or 322, two 400-level courses including 411, one directed study in mathematics and one independent study in mathematics in order to satisfy the 12-course minimum major requirement. Typically, a freshman planning to major in mathematics will take Foundation Course 141-142 in science, Mathematics 111-112, and other Foundation Courses and foreign language as required. Well qualified entering students are advised to take the Advanced Placement Examination in calculus for college credit and exemption from one or more terms of calculus.

A student interested in secondary school training should include Mathematics 230 and both 321 and 322 in his program. Those interested in computer science should elect Mathematics 240. If graduate school is contemplated, the student should schedule as many upper-level mathematics courses as possible and should obtain a reading knowledge of German, French or Russian.

Courses in related disciplines which are highly recommended for a mathematics student include Mathematical Physics (Physics 307), Mechanics (Physics 308) and Mathematical Logic (Philosophy 345).

100. Elementary Functions

Functions and their graphs, polynomials and rational functions, inverse functions; coordinate geometry; exponential, logarithmic, and trigonometric functions; curve sketching. Problem session required.

111. Introductory Calculus

Slopes, derivatives of elementary functions, extremal problems, curve sketching; areas and integrals, techniques of integration. Problem session required. Prerequisite: Mathematics 100 or satisfactory score on departmental test.

112. Calculus with Linear Algebra

Techniques of integration and differentiation, simple techniques for solving some differential equations; improper integration, infinite series, power series. Systems of homogeneous and non-homogeneous linear equations, Gaussian elimination using matrices, introduction to vector spaces. Problem session required. Prerequisite: Mathematics 111.

120. Statistical Methods

For the non-mathematics major. An introduction to methods of statistical analysis. Machine computation methods for finding best fit to linear, power, and exponential curves, sampling and hypothesis testing.

198. Directed Study

Topics selected from set theory, groups, number theory, geometry, foundations, history. Prerequisite: Consent of instructor.

211. Multivariable Calculus

Vectors, functions of several variables and their graphical representations, partial derivatives, directional derivatives; multiple integration; cylindrical and spherical coordinates. Prerequisite: Mathematics 112.

212. Ordinary Differential Equations

Theory of linear differential equations, series solutions, systems of linear differential equations, introduction to boundary value problems and eigenvalues. Prerequisite: Mathematics 211.

220. Mathematical Statistics

Elementary set theoretic approach to probability; basic ideas of distributions and expectations. Theories on hypothesis testing, regression and correlation; sampling theory, estimation and Bayesian methods. Prerequisite: Mathematics 111.

230. Geometry

Plane Euclidean geometry from a modern viewpoint. Lines and planes; distance and betweenness; angles, similarity, congruence, parallel postulate and alternatives; circles and constructions with ruler and compass.

240. Numerical Analysis

Flowing charting, 1620 Fortran; numerical techniques in interpolation, integration, algebraic and differential equations, matrix inversion and curve fitting. Prerequisite or corequisite: Mathematics 212.

298. Directed Study

Topics selected from set theory, groups, number theory, geometry, foundations, history. Prerequisite: Consent of instructor.

311. Advanced Multivariable Calculus

Transformations, the differential as a matrix, Jacobean, implicit functions; vector analysis; differential forms interpretation; Green's, divergence, and Stokes' theorems. Prerequisite: Mathematics 211.

312. Fourier Methods

Function spaces with inner product, orthogonal bases, Gram-Schmidt process, Schwarz and Bessel inequalities; general Fourier series with emphasis on $\exp(ix)$ and trigonometric case, application to boundary value problems; Fourier integral with applications. Prerequisite: Mathematics 311 and 321 or consent of instructor.

321. Linear Algebra

Linear mappings, change of basis, representation by matrices, similar matrices; relation between linear mappings and systems of linear equations; inner product and norms; determinants; quadratic forms, Cayley-Hamilton theorem. Prerequisite: Mathematics 211.

322. Algebraic Structures

Number systems, groups, rings, unique factorization domains, fields. Prerequisite: at least two 200-level mathematics courses.

398. Directed Study

Topics selected from differential equations, function spaces, probability and statistics, model theory, and other advanced topics in mathematics. Prerequisite: Consent of instructor.

411. Real Analysis

Real number system, metric spaces, Euclidean spaces, uniform continuity, integration theory, uniform convergence. Required of seniors. Prerequisite: Mathematics 211.

412. Complex Analysis

Cauchy-Riemann equations, analytic functions, complex series and integrals, conformal mapping. Prerequisite: Mathematics 311.

430. Topology

Metric spaces, topological spaces, connectedness, compactness. Prerequisite: Mathematics 322 or consent of instructor. Offered in alternate years.

440. Applied Mathematics

Methods of mathematical physics. Prerequisite: Mathematics 312. Offered in alternate years.

499. Independent Study

Advanced topics in mathematics.

MUSIC

Rosazza (Head), Anderson, Brockman, Carlo, Carter, Gallo, Woodbury

Students anticipating a major in Music are expected to indicate this choice on applying to the College.

The requirements for entrance and graduation as set forth in this catalog are in accordance with the regulations of the National Association of Schools of Music in which the department holds full membership.

A major performance area is required of each music major and may be selected from the fol-

lowing: piano, organ, voice, strings, woodwinds, brasses, or percussion. The student receives two private lessons a week in his chosen field of applied music during the full four years. Examination of technical and musical progress will be given at the end of the first and third terms of each year. *A student concentrating in composition may substitute advanced work in this field in lieu of applied music during the third and fourth year.*

Music majors will study theory and history of music in synthesized courses aimed to produce comprehensive musicians. A total of 14 courses are required for graduation.

Piano as a secondary instrument is required without credit; degree of achievement is subject to departmental satisfaction.

Music majors will participate in public recitals and are required to attend all concerts at the College as well as designated performances off-campus. Satisfactory participation in music ensembles is required during each term of the student's residence in the College.

Each student applying for admission as a Music major must have an audition or submit a tape recording of his work to be eligible for acceptance by the music department. This should be done before March 1. (See page 36.) In September an examination in the rudiments of music will be given entering students for placement purposes. Non-credit study in basic theory will be required of entering students unable to meet minimum entrance requirements.

ENTRANCE REQUIREMENTS IN APPLIED MUSIC

To enter the four year degree courses with *applied concentration in:*

Organ: The student should have completed sufficient piano study to enable him to perform some of the Bach Inventions and the easier Mozart, Haydn, and Beethoven Sonatas. The student will also be asked to play one of the major and minor scales in a moderate tempo.

Piano: The student should be prepared to play the major and minor scales and arpeggios in all keys and to read at sight simple piano literature. In addition, the student must play three compositions chosen from the following list:

1. A Two-part Invention of Bach.
2. One of the easier Sonatas of Haydn, Mozart, or Beethoven.
3. A Nocturne of Chopin or one of the Fantasy Pieces of Schumann.

Strings: (Violin, Viola, Cello)

The student must demonstrate an adequate technical foundation based on scales and études, and perform a Concerto by Vivaldi, a Sonata by Tartini, or an equivalent work of this school.

Voice:

The student should be able to sing with musical intelligence standard songs in English. He should also demonstrate his ability to read a simple song at sight.

Woodwinds, Brass, Percussion:

The student of a woodwind or brass instrument must be able to play major, minor, and chromatic scales with various articulations at a moderate tempo, and perform études, technical studies, and a solo of medium difficulty from his instrument's standard repertory. In addition, the student is expected to be able to sight-read passages of medium difficulty. The prospective percussion student should have an excellent snare drum technique and a basic familiarity with the tympani and mallet instruments.

GRADUATION REQUIREMENTS

In order to graduate the student must:

Organ:

Study the principles of organ technique and interpretation through the performance of works selected from all periods of composition. Basic requirements of service playing will be included.

Piano:

Perform several of the major keyboard works of Bach and Beethoven, shorter pieces by Brahms,

Chopin, Schumann, and Debussy; examples of contemporary music, including works by American composers. The student is expected to read at sight with reasonable accuracy and fluency.

Strings: (Violin)

Perform satisfactory scales and arpeggios in three octaves; studies by Kreutzer and Fiorillo; standard concerti and sonatas by Bach, Handel, Mozart, and Viotti; shorter representative pieces (first two years) and (in the third and fourth years) studies equal in difficulty to those of Rode and Paganini; Bach sonatas for violin alone; advanced concerti and sonatas from the classic, romantic, and modern repertoire. (N.B. — Those majoring in Violin and Cello will pursue a comparable program of study).

Voice:

Exhibit command of breathing, phrasing, and musical style and sing satisfactorily works from the standard repertoire, as well as oratorio and opera arias, and contemporary art songs. Voice majors must complete satisfactorily two foreign language requirements: that of the general college, and at least two terms of a second language.

Composition:

Show unusual aptitude in theoretical courses and possess marked creative ability (first two years); in third and fourth years he must be able to compose in the larger forms of the sonata, fugue, etc., as well as in lyric forms of the song and the instrumental piece.

Woodwind, Brass and Percussion Instruments:

Perform a major concerto and demonstrate the ability to play satisfactorily all of the standard orchestral repertory for his instrument.

Music Education:

In order to meet state requirements to teach music in the public schools a Music major must complete satisfactorily specific courses in education, including student teaching, along with special methods and independent study in appropriate areas of the music education field. In the

graduate division a Master of Arts in Teaching degree with concentration in music is also available.

COURSES FOR MUSIC MAJORS ONLY

101, 102. Structure, Literature and Performance I
Concentration in the theoretical aspects of music with emphasis on structural analysis, together with individual study of major instrument or voice in both technique and literature. Performance is required in ensembles and recitals. (3 hours of classroom theoretical study and 2 individual lessons, or equivalent, per week)*

201, 202. Materials, Structure and Styles II
A continuation of the theoretical aspects of Music 101, 102.

205, 206. Literature and Performance II
A continuation of individual study of major instrument or voice with emphasis on performance and research into the literature of the medium.

301. Materials, Structure and Styles III
Advanced study of theoretical music: form and analysis.

302. History of Western Music, Part I

305, 306. Literature and Performance III

401. History of Western Music, Part II

402. Senior Seminar

A course approaching the comprehensive study of music literature by genre. Collegia Musica will be organized and presented by students under the direction of the faculty of the Department of Music.

405, 406. Literature and Performance IV

*Although applied music (private instruction) is not scheduled during Winter Term, the study will continue during this period in all four years of study.

COURSES FOR ALL STUDENTS

111. The Understanding of Music as Sound
An introductory music course for the non-music major intended to help the student get the most out of listening to music. The contents will cover styles of music ranging from Gregorian Chant through the latest contemporary works. Aspects to be concentrated upon will include: Qualities of Sound, Line and Texture, Rhythm and Meter, Linear and Harmonic organization of pitch, Theme and Motive, overall Musical Shape.

130. Two Choral Masterpieces from the Baroque Era

Messiah by G. F. Handel (1971)

The Passion According to Saint Matthew by J. S. Bach (1972)

A course concerned with the historical, esthetic and musical study of two great works of art. Previous music study not required.

131. Opera: The Complex Art

The study of opera as an art form, with emphasis upon source materials, drama and staging as well as music. Fee for attendance at off-campus opera performances: \$15.00.

132. Impressionism

An exploration of the growth of Impressionism in Music, as related to the French Impressionist school of Painting and the French Symbolist poets. Concentrated listening to the music of Debussy and Ravel.

150. Opera in Vienna

Students enrolling in this course will attend at least 12 performances of opera in Vienna, Austria, with daily seminars to discuss the various components of each opera within the context of its historical and musical significance. The course will also include tours highlighting Vienna's cultural history.

221. The Organ Works of J. S. Bach

Selected works for organ illustrated by live and recorded performance. Course will include a background of the history of the organ and its

construction. Required listening and written papers.

310. Music Theory for the General Student
A course designed to introduce the student to the melodic, harmonic and structural elements of music with emphasis on their application to intelligent listening. Not open to music majors.

311. Music in the Renaissance and Reformation
A course intended to correlate the development of music with social, political and cultural aspects of the general history of this era. (Interdisciplinary)

312. Music in Vienna from 1750 to 1828
Representative works of Haydn, Mozart, and Beethoven as they bear on the political and social events of the time. (Interdisciplinary)

313. Music of Nationalist Russia
A study of the development of Russian music from 1850 to the October Revolution of 1917. Music of Tchaikovsky, Mussorgsky, Borodin, Scriabin, Rachmaninoff, and Prokofiev will be considered as a manifestation of social forces and cultural climate. Novels of Turgenev, Dostoevski, and Tolstoi, in addition to selected plays by Tchekhov, will be assigned. (Interdisciplinary)

314. Twentieth-Century Music
An introductory study of the significant developments of music since 1900 with special attention given to parallel movements in art. (Interdisciplinary)

315. History of Music in America
A survey of the music and musical life in America from 1620 to the present, emphasizing historical and sociological influences on musical trends. (Interdisciplinary)

316. Music of the Romantic Era
A comprehensive course relating the 19th century composers such as Beethoven, Schumann, Chopin, Berlioz, and Tchaikovsky to the cultural climate of central Europe in this era. Concentrated listening will be emphasized.

317. Introduction to Folksong Style
A stylistic study of folksong of North America (in the Anglo-American and Mexican traditions) with respect to 1. the cycle of oral transmission and composition; 2. the form, style and organization of the text; 3. the musical style from the melodic, rhythmic and formal aspects. Laboratory work to involve performing and/or aurally analyzing folk songs.

318. Aspects of American Popular Music from 1900 to the Present
A survey of the principal stylistic movements in American popular music since 1900, in which attention is given the cultural as well as the musical background of each movement. Because of its importance, the role of Negro influence upon American popular music will be stressed. A term paper dealing with one specific movement will be required.

319. Survey of the Folk and Traditional Music of Europe, Negro-Africa, and the Americas
Following a general introduction dealing with the structural and cultural aspects of Western folk and traditional music, a regional survey will be made of the music of the following areas: (1) European folk music, considering separately the music of Northern, Eastern, and Southern Europe; (2) the music of Negro-Africa; (3) the music of the Americas, considering separately the music of the American Indians, Negro folk music in the Americas, and European folk music in the Americas. Prerequisite: Sophomore standing and at least one course in music for the non-major or consent of instructor.

321. Choral Workshop
A study of selected choral literature through analysis, listening and performance. Student conducting, accompanying, and planning of choral programs will be organized as special projects for music majors; the course is open, however, to all who have an interest in singing.

Private and/or class instruction in all instruments is available to non-music majors. A moderate charge will be made.

PHILOSOPHY AND RELIGION

Wavell (*Head*), Darrah, DeNicola, Edge, Wettstein

The Department offers majors in Philosophy and in Philosophy and Religion.

Students majoring in Philosophy are required to take the following program of courses:

Introduction to Philosophy (103)

Ethics (108)

Introduction to Logic (123)

History of Early Western Philosophy (201)

History of Modern Philosophy (204)

Five electives chosen from:

Philosophy (not less than three):

202, 212, 215, 217, 306, 309,
311, 345, 346, 347, 348, 398

Religion (not more than two):

113, 218, 327, 328, 427

Departmental Senior Seminar (480)

Senior Independent Study (499)

Students majoring in Philosophy and Religion are required to take the following courses:

Introduction to Philosophy (103)

Ethics (108)

History of Early Western Philosophy (201)

The Old or New Testament (205 or 206)

Development of Christian Thought (218)

Five electives chosen from:

Philosophy (not less than two):

202, 204, 212, 215, 217, 306,
309, 346, 347, 348, 398

Religion (not less than two):

114, 205 or 206, 291, 327,
328, 427

Departmental Senior Seminar (480)

Senior Independent Study (499)

Both Philosophy and Philosophy and Religion majors are urged to acquire a sound background for their area of special interest by electing, in consultation with their advisers, supporting courses in other disciplines.

PHILOSOPHY

101. Freshman Honors Seminar

103. Introduction to Philosophy

An introductory examination of the aims, methods, and problems of the principal branches of philosophy.

108. Ethics

A critical survey of the most important theories of morality. The second half of the course is devoted to contemporary ethical thought.

123. Introduction to Logic

A course on the principles of valid reasoning. Introductions are provided to both the traditional and modern approaches.

198. Directed Study

201. History of Early Western Philosophy

The development of philosophy in ancient Greece. Special emphasis will be given to the thought of Democritus, Socrates, Plato, Aristotle, and the Stoics.

202. Medieval and Renaissance Philosophy

A review of the development of western philosophy between the 6th and 16th centuries, special attention being given to the leading scholastic philosophers. Prerequisite: one course in philosophy or consent of instructor.

204. History of Modern Philosophy

The development of British Empiricism and Continental Rationalism in the 17th and 18th centuries. Emphasis will be placed upon the philosophies of Locke, Berkeley, Hume, Descartes, Spinoza, Leibniz, and Kant.

212. Aesthetics

A study in the philosophical problems posed by art. This course is recommended for art majors. Prerequisite: one course in philosophy or in art.

215. Social and Political Philosophy

An examination of social contract theory, natural rights, punishment, and the nature of freedom and justice. Readings will be chosen from the "classical" authors (Hobbes, Locke and Hume) as well as from authors of the contemporary analytical school. Prerequisite: one course in philosophy or consent of instructor. (Not offered 1971-1972)

217. Philosophy of Religion

A study of the philosophical problems posed by religious experience, values, and claims to knowledge. Prerequisite: one course in philosophy or religion. (Not offered 1971-72)

306. Philosophy of the Recent Past

A study of the development of philosophy in the 19th and early 20th centuries.

309. Contemporary Philosophy

A study of some of the most important 20th century philosophical movements selected from: realism, pragmatism, logical atomism, logical positivism, philosophical analysis, existentialism, and phenomenology. Prerequisite: Philosophy 103 or 204.

311. Philosophy of Science

A critical discussion of the presuppositions, methods, and principal concepts employed in the natural sciences.

345. Mathematical Logic

A course in modern symbolic logic providing an exact foundation for mathematical reasoning. Prerequisite: one course in mathematics or Philosophy 123.

346. Philosophy of the Social Sciences

An examination of philosophical problems encountered in the social sciences. Among the topics considered are: the logic of concept formation and measurement, the question of objectivity, the nature of historical explanation, the use of ideal types, the alleged uniqueness of historical events, the difference between "hard" and "soft" sciences, and moral considerations raised in social science research. This course is recommended for social science majors. Prerequisite: one course in philosophy or in behavioral science.

347. Philosophy of Language

A review of present knowledge of the structure and functions of language, followed by a study of some of the philosophical problems arising out of this knowledge. Special attention will be given to the problems connected with linguistic meaning, cultural relativity, and natural logic. Prerequisite: Philosophy 103 or 123.

348. Philosophy of Mind

A study of selected topics in the philosophy of mind, including: free-will; knowledge, belief and awareness; self-awareness; reasons and causes in human behavior; action and conduct; intentions; alternative accounts of purposive behavior. This course is recommended for behavioral science majors. Prerequisite: one course in philosophy or behavioral science.

380. Studies in Philosophy

A seminar on selected topics in philosophy.

398. Directed Study for Juniors

480. Senior Departmental Seminar

A study of problems in metaphilosophy. Open to philosophy majors only.

499. Senior Independent Study

Open to philosophy majors only.

RELIGION

113. World Religions: Far Eastern

A study of the pattern of religious life and thought in Hinduism, Buddhism, and the religions of China and Japan, emphasizing the interpretation of their sacred literature and historical development.

114. Religion in America

The variety of religious experience and institutions in the United States will be examined in relation to the colonial, "national," Civil War, industrializing, and contemporary periods. Phenomena of revivalism, utopianism, the Social Gospel, and secular Christianity will be studied in the context of their historical situations, faith patterns, and cultural influences. (Not offered in 1971-1972)

205. The Old Testament

A study of the literature and religion of the Old Testament.

206. The New Testament

A study of the content, character, hope, and promise of the New Testament.

218. Development of Christian Thought

An examination of major themes in the history of Christian thought through the discussion of selected classics of its literature, including the writings of St. Augustine, St. Anselm, St. Thomas Aquinas, Martin Luther, John Calvin, Friedrich Schleiermacher and Soren Kierkegaard. Prerequisite: one course in philosophy or religion.

291. Nature of Mystical Experience

(Directed Study)

An exploration of mystical experience and meditative techniques by studying the writings of contemplatives of several religious traditions. Prerequisite: one course in religion.

327. Contemporary Religious Thought

An investigation of the major options developing in western religious thought in the 20th century in existential, process, linguistic, secular, and historical contexts. Issues dealt with include: theological language, the relation of religion to science, the theological foundation of ethics, and the "death of God" theology. Prerequisite: one course in philosophy or religion.

328. Existentialism and Religious Thought

A study of the problems and possibilities of theism, atheism, and humanism from the existentialist perspective. Authors to be read and discussed will include Kierkegaard, Nietzsche, Heidegger, Sartre, Marcel, Unamuno and Berdyaev. Classes will be conducted in seminar form, with students as well as the instructor presenting papers for discussion. Prerequisite: one course in philosophy or religion.

331. Religious Responses to Social Issues

A work-study course that examines theological justifications for the involvement of religious institutions and persons in programs of social reform, as well as provides direct contact with the work of such programs. Religious pronouncements will be examined in relation to biblical literature, theological and social theory, and the activities of churches and the people themselves. The focus will be on poverty problems. Prerequisite: one course in religion.

427. New Directions in Religious Thought

An examination of contemporary positions on the following current issues in Protestant, Roman Catholic, and Jewish religious thought: the possibility of a "secular religion", the development of a "new morality", the prospects of ecumenical and inter-faith dialogue, birth control, and the relation of church and society.

PHYSICAL EDUCATION

Justice (*Director*), Coffie, Copeland, Howell, Jarnigan, Mack, Meisel

Students enrolled in Physical Education classes and those participating in intramural sports should have a physical examination each year. No student may enter any activity for which he or she is not physically fit.

Students bringing certificates of disability from personal physicians must have the certificates endorsed by the College physician before they will be accepted by the department.

All freshmen and transfer students must take the Rollins College swimming test at the beginning of the fall or spring term. Students who fail the test will be assigned to a swimming class until they can pass the test.

All students are required to register for four terms of physical education and must complete satisfactorily P.E. 101, 102, 103, and 104, which comprise Basic Physical Education, a team sport, and, for the men, an individual or dual sport and an elective; and, for the women, two electives. Regular attendance is necessary to meet requirements of the College. It is the policy of the department that irregular attendance automatically results in "failure" for the term. Those students who have not successfully completed four terms by the end of the fall term of their third year will be referred to the Academic Standards Committee.

Students who have completed four terms may register for any activity on a non-credit basis when openings and instructional personnel permit.

The program required for transfer students to Rollins College is adjusted on an individual basis by the Director of Men's (or Women's) Physical Education.

The physical education requirements may be waived or altered for individual students for any of the following reasons:

1. Upon recommendation of the College physician after consulting with the Director of Men's (or Women's) Physical Education.
2. For transfer students who enter Rollins College with four hours credit or portion thereof.
3. For inability to meet the standards of selected courses after regular attendance and conscientious effort, upon recommendation of the Director of Men's (or Women's) Physical Education.
4. For other exceptional cases, upon recommendation of the Director of Men's (or Women's) Physical Education and with the approval of the Dean of the College.

The College will furnish all necessary playing equipment for physical education classes and intramural sports except uniforms, tennis racquets, and golf clubs. Men students are required to purchase a standard uniform consisting of a T-shirt, shorts, socks, and supporter. The uniform is sold at the Physical Education Office at a cost that normally does not exceed \$4.00. The accepted uniform for women is black shorts and white blouse.

Activities may be added or withdrawn at the discretion of the Physical Education Department.

THE CURRICULUM FOR MEN:

101M. Basic Physical Education

To be taken in first year, fall or spring term as assigned by the Director of Men's Physical Education.

102M. Team Sport

Choice of basketball, flag football, soccer, softball or volleyball. A Varsity or Junior Varsity sport (baseball, basketball, crew or soccer) will satisfy this requirement.

103M. Individual and Dual Sport

Choice of archery, badminton, bowling, golf, paddleball, sailing, swimming, tennis, and water skiing.

104M. Elective

Any of the above activities may be taken by students who have successfully completed P.E. 101, 102, and 103.

THE CURRICULUM FOR WOMEN:

1. The Required Program:

P.E. 101W. Basic Physical Education. To be taken in the freshman year as assigned by the Registrar.

P.E. 102W. Team Sport, Basketball, Volleyball.

2. The Electives Program:

P.E. 103W. Archery, badminton, basketball, bowling, dance, golf, gymnastics, paddleball, riding, sailing, tennis, water skiing.

P.E. 104W. Archery, badminton, bowling, dance, golf, gymnastics, paddleball, riding, sailing, tennis, volleyball, water skiing.

INTRAMURAL ACTIVITIES

The Rollins College Intramural Program affords an opportunity for all students to participate voluntarily in competitive sports of their choosing. These activities are carried on in addition to the regular classes scheduled in physical education.

For the men: Teams representing fraternities, independents, faculty, graduates, and administrative staff compete. A trophy is awarded to the team receiving the greatest number of points during the college year. Sports include badminton, basketball, bowling, flag football, golf, sailing, soccer, softball, swimming, table tennis, tennis, track, and volleyball.

For the women: Teams representing sororities and independents compete. Trophies are awarded to the winning team in each sport. The O'Brien Trophy is awarded to the group receiving the greatest number of points during the college year. Sports include archery, basketball, bowling, golf, sailing, softball, swimming, table tennis, tennis, and volleyball.

PHYSICS

Ross (*Head*), Griffin, Mulson

Students planning to major in Physics should take Mathematics 111-112 and Foundation Science 141-142 in their freshman year. A physics major must take Physics 217, 218, 307, 308, 311, 314, 441 and 445. The Departmental Seminar and Winter Team Independent Study are required in the senior year. Two additional courses should be elected from advanced offerings in either physics, chemistry, or mathematics.

217. Atomic Physics

The theory of special relativity, particle aspects of electromagnetic radiation, wave aspects of material particles, structure of the hydrogen atom, atomic spectroscopy, and X-ray spectra. With laboratory. Prerequisite: FC142 and Mathematics 112.

218. Nuclear Physics

Basic properties of nuclei, radioactivity, nuclear reactions, fission, fusion, nuclear structure, nuclear models, and fundamental particles. With laboratory. Prerequisite: Physics 217.

307. Mathematical Physics

Selections from those areas of applied mathematics which form the basis for advanced work in classical and quantum physics. Prerequisite: Physics 218, Mathematics 212.

308. Mechanics

An analytical course covering particles, systems of particles and rigid bodies through the use of Newtonian, Lagrangian, Hamiltonian, and Relativistic mechanics. Prerequisite: Physics 307.

311. Optics

Physical optics: coherence and interference, Fraunhofer diffraction, Fresnel diffraction and polarization. Laboratory experiments correlated with theory. Prerequisite: Physics 218 and Mathematics 212.

314. Electricity and Electronics

A vector treatment of electric and magnetic fields and their interactions with charged particles in vacuum, conductors, and dielectric media. La-

boratory experiments in DC and AC circuits, power suppliers, amplifier circuits, oscillators, and electronic measuring instruments. Prerequisite: Physics 218 and Mathematics 212.

441. Quantum Mechanics

An introduction to, and application of, the Schrödinger Wave Equation to the hydrogen atom, harmonic oscillator, and potential barriers. Approximate solutions will also be studied. Prerequisite: Physics 307 or consent of instructor.

445. Electromagnetic Theory

Maxwell's equations, plane electromagnetic waves in free space and in matter, reflection and refraction radiation of electromagnetic waves, electromagnetic field of a moving charge. Prerequisite: Physics 314.

447. Solid State Physics

Crystal structure, mechanical and thermal properties of solids, electrical and magnetic properties of insulators and metals, band theory of metals, insulators, and semiconductors.

498. Departmental Seminar

A study of the evolution of physics and its place in modern society. Selected readings from the classical literature and current journals leading to oral and written presentations for class discussion. Required of physics majors in their senior year.

499. Independent Study for Seniors

PRE-MEDICINE

Advisers: Blossey (*Chairman*), Ross, Roth, Sandstrom, Vestal

The premedical program offers an interdisciplinary approach to the preparation of a student who plans to enter a medical-related professional school. The program is constructed upon the ideal of pre-professional courses in the context of a liberal arts background. The science requirements of most professional schools are met by courses in biology, chemistry, mathematics and physics. Although the program is designed to meet the requirements of most medical schools, students wishing to enter dentistry, vet-

erinary medicine, and other para-medical fields are equally served by the major.

Required Courses include:

Science Foundation Course (FC141, 142)
Mathematics (Math 111, 112 or 100, 111)
Organic Chemistry (Chemistry 221, 222)
Physiology (Biology 212)
Analytical Chemistry (Chemistry 331, 332)
Atomic and Nuclear Physics (Physics 217, 218)
Comparative Vertebrate Anatomy (Biology 323)
Vertebrate Embryology (Biology 328)

Suggested Electives

Physical Chemistry (Chemistry 305)
Genetics (Biology 408)
Microbiology (Biology 329)
Biochemistry (Chemistry 431)
Mammalian Anatomy (Biology 325)
Statistical Methods (Mathematics 120)

Introduction to the Behavioral Sciences (Behavioral Science 200)

Physiological Psychology (Behavioral Science 365)

Experimental or Research Experience (Behavioral Science 361; Biology 399, 499; Chemistry 399, 499)

The Senior Departmental Course for the pre-medical major is Cellular and Molecular Biology (Biology 451). The Senior requirement of independent study can be satisfied in any of the appropriate departments with consultation of the pre-medical adviser.

THEATRE ARTS AND SPEECH

Juergens (*Head*), Amlund, Gawlikowski, Mendez, Rodgers

THEATRE ARTS

A student who majors in Theatre Arts should be able to demonstrate, through performance, his proficiency in basic acting, directing, designing, and production skills. To achieve this end, every student will take a specified series of courses in

his major field, and participate in at least two major dramatic events each year. At the end of the sophomore year each student will be evaluated by the theatre staff to determine the desirability of his continuing in the major. In addition, every student must successfully pass comprehensive examinations by the end of the senior year. These examinations are designed to measure the student's knowledge in history of the theatre, dramatic literature, and drama criticism.

It is possible to take a concentration in two separate areas within the major: the emphasis in Performance, or the emphasis in Technical Theatre and Design.

Concentration in Performance, Required Courses:

Introduction to the Theatre (101, 102)
History of the Theatre (221, 222)
Dramatic Criticism and Playwriting (301, 302)
Acting I (251, 252)
Stagecraft (261, 262)
Acting II (304, 305)
(Permission of staff required)
Senior Practicum: Directing (401, 402)
At least two terms of Theatre Workshop (198, 298, 398)

Recommended Courses:

Design (307, 308)
Shakespeare (English 317, 318)
Two terms of: Development of the Drama (English 351, 352) or Twentieth-Century Drama (English 363, 364)

Concentration in Technical Theatre and Design, Required Courses:

Introduction to the Theatre (101, 102)
History of the Theatre (221, 222)
Dramatic Criticism and Playwriting (301, 302)
Stagecraft (261, 262)
Stage Lighting (263)
Design (307, 308)
Senior Practicum: Design (401, 402)
At least three terms of Theatre Workshop (198, 298, 398)

Recommended Courses:

Principles of Art (Art 131, 132)

Introduction to Art History (Art 201, 202)
Shakespeare (English 317, 318)
Two terms of: Development of the Drama
(English 351, 352)
Twentieth Century Drama (English 363, 364)

101, 102. Introduction to the Theatre
A survey of the organization and economic structure of Broadway, educational, and amateur theatre; survey of theatre architecture; study of contemporary play forms; analysis of play structure. Open to all students.

221, 222. History of the Theatre
Introductory course presenting the theatre in historical perspective; a study of key periods of history of the theatre and drama in relation to what these periods have contributed to the evolution of the modern theatre. Open to all students. Twelve laboratory hours per term required. Offered in alternate years.

198, 298, 398. Theatre Workshop
Practical work in the production of plays or group projects, prepared for public performance. At least two terms required of all majors. Open to all students.

251, 252. Acting I
Exercises in relaxation, concentration, observation; script analysis, determination of actor's objective; preparation of scenes, improvisations. Prerequisite: Consent of instructor, except for majors.

261, 262. Stagecraft
Theory and practice in the technical aspects of the design, construction, and painting of scenery, with some consideration of historical development of the art of stagecraft. Students work on production crews. Open to all students.

263. Stage Lighting
Theory and practice in the design and execution of stage lighting, with some consideration of the history of stage lighting. Students work on production crews. Prerequisite: Theatre Arts 262.

301, 302. Dramatic Criticism and Playwriting
A survey of dramatic criticism beginning with

Aristotle. The emphasis is placed on the more pragmatic aspects of dramaturgy, leading to practical work in playwriting. Open to all students. Required of majors. Offered in alternate years.

304, 305. Acting II
Continued work with acting techniques, with increased emphasis on external aspects (control of body and voice), and their application to various styles of acting; Shakespeare, English Restoration, Greek Tragedy, and Comedy. Prerequisite: Theatre Arts 252 or consent of instructor.

307, 308. Design for Theatre
Advanced study in the theory and practice of stage and costume design; study of the history of stage and costume design. The emphasis is on execution of ground plans, sketches and renderings, along with practical work in costume construction. Some experience with drafting and painting recommended. Prerequisite: Consent of instructor, except for majors.

401, 402. Senior Practicum: Directing or Design
The senior major course. Seminar in major trends of the modern theatre; also, individual projects. For students concentrating in performance, the course will entail a study of directing skills; for students concentrating in technical theatre and design, advanced design studies. Design students in this course will design lighting, sets, or costumes for one or more of the major productions.

498. Independent Study
Research leading to a long paper on any phase of the theatre; preparation for comprehensive examination.

SPEECH

101. Fundamentals of Speech
Consideration of the process of oral communication and the fundamentals of speech, with the application of these fundamental skills in the preparation, delivery, and evaluation of the common forms of public address and discussion. Open to all students.

104. Group Discussion

This course is designed to develop the attitudes, skills, and knowledge of methods favorable to effective participation in group discussion.

202. Argumentation and Debate

Study of the forms of debate, historically as well as practically. Participation in interscholastic debate tournaments required. Open to all students.

298. Directed Study

Directed study in one of areas of speech: discussion, debate, public address, oral interpretation, speech pathology. Prerequisite: Speech 101 or equivalent.

303. Oral Interpretation of Literature

Oral re-creation of literature for an audience, and principles and practice in comprehension, appreciation and skill in projecting literary material of various kinds. Prerequisite: Speech 101 or consent of instructor.

304. Elements of Persuasion

Classical and contemporary theories of persuasion. Examining ethics of persuasion, motivational analysis, and non-logical appeals, plus the preparation and delivery of various types of persuasive speeches. Prerequisite: Credits in a fundamentals speech course or consent of instructor.

305. Readers and Chamber Theatre

Reading or memorization, analysis, and adaptation of literature for solo and group performance culminating in recital performances. Prerequisite: Speech 201 or 303.

322. Advanced Public Speaking

Advanced study and practice of the various forms of public address emphasizing organization and delivery. Prerequisite: Speech 101.

Paul F. Douglass, A.B., A.M., Ph.D., LL.D.
*Professor Emeritus of Political Science, (1956;
1971)*

William Thomas Edwards, B.A.E., M.A.E., Ph.D.
Professor Emeritus of Education, (1961; 1971)

Catharine Crozier Gleason, B.M., M.M., Mus.D.
Associate Professor Emeritus of Organ, (1955; 1969)

Edwin Phillips Granberry, A.B., Litt.D.
Irving Bachellor Professor Emeritus of Creative Writing, (1933; 1970)

Alfred Jackson Hanna, A.B., L.H.D.
Vice President Emeritus; Weddell Professor Emeritus of History of the Americas, (1917; 1970)

Alice McBride Hansen, A.B., B.L.S., Ed.M.
Librarian Emeritus (1951; 1969)

Leah Rice Koontz, B.S., Certificate
Lecturer Emeritus in English, (1954; 1971)

Flora Lindsay Magoun, B.A., A.M.
Associate Professor Emeritus of Business Education, (1935; 1967)

William Melcher, A.B., A.M., Ph.D., LL.D.
Professor Emeritus of Business Administration (1935; 1952)

Constance Ortmayer, Graduate Royal Academy of Fine Arts, and Royal Academy Master School
Professor Emeritus of Sculpture, (1937; 1968)

Audrey Lillian Packham, B.S. in Edn., A.M.
Professor Emeritus of Education, (1930; 1966)

George Sauté, Ph.B., A.M.
Professor Emeritus of Mathematics, (1943; 1969)

Bernice Catharine Shor, B.S., M.S.
Associate Professor Emeritus of Biology, (1926; 1968)

Lionel M. Summers, B.S., J.D., Certificat d'études
Associate Professor Emeritus of Political Science, (1962; 1971)

Wendell Cornell Stone, A.B., Ph.D., LL.D.
Professor Emeritus of Philosophy, (1933; 1970)

Alexander Waite, A.B., M.Ed., Ph.D.
Professor Emeritus of Psychology, (1937; 1967)

THE FACULTY (1971-1972)

John Jackson Bowers
President of the Faculty; Professor of Mathematics (1962; 1971); Head, Department of Mathematics
B.A., Wesleyan University; M.S., Ph.D., Carnegie Institute of Technology

Peter H. Bonnell
Vice President of the Faculty; Professor of Russian and German (1964; 1969)
A.B., University of California at Berkeley; Ph.D., Harvard University

Edward H. Cohen
Secretary of the Faculty; Associate Professor of English (1967; 1971); Arthur Vining Davis Fellow, 1971-72
B.A., University of Maryland; M.A., University of Iowa; Ph.D., University of New Mexico

Dale F. Amlund
Associate Professor of Theatre Arts (1966; 1971)
B.F.A., Minneapolis School of Art; M.F.A., Yale Drama School

Alexander Anderson
Assistant Professor of Music (1969; 1971)
B.M., University of Glasgow

Gerald Lawrence Ball
Acquisitions Librarian (Instructor) (1970; 1970)
B.Ed., Boston College; M.Ed., Boston State Teachers College, B.S., Simmons College

Elizabeth A. Beall
Head Catalog Librarian (Instructor) (1968; 1968)
B.S., Carnegie-Mellon University; M.L.S., University of Pittsburgh

Wesley Eric Blamick
Assistant Professor of Education (1971; 1971)
B.S., Bethany College; Ed.M., University of Pittsburgh; Ed.S., Ed.D., University of Florida

Erich C. Blosssey
Associate Professor of Chemistry (1965; 1969)
B.S., Ohio State University; M.S., Iowa State University; Ph.D., Carnegie Institute of Technology

- Edward E. Borsoi (*on leave, 1971-72*)
Assistant Professor of Spanish (1969; 1969)
 B.A., University of Bridgeport; M.A., Ph.D., University of Illinois
- Thomas Brockman
Associate Professor of Piano, (1962; 1968)
 Curtis Institute of Music; B.S., Juilliard School of Music; pupil of Olga Samaroff; graduate study in Europe with Edwin Fischer, Nadia Boulanger, and Robert Casadesus
- Myrtle Carolyn Burnett
Associate Professor of Psychology, (1961; 1969)
 B.S., Stout Institute; M.Ed., University of South Carolina; Ed.D., University of Florida
- C. Francis Byers
Visiting Professor of Biology, and Scientist in Residence, (1969; 1969), Chairman "The Sciences; A Search for Order," Foundation Course
 A.B., M.S., Ph.D., University of Michigan
- John F. Byrnes
Assistant Professor of Business Administration, Patrick Air Force Base Branch, (1970; 1971); Director, Patrick Air Force Base Branch of Rollins College
 B.B.A., Manhattan College; M.A., New York University
- Alphonse Carlo
Associate Professor of Violin and Viola, (1942; 1944)
 Graduate, Teacher's Diploma, and post-graduate study, Juilliard School of Music; graduate, National Orchestral Association, New York City
- John Carter
Professor of Theory, Composition, and Piano, (1938; 1949)
 B.M., Rollins College; graduate study, Juilliard School of Music; pupil of Roy Harris in composition and musicology; pupil in piano of Muriel Kerr, Alton Jones, James Friskin; coached in German Lieder by Coenraad Bos
- George Thomas Cochran
Associate Professor of Chemistry, (1967; 1971); Director of Institutional Self-Study for the
Southern Association of Colleges and Schools
 B.S., University of Richmond; M.S., University of Tennessee; Ph.D., Clemson University
- Howard Boyd Coffie, Jr.
Assistant Professor of Physical Education, (1962; 1967); Coordinator of Enyart-Alumni Fieldhouse
 B.A., M.A.T., Rollins College
- Nathan Norman Copeland
Instructor in Physical Education, (1955; 1963)
 A.B., Rollins College
- Deloit E. Cotanche
Assistant Professor of Education, (1969; 1969)
 B.S., Troy State University; M.A., Ed.D., University of Alabama
- Claude Lee Crawford
Instructor in Political Science, Patrick Air Force Base Branch, (1971; 1971)
 B.S., United States Military Academy at West Point; M.A., LL.B., University of Virginia
- Jack B. Critchfield, President;
Professor of Education, (1969; 1969)
 B.S., Slippery Rock State College; M.A., Ed.D., University of Pittsburgh
- Edward F. Danowitz
Assistant Professor of Spanish, (1971; 1971)
 B.S., Holy Cross College; M.S., George Washington University; M.A., Ph.D., University of Pennsylvania
- Theodore Stanley Darrah
Dean of The Knowles Memorial Chapel; Professor of Religion, (1947; 1947)
 B.S., S.T.B., Harvard University
- Daniel R. DeNicola
Instructor of Philosophy (1969; 1969)
 A.B., Ohio University; M.Ed., Harvard University
- Wilbur Dorsett
Associate Professor of English, (1946; 1962)
 A.B., M.A., University of North Carolina
- Evelyn Jensen Draper
Archivist (Assistant Professor), (1957; 1971)
 B.S. in L.S., Simmons College

- Margaret Dickinson Duer
Head Reference Librarian (Instructor), (1968; 1968)
A.B., Florida State College for Women; B.S. in L.S., University of North Carolina
- Hoyt Littleton Edge
Assistant Professor of Philosophy, (1970; 1970); Chairman, Humanities Foundation Course
B.A., Stetson University; M.A., Ph.D., Vanderbilt University
- Charles Milton Edmondson
Assistant Professor of History, (1970; 1970)
B.A., M.A., University of Mississippi; Ph.D., Florida State University
- David W. Epley
Assistant Professor of Economics, (1967; 1967)
B.A., Harvard University; M.P.I.A., Ph.D., University of Pittsburgh
- David J. Etzold
Professor of Business Administration, (1969; 1971)
B.S., D.B.A., Mississippi State University; M.B.A., Rollins College
- Adolphus Ross Evans
Associate Professor of Business Administration, (1949; 1949)
B.A.E., University of Florida; M.S.B.A., Columbia University; CPA, Florida
- Marion Folsom, Jr.
Associate Professor of English, (1961; 1967); Head, Department of English
A.B., Princeton University; M.A., University of Rochester; Certificat, Sorbonne, Université de Paris
- Fred Ford
Assistant Professor of Business Administration, Patrick Air Force Base Branch, (1967; 1971)
B.S., Wharton School, University of Pennsylvania; M.B.A., Temple University
- William K. Gallo
Assistant Professor of Music, (1967; 1967)
B.S., University of Illinois; M.A., Ph.D., The Catholic University of America
- David A. Gawlikowski
Assistant Professor of Theatre Arts, (1968; 1971)
B.S., M.A., Ball State University
- Norman T. Gilbert
Assistant Professor of Political Science, (1971; 1971)
A.A., Valley College; B.A., San Fernando Valley State College; M.A., University of California at Berkeley
- Nelson S. Glass
Assistant Professor of Education, (1968; 1971)
B.A., Pennsylvania State University; M.A., Stetson University
- Donald Christian Griffin
Assistant Professor of Physics, (1970; 1970)
B.S., Rollins College; M.S., Ph.D., Purdue University
- Wayne DeWees Hales
Instructor in Economics, (1971; 1971)
B.A., Oklahoma City University; M.S., Oklahoma State University
- Hallie Lu Hallam
Assistant Professor of Art History, (1966; 1966)
B.A., West Virginia Wesleyan College; M.A., Florida State University
- John Bowen Hamilton
Professor of English, (1957; 1963)
A.B., Birmingham-Southern College; M.A., Ph.D., University of North Carolina
- Muriel Jean Hamilton
Catalog Librarian (Adjunct Assistant Professor), (1968; 1971)
B.A., Minot State College; B.S. in L.S., M.A., University of Denver
- Ada P. Haylor
Associate Professor of English, (1967; 1971)
A.B., Oberlin College; M.A., University of North Carolina
- Herbert Elmore Hellwege
Professor of Chemistry, (1954; 1963); Head, Department of Chemistry; Arthur Vining Davis Fellow, 1971-72
Ph.D., University of Hamburg

- Fred W. Hicks
Associate Professor of History, (1964; 1969);
Director of Development; Executive Assistant
to the President
A.B., M.A., Ph.D., University of Michigan
- Donald W. Hill
Professor of Economics, (1958; 1966)
Wilkes College; B.S., Bucknell University; M.S.,
Cornell University; Ph.D., The American Uni-
versity
- Gordon E. Howell
Assistant Professor of Physical Education,
(1967; 1971)
B.S., Western Carolina College; M.A.T., Rollins
College
- Peggy Ann Jarnigan
Assistant Professor of Physical Education,
(1967; 1971)
B.S., Carson-Newman College; M.S., University
of Tennessee
- Ross Ann Jenny
Associate Dean of Student Affairs; Instructor in
Education, (1970; 1970)
B.S., University of Delaware; M.Ed., University
of Florida
- Arthur R. Jones
Associate Professor of Sociology, (1969; 1969)
B.A., Baylor University; M.A., Ph.D., Louisiana
State University
- Charles Joseph Jorgensen
Professor of Economics, (1970; 1970)
B.S., University of Illinois; Ph.D., University of
Washington
- Robert O. Juergens
Associate Professor of Theatre Arts, (1963;
1968); Director, Annie Russell Theatre; Head,
Department of Theatre Arts and Speech
B.A., Heidelberg College; M.A., Ohio State Uni-
versity; M.F.A., Yale School of Drama; D.F.A.,
Yale University
- Joseph Justice
Associate Professor of Physical Education,
(1946; 1957); Director of Physical Education
and Athletics
A.B., Rollins College
- Patricia Anne Lancaster
Instructor in French, (1970; 1970)
B.A., Coker College; M.A., Emory University
- Jack C. Lane
Associate Professor of History, (1963; 1968);
Head, Department of History and Public Af-
fairs
B.A., Oglethorpe University; M.A., Emory Uni-
versity; Ph.D., University of Georgia
- Ronald B. Larned
Instructor in Art, (1969; 1969)
B.A., Texas Technical College; M.A., New Mex-
ico State University
- George Edward Larsen
Director of Libraries (Assistant Professor),
(1968; 1970)
A.B., Williams College; M.S., Florida State Uni-
versity
- William Edward Legg
Instructor in Economics, (1971; 1971)
B.A., M.A., Florida State University
- Robert Barry Levis
Assistant Professor of History, (1968; 1971);
Chairman, Social Sciences Foundation Course;
Faculty Chairman of Freshman Studies
B.S., M.A., Ph.D., Pennsylvania State University
- Mary Virginia Mack
Assistant Professor of Physical Education, (1962;
1967); Director of Women's Physical Education
B.S., University of Missouri; M.P.H., University
of Florida
- Carolyn Bouland McFarland
Reference Librarian (Instructor), (1970; 1970)
B.A., University of South Florida; M.S., Florida
State University
- Hugh Ferguson McKean
Chancellor; Professor of Art (1932; 1951)
A.B., Rollins College; M.A., Williams College;
L.H.D., Stetson University, College of Law;
D. Space Ed., Brevard Engineering College
- James Norman McLeod
Assistant Professor of Anthropology, (1970;
1970) B.A., M.A., University of California at
Santa Barbara

- Harry J. Meisel
Assistant Professor of Physical Education, (1963; 1966); Director of Men's Physical Education
 B.S., Stetson University; M.A., Columbia University
- Charles Stetson Mendell, Jr.
Professor of English, (1936; 1946)
 A.B., Dartmouth College; A.M., Harvard University
- Anthony J. Mendez
Assistant Professor of Theatre Arts, (1970; 1970); Technical Director of the Theatre
 B.A., Lynchburg College; M.A., University of Virginia
- Elinor Smith Miller
Associate Professor of French, (1968; 1968); Co-Chairman, Senior Interdisciplinary Studies
 A.B., Wesleyan College; M.A., Ph.D., University of Chicago
- Sir Harold Mitchell, Bt.
Research Professor of Latin American Studies, (1965; 1966)
 B.A., M.A., Oxford University; Dr. es Sc. Pol., University of Geneva; LL.D., Rollins College, St. Andrews University, University of Alberta
- Joseph F. Mulson
Associate Professor of Physics, (1962; 1968)
 B.S., Rollins College; M.S., Ph.D., Pennsylvania State University
- Ralph Howard Naleway
Assistant Professor of Mathematics, (1968; 1968)
 B.S.E., University of Florida; M.A.L.S., Wesleyan University
- Alice V. Neil
Librarian, The Roy E. Crummer School of Finance and Business Administration (Assistant Professor), (1966; 1971)
 Ph.B., University of Chicago; B.S. in L.S., Carnegie Library School
- E. Alan Nordstrom, Jr.
Assistant Professor of English, (1970; 1970)
 B.A., Yale University; A.M., University of Michigan
- J. Allen Norris, Jr.
Acting Dean of the College; Professor of Education, (1964; 1969)
 B.A., M.A.T., Ed.D., Duke University
- Philip Pastore
Assistant Professor of English, (1969; 1969)
 B.A., M.A., University of Connecticut; Ph.D., University of Florida
- N. Ronald Pease
Dean of Student Affairs; Assistant Professor of Education, (1970; 1970)
 A.B., Gettysburg College; M.A., Colgate University
- Alberta LuElla Pennington
Assistant Professor of History, Patrick Air Force Base Branch, (1963; 1966)
 B.A., M.A., University of Oklahoma
- Nicholas Tate Perkins
Assistant Professor of Mathematics and Science, Patrick Air Force Base Branch, (1964; 1967)
 B.S., United States Military Academy at West Point; M.S., Trinity University
- Thomas Fales Peterson
Associate Professor of Art, (1958; 1969); Head, Department of Art
 B.F.A., University of Georgia; M.F.A., Columbia University
- Walter Stephen Phelan
Assistant Professor of English, (1971; 1971)
 B.A., Pontifical College Josephinum; M.A. Ohio State University
- Lynne Miller Phillips
Librarian, The Archibald Granville Bush Science Center (Instructor), (1970; 1970)
 B.A., University of Arizona; M.L.S., Texas Women's University
- Louise A. Racey
Assistant Professor of Biology, (1971; 1971)
 A.B., Trinity College; M.S., The Catholic University of America; Ph.D., University of Florida
- Roger D. Ray
Assistant Professor of Psychology, (1969; 1969)
 B.A., Rollins College; Ph.D., University of Tennessee

- Alzo Jackson Reddick
Instructor in History, (1971; 1971); Assistant Dean of Student Affairs
B.S., Paul Quinn College; M.Ed., Florida State University
- David Irving Richard
Assistant Professor of Biology, (1968; 1968)
B.A., Capital University; M.S., Ph.D., Ohio State University
- Daniel F. Riva
Associate Professor of Political Science, (1969; 1969); Director, Central Florida School for Continuing Studies
B.S., Springfield College; M.A., George Washington University; Ph.D., University of Missouri
- Charles A. Rodgers
Assistant Professor of Speech, (1969; 1970); Director WPRK-FM
B.A., M.A., Ph.D., Ohio State University
- John Ross Rosazza
Associate Professor of Voice, (1950; 1952); Head, Department of Music
B.M., Westminster Choir College; M.A.T., Rollins College; graduate study, Conservatoire American, Fontainebleau; Conservatoire National de Musique Paris; pupil of John F. Williamson, Martial Singher, Charles Panzera, Nadia Boulanger
- John Stoner Ross
Professor of Physics, (1953; 1963); Head, Department of Physics; Chairman, "Principles of Physics and Chemistry" Foundation Course; Director, Master of Science Program
A.B., DePauw University; M.S., University of Wisconsin
- Raymond E. Roth
Archibald Granville Bush Professor of Mathematics, (1968; 1968)
B.S., M.S., St. Bonaventure University; Ph.D., University of Rochester
- Carl J. Sandstrom
Adjunct Professor of Biology, (1962; 1971)
B.S., Ph.D., University of Chicago
- Edward W. Scheer
Assistant Professor of Biology, (1965; 1965); Head, Department of Biology
B.S., Rollins College; M.A., Harvard University
- Frank Sedwick
Professor of Spanish, (1963; 1963); Director of Foreign Language Studies; Coordinator of Overseas and Off-Campus Study Programs; Head, Department of Foreign Languages
B.A., Duke University; M.A., Stanford University; Ph.D., University of Southern California
- Cary Douglas Ser
Assistant Professor of English, (1965; 1971)
B.A., M.A., University of Florida
- Richard N. Sheldon
Assistant Professor of History, (1969; 1970)
B.S., M.A., Arizona State University; Ph.D., University of Arizona
- Alexandra S. Skidmore
Associate Professor of Mathematics, (1965; 1970)
A.B., Ph.D., Western Reserve University
- David E. Smith
Assistant Professor of Biology, (1969; 1969)
A.B., Eastern Baptist College; M.S., Ph.D., University of Michigan
- Rhea Marsh Smith
Professor of History, (1930; 1942)
A.B., Southern Methodist University; A.M., Princeton University; Ph.D., University of Pennsylvania
- Rufus Burr Smith
William R. Kenan, Jr. Professor of Economics, (1967; 1968)
A.B., Princeton; A.M., Ph.D., New York University
- Richard N. Stabell
Instructor in History, (1965; 1967); Director of Admissions and Student Aid
A.B., M.A.T., University of North Carolina
- Bessie W. Stadt
Associate Professor of Spanish, (1966; 1970); Director of Learning Laboratory
B.A., M.A., University of Rochester; Ph.D., University of Arizona

- Virginia M. R. Stevens
Assistant Professor of Education, (1971; 1971)
 B.A., Mary Washington College; M.A., Ph.D.,
 University of Akron
- Lynn M. Terrett
Assistant Professor of French, (1966; 1970)
 B.A., College of Wooster; Ph.D., Tulane Uni-
 versity
- Eleanor Mitchell Thomas
Instructor in Political Science, (1971; 1971)
 B.A., Bennett College; M.A., Johns Hopkins
 School of Advanced International Studies
- Ronald G. Thompson
Instructor in Art, (1969; 1969)
 B.A., M.A., Florida State University
- James D. Upson
Associate Professor of Psychology, (1969; 1969);
Head, Department of Behavioral Science
 B.A., University of Florida; M.A., University of
 Iowa; Ph.D., Duquesne University
- Luis Valdés
Associate Professor of Latin American Studies,
(1970; 1970); Coordinator of Latin American
Studies Program
 B.A., M.A., Ph.D., University of Wisconsin
- Paul Anthony Vestal
Archibald Granville Bush Professor of Science,
(1942; 1969)
 A.B., Colorado College; A.M., Ph.D., Harvard
 University
- Edward E. Wahlkamp
Assistant Professor of Economics and Business
Administration, Patrick Air Force Base Branch,
(1968; 1971)
 B.S., M.S., University of Kentucky
- Bruce B. Wavell
Professor of Philosophy, (1959; 1969); Head,
Department of Philosophy and Religion; Direc-
tor, Honors Degree Program; Co-Chairman,
Senior Interdisciplinary Studies
 B.Sc., Ph.D., University of London
- John Philip Weiss
Assistant Professor of Sociology, (1970; 1970)
 B.A., Bowdoin College; M.A., Ph.D., Yale Uni-
 versity
- Charles August Welsh
Professor of Business Administration, (1955;
1962); Dean of The Roy E. Crummer School of
Finance and Business Administration; Director
of the Evening Graduate Programs in Business;
Head, Department of Economics
 B.S., M.A., Ph.D., New York University
- A. Arnold Wettstein
Assistant Professor of Religion, (1968; 1968);
Assistant Dean, The Knowles Memorial Chapel;
Arthur Vining Davis Fellow, 1971-72
 B.A., Princeton University; B.D., Union Theo-
 logical Seminary; Ph.D., McGill University
- Henry Robert Wier
Assistant Professor of Mathematics, Patrick Air
Force Base Branch, (1964; 1967)
 B.S., United States Naval Academy at Annapo-
 lis; M.S., Purdue University
- Marshall Macon Wilson
Associate Professor of Education, (1968; 1971);
Director, Graduate Program in Education;
Head, Department of Education
 A.A., Mars Hill College; B.A., Carson-Newman
 College; M.Ed., Ed.D., Duke University
- Frank Wilson Wolf
Assistant Professor of Education, Patrick Air
Force Base Branch, (1970; 1970)
 B.S., Florida Southern College; M.Ed., Ed.D.,
 University of Florida
- Richard Schuyler Wolfe
Registrar; Associate Professor of Mathematics,
(1957; 1966)
 B.A., Intermountain Union College; M.A., Uni-
 versity of Washington
- Ward Woodbury
Associate Professor of Music, (1966; 1966); Di-
rector of Music
 B.A., Western State College of Colorado; M.A.,
 Ph.D., University of Rochester, Eastman School
 of Music
- Charles N. Zellers
Vice President and Treasurer; Associate Pro-
fessor of Business Administration, (1970; 1970)
 A.B., Youngstown University; M.B.A., Univer-
 sity of Pennsylvania

Valys Zilius

Assistant Professor of Russian, (1967; 1967)

A.B., Boston University; M.A., University of Pennsylvania

DIVISIONS OF THE COLLEGE

For administrative purposes the academic departments of the College are organized in four divisions:

HUMANITIES: English, Foreign Languages, Philosophy and Religion

EXPRESSIVE ARTS: Art, Music, Theatre Arts and Speech

SCIENCE AND MATHEMATICS: Biology, Chemistry, Mathematics, Physics

SOCIAL SCIENCES: Behavioral Science (Anthropology, Psychology, Sociology), Economics, Education, History and Public Affairs (History, Political Science), Latin American Studies

GENERAL SUMMARY (Fall Term 1970-1971)

Men Students	605
Women Students	512
Total Enrollment Regular Students	1117

Students Enrolled in Central Florida School for Continuing Studies and Patrick Air Force Base Branch Program for Fall of 1970

Men	1002
Women	504
Total	1506

Students Enrolled in Evening Graduate Programs in Business Administration, Physics, and Education for Fall of 1970

Men	526
Women	293
Total	819

SUMMARY OF ENROLLMENT Fall Term 1970-1971

Geographical Distribution of Regular Students

Alabama	3	Nebraska	1
California	6	New Hampshire	6
Colorado	2	New Jersey	69
Connecticut	65	New York	139
Delaware	3	North Carolina	20
Dist. of Col.	12	North Dakota	1
Florida	280	Ohio	68
Georgia	20	Oklahoma	6
Hawaii	1	Oregon	1
Illinois	37	Pennsylvania	67
Indiana	6	Rhode Island	5
Iowa	4	South Carolina	6
Kansas	4	Tennessee	16
Kentucky	21	Texas	16
Louisiana	6	Vermont	1
Maine	6	Virginia	24
Maryland	34	West Virginia	4
Massachusetts	65	Wisconsin	8
Michigan	13	Canal Zone	3
Minnesota	10	Puerto Rico	2
Mississippi	1	Virgin Islands	2
Missouri	12		

Foreign Countries

Bahamas	2	Jamaica	2
Belgium	3	Mexico	1
Bermuda	2	The Netherlands	1
Brazil	5	Rep. of Panama	1
Canada	4	Peru	2
Colombia	1	Spain	2
Denmark	1	Sweden	1
Ecuador	2	Switzerland	1
England	2	Venezuela	4
Guatemala	2	West Pakistan	1
India	1		

AWARDS 1970-1971

DOCTOR OF HUMANE LETTERS

Warren F. Kuehl, '49 November 4, 1970

DOCTOR OF CIVIL LAW

Peter Thorp Fay, '51 May 22, 1971

DOCTOR OF PUBLIC ADMINISTRATION

Homer Daniels Babbidge May 23, 1971

Conduct	19-22		
Dining halls	20-21		

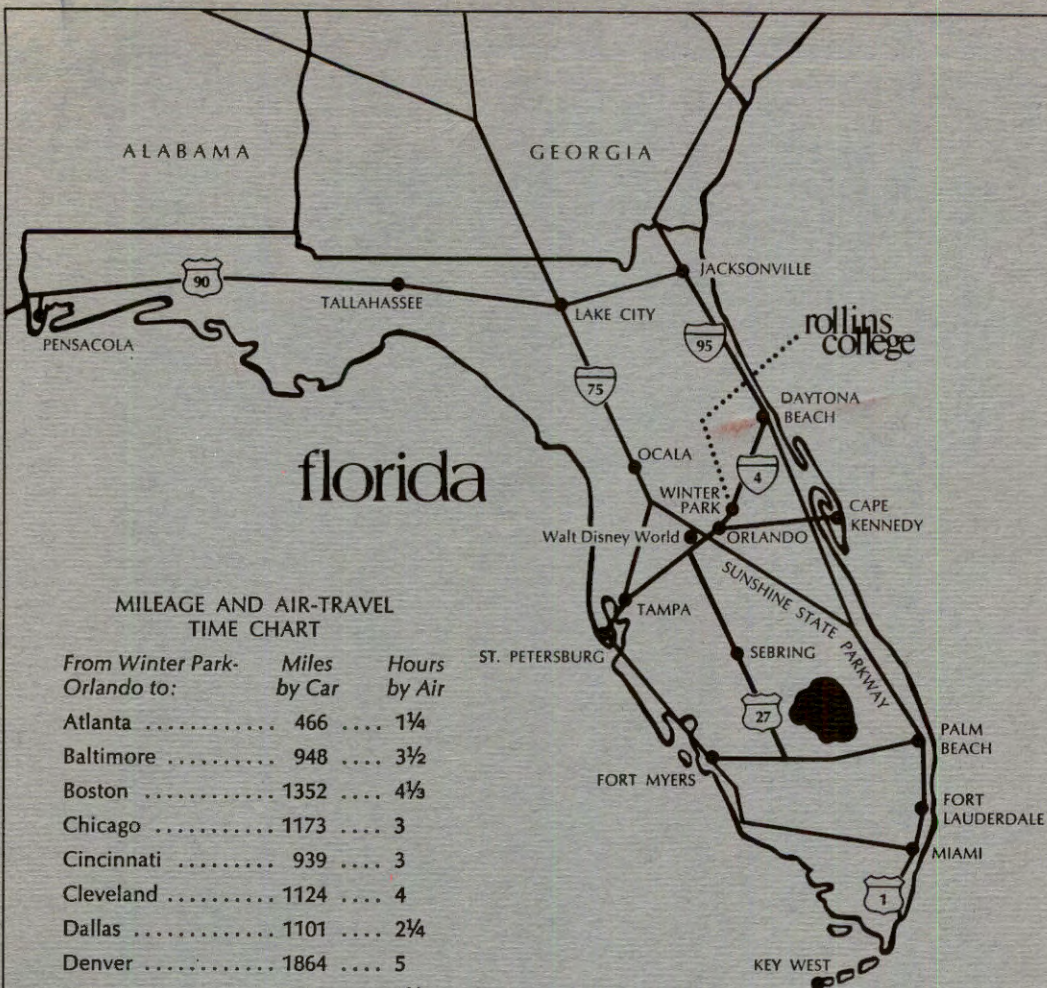

THIS IS ROLLINS COLLEGE

There is a sense of togetherness among the students, faculty and administration of Rollins College — a very real sense of family, of unity, and of belonging. You will feel this togetherness when you walk Rollins' 65-acre campus.

The people who are Rollins College work together on committees, in the classrooms, and across the campus. Together they learn in an atmosphere where everyone is considered a teacher and also a learner. Together they chart College goals and solve College problems in an atmosphere of mutual concern. Here is a College where learning is exciting and alive, where ideas are openly exchanged, and where cooperation is a way of life. This is Rollins College — the community that learns together.
